Re: Standard Marijuana Cultivation Facility #13479

Dear applicant,

The AMCO Office is reviewing the documents submitted for the proposed marijuana establishment license referenced above. The following items need to be corrected and/or resubmitted**.** Please be sure to read the entire letter.

- **MJ-02 Premises Diagram**
  - The diagrams you submitted of the proposed cultivation facility need some work, please show the following (more questions may come up once we receive a new diagram from you):
    - Building A, Phase I diagram(s): outline the entire perimeter of the proposed licensed premises and restricted access area (use separate colors). OR, you may use one color and label it Restricted Access Area and Licensed Premises.
    - Remove the cameras from all/any of the submitted diagrams.
    - What type of structure is the building? (include it on the diagram(s))
    - Building B, Phase II diagram: Thank you for including the future building referenced in your MJ-04; however, since this application is for the 30' x 36' building, please remove the red outlines. Generally, colored outlines are used to show the restricted access area and the licensed premises of the current proposed licensed premises.
    - Aerial view diagram: since this application is for the 30' x 36' building, please remove the current outline and only outline/circle/label the 30' x 36' building.
    - Conditional Use Site Plan diagram: please remove the red outline indicating the future plans/Phase II.

- **Proof of Possession for Proposed Premises**
  - Please include the suite # for the proposed marijuana cultivation facility in the premises address.

It is very important that you submit the above corrections and/or documents as soon as possible. AMCO staff needs adequate time to review the documents and determine if additional corrections and/or documents are necessary to complete your application. If you fail to complete this application within 90 days of the date of this notice, you must file a new application and pay a new fee, per 3 AAC 306.025(f).
