Michael,

I reviewed your corrections. More work needs to be done which I will outline below. This email does not extend the 90-day deadline for you to have this application complete, that deadline is 5/28/18.

- MJ-01:
  - Page 2, 3.2: add to your answer in this box and describe the information that you will collect of the visitor on the visitor's log. Refer to 3 AAC 306.755.
  - Page 4, 3.7: please describe your policies and procedures for preventing loitering (your answer here talks about trespassing).
  - Page 7, 6.4: please clarify what you mean by …"manufacturer Eden Labs." Manufacturer of what?

- Diagrams: will you please grab a different color and outline the bathroom, label that color as "Not restricted access area" on both diagrams (assuming you will not use the bathroom as storage of marijuana whatsoever). It can stay as "licensed premises" just not as "restricted access area". Call me if you have question on this.

- MJ-05 (this needs a bit of work): **Please do not send me bits and pieces of corrections, you will need to re-do the entire MJ-05 with the corrections and resubmit.**
  - Page 3, 4.2: add to your answer in this box and describe where you will store the marijuana waste during the three day waiting period.
  - Page 4, 5.3: you initialed this statement, but it contradicts the very previous question you answered in this page. So, are you or are you not going to do in-house testing? Please look at the two statements and correct this page accordingly.
  - Products:
    - Canna Butter:
      - Packaging description- you stated that this product will be used for in-house and to sell/transfer to another marijuana product manufacturing facility. So, in this box you also need to show how you will comply with 3 AAC 306.565 when you are packaging it to sell/transfer to another marijuana product manufacturing facility.
      - The warning labels are not verbatim. Please revisit the regulations on the exact wording and re-do.

- Co2 Extract:
    - Packaging description- describe how you will package the product when you sell/transfer to retail marijuana stores, and when you sell/transfer to another product manufacturing facility separately within this box (are you going to sell/transfer in single container to another manufacturer, for example?) Revisit 3 AAC 306.565.
    - The warning labels are not verbatim to the regulations. Please revisit the regulations on the exact wording and re-do.
- Aurora Borealis Bars:
    - Packaging description- please describe the packaging material you will be using.
    - In the ingredients list, be more specific on the "extract", is it one of the concentrates on your list of products to be considered and/or will you be buying it from another manufacturing?
    - The warning labels are not verbatim to the regulations. Please revisit the regulations on the exact wording and re-do.
- Bubble Hash:
    - Packaging description- please add to your answer and explain how many grams you will be putting in the container.
    - The warning labels are not verbatim to the regulations. Please revisit the regulations on the exact wording and re-do.
- Crop Crème:
    - The warning labels are not verbatim to the regulations. Please revisit the regulations on the exact wording and re-do.
- LFJO Herby Italian Dressing:
    - Packaging description- in this box you really need to break down the serving size, what constitutes a serving, and the bottle needs to show clear demarcations for each serving. Additionally, the label needs to show the serving size.
    - In the ingredients list, be more specific on the "marijuana extract", is it one of the concentrates on your list of products to be considered or will you be buying it from another manufacturing?
    - The warning labels are not verbatim to the regulations. Please revisit the regulations on the exact wording and re-do.
- Muddy Bites:

- Packaging description- in this box please add to your answer and explain what constitutes a serving. Additionally, the label needs to show the serving size.
- In the ingredients list, be more specific on the "extract", is it one of the concentrates on your list of products to be considered or will you be buying it from another manufacturing?
- The warning labels are not verbatim to the regulations. Please revisit the regulations on the exact wording and re-do.

▪ Shatter:

- Packaging description- in this box add to your answer and describe how much product there will be in each container.
- The warning labels are not verbatim to the regulations. Please revisit the regulations on the exact wording and re-do.

▪ Southeast Sours:

- The ingredients list does not list the "extract" you will be using as you stated on your Standard Production. Furthermore, you need to be more specific as to what type of concentrate you will be using. Will it be one of the ones you are requesting to get approved or will you be buying it from another marijuana product manufacturing facility?
- The warning labels are not verbatim to the regulations. Please revisit the regulations on the exact wording and re-do. AND, the serving size must be indicated on the label, too.

▪ Southeast Spun Honey:

- In the ingredients list you need to be more specific about what "extract" you will use. Will it be one of the ones you are requesting to get approved or will you be buying it from another marijuana product manufacturing facility? ALSO, "infused butter/coconut oil", infused with what?
- Please make it clearer your manufacturing procedure.
- The bottle needs to have very clear demarcations of the serving size.
- The warning labels are not verbatim to the regulations. Please revisit the regulations on the exact wording and re-do. AND, the serving size must be indicated on the label, too.

▪ Vape Cartridge:

- The warning labels are not verbatim to the regulations. Please revisit the regulations on the exact wording and re-do.

Respectfully,

Jane P Sawyer
