Alaska Marijuana Control Board

Form MJ-01: Marijuana Establishment Operating Plan

What is this form?

An operating plan is required for all marijuana establishment license applications. Applicants should review **Title 17.38** of **Alaska Statutes** and **Chapter 306** of the **Alaska Administrative Code.** This form will be used to document how an applicant intends to meet the requirements of those statutes and regulations. If your business has a formal operating plan, you may include a copy of that operating plan with your application, but all fields of this form must still be completed per 3 AAC 306.020(c).

What must be covered in an operating plan?

Applicants must identify how the proposed premises will comply with applicable statutes and regulations regarding the following:

- Control plan for persons under the age of 21
- Security
- Business records
- Inventory tracking of all marijuana and marijuana product on the premises
- Employee qualification and training
- Health and safety standards
- Transportation and delivery of marijuana and marijuana products
- Signage and advertising

Applicants must also complete the corresponding operating plan supplemental forms (**Form MJ-03, Form MJ-04, Form MJ-05,** or **Form MJ-06)** to meet the additional operating plan requirements for each license type.

Section 1 – Establishment & Contact Information

Enter information for the business seeking to be licensed, as identified on the license application.

AMCO Received 2/1/2019

Section 2 – Control Plan for Persons Under the Age of 21

2.1. Describe how the marijuana establishment will prevent persons under the age of 21 from gaining access to any portion of the licensed premises and marijuana items:

Barely Legal, Inc. will have policies and training in place to prevent individuals under 21 from entering any part of the licensed premises. The entire premises will be designated as a restricted access area with signage posted on and around the building "Restricted Access Area: Visitors Must Be Escorted" as well as signs stating, "No One Under 21 Year of Age Allowed" at each entry and "Video and Audio Surveillance in Progress." Video surveillance cameras will be visible throughout the facility as well as around the exterior perimeter of the building to continuously monitor the premises and to deter unauthorized and underage individuals from attempting to access the premises. There will be two main entrances/exits for employees. Of which will remain locked at all times and will require a card swipe to unlock the door. Key cards will be personalized for each employee to allow licensee's and management team to track access and entry. The doors will also be equipped with a door sensor, connected to the security alarm system, that will be triggered if an attempted intrusion occurs. If triggered, both an audible alarm as well as an electronic notification to the third party off-site monitoring center as well as to the licensee's and general manager's mobile phones. Any visitors to the facility, with the exception of law enforcement, AMCO Enforcement or other duly authorized individuals, must be pre-arranged with licensee's or member of the management team. Continued on page 11

Section 3 – Security

Restricted Access Areas (3 AAC 306.710):

3.1. Describe how you will prevent unescorted members of the public from entering restricted access areas:

The cultivation facility will be designated as a restricted access area in it's entirety with signage posted on and around the building stating "Restricted Access Area: Visitors Must Be Escorted" as well as signs stating, "Video and Audio Surveillance in Progress". Video surveillance cameras will be visible throughout the facility as well as around the exterior perimeter of the building to continuously monitor the premises and to deter unauthorized individuals from attempting to access the premises. For additional security purposes, Barely Legal, Inc. will have a 10ft. chain link fence surrounding the licensed premises, as the area in which the facility sits is subject to frequent homelessness squatters. The fence will remain locked at all times and will require a key to open the fence. All licensee's and the general manager will have a key to open the fence entrance. There will be two main entrances, for employees, which will remain locked at all times and will require a swipe card to unlock. The door's will also be equipped with a door sensor, connected to the security alarm system, that will be triggered if an attempted intrusion occurs when alarm is armed. If triggered, both an audible alarm as well as an electronic notification to the third party off-site monitoring center as well as to licensee's mobile phone. All employees will be required to clearly display on their person an employee ID badge bearing their photograph at all times while on the licensed premises. Continued on page 11

3.2. Describe your recordkeeping and processes for admitting visitors into and escorting them through restricted access areas:

No person, except a Barely Legal, Inc. employee or licensee (with the exception of AMCO enforcement, law enforcement, and other duly authorized agents) shall be allowed in the restricted access area unless they are a pre-authorized visitor and escorted by either an employee or licensee at all times.. Visitors will be accompanied by an employee or licensee at all times at a 5:1 ratio. All persons who are not employees of the company, but who have been authorized by management to enter the restricted access areas of the facility shall provide a government issued identification to the escorting employee prior to entering the restricted access area in order to obtain a visitor identification badge. An employee will escort and monitor the visitor at all times while the visitor is in the restricted access area. The visitor identification badge shall be visible at all times. Barely Legal, Inc. will require the visitor to return the identification badge upon exiting the facility. Barely Legal, Inc. will maintain a visitor log, which shall include the name of the visitor, date, time and purpose of the visit. The visitor log will be made available to AMCO upon request. If an unforeseen circumstance requires the presence of a visitor and makes it impractical for licensees or management to obtain prior authorization, the facility shall record in the visitor log the name of the visitor, date, time, purpose of the visit and the facts upon which the access was granted. Visitor records will be stored on the company's computer server, the original hard copy will be stored in the secured locked cabinet located in the office. Hard copies will be maintained for at least 7 years. Barely Legal, Inc. does not intend to destroy any electronic copies.

AMCO Received 2/1/2019

3.3. Provide samples of licensee-produced identification badges that will be displayed by each licensee, employee, or agent while on the premises, and of visitor identification badges that will be worn by all visitors while in restricted access areas:

*or similar format and content

Security Alarm Systems and Lock Standards (3 AAC 306.715):

3.4. Exterior lighting is required to facilitate surveillance. Describe how the exterior lighting will meet this requirement:

The exterior lighting fixtures of the cultivation facility will be designed and installed to deter nuisance activity and enhance surveillance, while minimizing any sort of neighborhood nuisance. Additional lighting will be used to increase picture quality and brightness for security related documentation. The camera system and lighting will be constantly calibrated to maximize the quality of any recorded images, and to also discourage theft and/or trespassing. The lighting fixtures will be installed to insure there are no dark spots around the perimeter, especially in this part of town, exterior lighting and camera coverage will be very important for this facility. All three entrances will also have exterior lighting so that all three entrances to the facility will be completely lit. All outdoor lighting will be weather proof and vandal proof.

AMCO Received 2/1/2019

3.5. An alarm system is required for all license types that must be activated on all exterior doors and windows when the licensed premises is closed for business. Describe the security alarm system for the proposed premises, explain how it will meet all regulatory requirements, and outline your policies and procedures regarding the actions to be taken by a licensee, employee, or agent when the alarm system alerts of an unauthorized breach:

Barely Legal, Inc. will have a security alarm system that will cover all points of entry and exit, and windows, to deter and prevent unauthorized entrance into the licensed facility. The security system will be continuously monitored by several sources. Licensee(s) may be contracting with a third party security company, who will be able to monitor the surveillance cameras at any time, but may also monitor and install themselves. Licensee(s) will also have remote access to the monitoring system on their cellular device. Barely Legal, Inc. will have motion activated video surveillance through its entire facility, with the restroom as an exception, as well as sensors on all windows. The security surveillance system will provide high quality and high resolution recording images. The facility will use un-interruptable power supplies in order to ensure power to the cameras in the event of a power outage for up to one hour. If the alarm system is triggered, an automatic, electronic alert will be sent to the security monitoring center as well as to licensee's cell phones and/or the general manager. This will also trigger an audible alarm to help deter potential intruders. The alarm system will be active at all times that the facility is closed. The last employee or licensee to leave the facility each night will activate the alarm system and the first employee or licensee to arrive in the morning will deactivate the system. In the event that the alarm system sends an electronic alert to local law enforcement to notify them of an unauthorized breach, the management team will evacuate the building (if it's safe to do and necessary) to a pre-determined safe location. A designated employee will take a head count of employees and any visitors that may have been on the premises to ensure everyone is accounted for. Management will await instruction from law enforcement and comply with all directives. Once it is safe to do so, employees will return to the facility and inspect for property damage, theft, take inventory and submit all necessary and requested documentation to law enforcement officials and to AMCO enforcement. Additionally, any event that occurs on the licensed premises that involves local law enforcement will be promptly reported to AMCO Enforcement via email immediately if possible, and if not possible, within 24 hours of the incident.

3.6. Describe your policies and procedures for preventing diversion of marijuana or marijuana product, including by employees:

Barely Legal, Inc.'s licensee team will implement a security and anti-diversion plan that will encompass training, surveillance and mandated operating procedures. First, all employees will be taught about methods of diversion, and how to detect them. They will be trained in the company's standard operating procedures for handling marijuana products including the label tags placed on every package of marijuana, and how to insure they are in the database inventory. All adjustments to inventory will require a manager's code, which is recorded in a file that tell who logged on. Beyond the electronic record keeping, visual verification will be done by managers on each shift, and all parts of the facility will be monitored by surveillance cameras. Employee's will be taught how diversion could take place including: employee theft, customer theft at the place of delivery, outside theft (robbery), or a combination of all of the above. Continued on page 11

3.7. Describe your policies and procedures for preventing loitering:

There will be signage stating, "No Loitering" and that the premises is under video surveillance will be prominently posted around the facility. Designated Barely Legal, Inc. personnel will be trained to perform routine, but unscheduled patrols of the premises to check for individuals with no official business on the property. Individuals found to be loitering on the premises will be met with a verbal request to exit the premises per the no loitering policy and if they do not comply law enforcement will be contacted for back up.

You must be able to certify the statement below. Read the following and then sign your initials in the box to the right: Initials

3.8. I certify that if any additional security devices are used, such as a motion detector, pressure switch, and duress, panic, or hold-up alarm, to enhance security of the licensed premises, I will have written policies and procedures describing their use.

AMCO Received 2/1/2019

Video Surveillance (3 AAC 306.720):

You must be able to certify each statement below. Read the following and then sign your initials in the corresponding box: Initials

3.9. The video surveillance and camera recording system for the licensed premises covers each restricted access area, and both the interior and exterior of each entrance to the facility. DB

3.10. Each video surveillance recording: is preserved for a minimum of 40 days, in a format that can be easily accessed for viewing (consistent with the Alcohol & Marijuana Control Office's approved format list); clearly and accurately displays the time and date; and is archived in a format that does not permit alteration of the recorded image. DB

3.11. The surveillance room or area is clearly defined on the Form MJ-02: Premises Diagram that is submitted with this application. DB

3.12. Surveillance recording equipment and video surveillance records are housed in a designated, locked, and secure area or in a lock box, cabinet, closet or other secure area where access is limited to the licensee(s), an authorized employee, and law enforcement personnel (including an agent of the Marijuana Control Board). DB

3.13. Describe how the video cameras will be placed to produce a clear view adequate to identify any individual inside the licensed premises, or within 20 feet of each entrance to the licensed premises:

The cultivation facility premises will be protected by a surveillance recording system that will have cameras positioned to view the entire perimeter of the area of the licensed premises. The security cameras will be monitored 24 hours a day, 7 days a week. A variety of specialty cameras, such as infrared, motion-sensor, and night vision cameras will be used. All cameras will have full tilt/pan/zoom capabilities and will have secure data storage. The premise will have surveillance over all portions of the facility, placed strategically to record all areas of the facility inside and outside, at a variety of angles. All doors and marijuana storage areas will have video coverage to clearly identify the faces of those present. The cameras will offer high resolution and weather resistant features that ensure a clear picture with every use. With these megapixel cameras, the facility will have clear, crisp images that let licensee's see the important details needed for identification. This includes face and license plate recognition, and facial image of anyone within twenty (20) feet of all access points, while still capturing a full field of view for exterior monitoring.

3.14. Describe the locked and secure area where video surveillance recording equipment and original copies of surveillance records will be housed and stored, and how you will ensure the area is accessible only to authorized personnel, law enforcement, or an agent of the Marijuana Control Board. If you will be using an offsite monitoring service and offsite storage of video surveillance records, your response must include how the offsite facility will meet these security requirements:

All surveillance recording equipment and footage will be stored in the secured office [with backups on site. The office will be accessible only by licensee's and the company's general manager, and any authorized AMCO agents or law enforcement. The key for the office that houses the equipment will be marked "do not duplicate". The office will have an advanced, reinforced security door, locked at all times. The door will be equipped with spring-loaded hinge as well as concrete poured door jams (as long as this type of door structure is approved by the ANC muni building safety dept. and does not pose any fire safety concerns, which is yet to be determined). Licensee and the general manager will have remote access to surveillance recordings to monitor operations virtually. The security system will be password protected to prevent any data tampering, and recorded data will be stored for a minimum of forty (40) days as an official business record. All surveillance footage will be accessible for upload to a separate hard drive in the event that it must be stored longer for criminal, civil, or administrative investigations. All recordings will be time and date stamped and archived in a format that prevents alteration of the recorded image. Recordings and surveillance data will be available to AMCO, AMCO Enforcement and local law enforcement upon request.

AMCO Received 2/1/2019

Section 4 – Business Records

Review the requirements under 3 AAC 306.755. All licensed marijuana establishments must maintain, in a format that is readily understood by a reasonably prudent business person, certain business records.

4.1. I certify that the following business records will be maintained and kept on the licensed premises: Initials

a. **all books and records necessary to fully account for each business transaction conducted under my license for the current year and three preceding calendar years** *(records for the last six months must be maintained on the licensed premises; older records may be archived on or off-premises)*; DB

b. **a current employee list setting out the full name and marijuana handler permit number of each licensee, employee, and agent who works at the marijuana establishment;** DB

c. **the business contact information for vendors that maintain video surveillance systems and security alarm systems for the licensed premises;** DB

d. **records related to advertising and marketing;** DB

e. **a current diagram of the licensed premises, including each restricted access area;** DB

f. **a log recording the name, and date and time of entry of each visitor permitted into a restricted access area;** DB

g. **all records normally retained for tax purposes;** DB

h. **accurate and comprehensive inventory tracking records that account for all marijuana inventory activity from seed or immature plant stage until the retail marijuana or retail marijuana product is sold to a consumer, to another marijuana establishment, or destroyed;** DB

i. **transportation records for marijuana and marijuana product, as required by 3 AAC 306.750(f); and** DB

j. **registration and inspection reports of scales registered under the Weights and Measures Act, as required by 3 AAC 306.745.** DB

4.2. A marijuana establishment is required to exercise due diligence in preserving and maintaining all required records. Describe how you will prevent records and data, including electronically maintained records, from being lost or destroyed:

All facility records will reside for six (6) months in on site records storage located on the office in the licensed cultivation premises as shown on the diagram. Thereafter, any hard copy documents will be scanned into the onsite company computer (located in the office shown on the cultivation premises and connected to a cloud base record storage system) and then backed on external hard drives and be accessible within 3 days via request from AMCO officials. Only authorized employees will be issued "do not duplicate" office key. The restriction of access to the office to only authorized employees and the external hard drive back up protects and preserves business records, as required by 3AAC306.755.

All of Barely Legal, Inc. security system surveillance footage initially sent to their secure onsite data room as well as a secure data "cloud" with limited access to protect against loss and destruction.

AMCO Received 2/6/2019

Section 5 – Inventory Tracking of All Marijuana and Marijuana Product

Review the requirements under 3 AAC 306.730. All licensed marijuana establishments must use a marijuana inventory tracking system capable of sharing information with Metrc to ensure all marijuana cultivated and sold in the state, and each marijuana product processed and sold in the state, is identified and tracked from the time the marijuana is propagated from seed or cutting, through transfer to another licensed marijuana establishment, or use in manufacturing a marijuana product, to a completed sale of marijuana or marijuana product, or disposal of the harvest batch of marijuana or production lot of marijuana product.

You must be able to certify each statement below. Read the following and then sign your initials in the corresponding box: Initials

5.1. My marijuana establishment will be using Metrc, and if any other tracking software is used, it will be capable of sharing information with Metrc. DB

5.2. All marijuana delivered to a marijuana establishment will be weighed on a scale registered in compliance with 3 AAC 306.745. DB

5.3. My marijuana establishment will use registered scales in compliance with AS 45.75.080 (Weights and Measures Act), as required by 3 AAC 306.745. DB

Section 6 – Employee Qualification and Training

Review the requirements under 3 AAC 306.700. A marijuana establishment and each licensee, employee, or agent of the marijuana establishment who sells, cultivates, manufactures, tests, or transports marijuana or a marijuana product, or who checks the identification of a consumer or visitor, must obtain a marijuana handler permit from the board before being licensed or beginning employment at a marijuana establishment.

You must be able to certify each statement below. Read the following and then sign your initials in the corresponding box: Initials

6.1. Each licensee, employee, or agent of the marijuana establishment who sells, cultivates, manufactures, tests, or transports marijuana or marijuana product, or who checks the identification of a consumer or visitor, shall obtain a marijuana handler permit from the board before being licensed or beginning employment at the marijuana establishment. DB

6.2. Each licensee, employee, or agent who is required to have a marijuana handler permit shall keep that person's marijuana handler permit card in that person's immediate possession (or a valid copy on file on the licensed premises) when on the licensed premises. DB

6.3. Each licensee, employee, or agent who is required to have a marijuana handler permit shall ensure that that person's marijuana handler permit card is valid and has not expired. DB

6.4. Describe any in-house training that will be provided to employees and agents (apart from a marijuana handler course):

All employee's will receive multi-job duties training for their positions, one of which will include the marijuana specific laws on the State and Muni level and Federal level. Training will include supplemental legal training specifics to Alaska law, in particular the statues, regulations, which will be provided during orientation and on an ongoing basis as the law evolves. The Federal laws concerning marijuana will also be discussed, and each employee will be taught specific answers regarding this topic that are the acceptable responses to provide to customers (who will be marijuana retail or manufacturing establishments), regulatory officers, or other in order to insure that there is no legal opinion rendered, but rather information on the law as in its current form. The curriculum for the employee will include: a) hygiene of equipment, the facility and personnel; b) state testing protocols; c)state security regulations; d) state sampling protocols; e) chemical and pesticide storage; f) sample handling and control; g)chain of custody mandates; h) consumption; i) guidelines to mandatory training; j) mandatory record keeping and record retention policies; k) transportation of marijuana.

AMCO Received 2/1/2019

Section 7 – Health and Safety Standards

Review the requirements under 3 AAC 306.735.

You must be able to certify each statement below. Read the following and then sign your initials in the corresponding box: Initials

7.1. I understand that a marijuana establishment is subject to inspection by the local fire department, building inspector, or code enforcement officer to confirm that health or safety concerns are not present. DB

7.2. I have policies regarding health and safety standards (including: ensuring a person with an illness or infection does not come into contact with marijuana or marijuana product; good hygienic practices; cleaning and maintenance of equipment and the premises; pest deterrence; chemical storage; sanitation principles; and proper handling of marijuana and marijuana product) and will take all reasonable measures and precautions to ensure that they are met or exceeded. DB

7.3. I have policies to ensure that any marijuana or marijuana product that has been stored beyond its usable life, or was stored improperly, is not salvaged and returned to the marketplace. DB

7.4. I have policies to ensure that in the event information about the age or storage conditions of marijuana or marijuana product is unreliable, the marijuana or marijuana product will be handled in accordance with 3 AAC 306.735(d). DB

Answer "Yes" or "No" to each of the following questions:	Yes	No
7.5. Adequate and readily accessible toilet facilities that are maintained and in good repair and sanitary condition are clearly indicated on my Form MJ-02: Premises Diagram.	☒	☐
7.6. Convenient handwashing facilities with running water at a suitable temperature are clearly indicated on my Form MJ-02: Premises Diagram.	☒	☐

7.7. If you answered "No" to either 7.5 or 7.6 above, describe how toilet and/or handwashing facilities are made accessible, as required by 3 AAC 306.735(b)(2):

Section 8 – Transportation and Delivery of Marijuana and Marijuana Products

Review the requirements under 3 AAC 306.750.

8.1. Describe how marijuana or marijuana product will be prepared, packaged, and secured for shipment. Include a description of the type of locked, safe, and secure storage compartments to be used in vehicles transporting marijuana or marijuana product:

For all transports of marijuana products, Barely Legal, Inc. will create a METRC generated Trip Manifest. All Trip Manifests will be sent with the products, and an additional copy will be stored and filed on the premises as official business records. The Manifest documents will clearly have the strain name, type of product, batch number, weight, name of the transporter and handlers ID, time of departure and expected delivery, and the make, model, and license plate of the transporting vehicle. All marijuana product will be in a sealed package or container not exceeding five (5) pounds and then stored in a locked storage compartment within the transport vehicle. The transport vehicle will travel directly between destinations without making any unnecessary stops and at no time during transit will marijuana products be directly visible. All marijuana product packaging will have a label stating that a licensed testing facility has tested each batch in the shipment. All packaging materials that will be sold to marijuana establishments for sale to consumers will be child-resistant and unappealing to children. All packaging done at the facility will be performed in a specific 24-hour surveillance monitored area and will then be packaged in a uniform manner with labels secure and clearly displayed. Packaged marijuana products will be stored in a secured area until ready for transport, and will be inspected, accepted or rejected, and recorded in an official log. Continued on page 11

AMCO Received 2/1/2019

You must be able to certify each statement below. Read the following and then sign your initials in the corresponding box: Initials

8.2. The marijuana establishment from which a shipment of marijuana or marijuana product originates will ensure that any individual transporting marijuana shall have a marijuana handler permit required under 3 AAC 306.700. DB

8.3. The marijuana establishment that originates the transport of any marijuana or marijuana product will use the marijuana inventory tracking system to record the type, amount, and weight of marijuana or marijuana product being transported, the name of the transporter, the time of departure and expected delivery, and the make, model, and license plate number of the transporting vehicle. DB

8.4. The marijuana establishment that originates the transport of any marijuana or marijuana product will ensure that a complete printed transport manifest on a form prescribed by the board must be kept with the marijuana or marijuana product at all times during transport. DB

8.5. During transport, any marijuana or marijuana product will be in a sealed package or container in a locked, safe, and secure storage compartment in the vehicle transporting the marijuana or marijuana product, and the sealed package will not be opened during transport. DB

8.6. Any vehicle transporting marijuana or marijuana product will travel directly from the shipping marijuana establishment to the receiving marijuana establishment, and will not make any unnecessary stops in between except to deliver or pick up marijuana or marijuana product at any other licensed marijuana establishment. DB

8.7. When the marijuana establishment receives marijuana or marijuana product from another licensed marijuana establishment, the recipient of the shipment will use the marijuana inventory tracking system to report the type, amount, and weight of marijuana or marijuana product received. DB

8.8. The marijuana establishment will refuse to accept any shipment of marijuana or marijuana product that is not accompanied by the transport manifest. DB

Section 9 – Signage and Advertising

9.1. Describe any signs that you intend to post on your establishment with your business name, including quantity, dimensions, graphics, and location on your establishment (photos or drawings may be attached):

Barely Legal, Inc. will not post any signs with the business name on them for the cultivation facility.

AMCO Received 2/1/2019

9.2. Describe any advertising you intend to distribute of your establishment. Include medium types and business logos (photos or drawings may be attached):

Barely Legal, Inc. advertising and marketing is still in development; however, the company plans to utilize the following medium types when distributing advertisements:

- newspaper ads and TV adds
- radio ads
- social media to feature specific strains and products
- magazine ads

Advertisements will include the below pictured logo and will comply with 3 AAC 306.360 in all advertising platforms.

I declare under penalty of unsworn falsification that this form, including all accompanying schedules and statements, is true, correct, and complete.

AMCO Received 2/1/2019

(Additional Space as Needed):

2.1 Continued
Visitors will be required to produce a valid, government issued, photo ID proving they are at least 21 years of age before being allowed to enter the premises. Any individual that does not produce said ID will be informed to exit the property immediately and that law enforcement will be contacted for back up if they do not comply promptly. For additional security purposes, Barely Legal, Inc. will have a 10ft. chain link fence surrounding the licensed premises. The fence will remain locked at all times and will require a key to open the fence. All licensee's and the general manager will have a key to open the fence entrance.

3.6 Continued
Employees will be taught not just detection, but the appropriate responses to insure the safety of our fellow employees, customers (whole sale sales to retail stores or whole sale sales to manufacturer) the public, and the facility and the employees of the facility as well.

8.1 Continued
The company will check all packages to make sure that they will keep all marijuana products from contamination and will check to make sure that the packages will not impart any toxic or deleterious substance to marijuana products. Barely Legal, Inc. will use certified scales in compliance with the Alaska Weights and Measures Act, and will maintain registration and inspection reports at the facility. Reports will be available upon request to AMCO. The transport vehicle will be unmarked and inconspicuous with a secure storage compartment inside or in the bed of a truck to hold all marijuana products during transit. The container will be a large industrial box formed of steel or a like material, mounted inside the vehicle or bed of a truck. The manager will ensure that the marijuana products are locked in the storage compartment and not visible from the outside, prior to approving departure. All employees will be trained that under no circumstances shall a sealed package containing marijuana be opened during transport, unless otherwise directed by a local law enforcement agent.

3.1 Continued
Employees will also be required to either keep their marijuana handler permit on their person during working hours or filed on-site. All visitors will be required to sign in to the visitor log and clearly display on their person a visitor badge at all times while on the premises. This will help everyone to easily identify individuals that have been authorized to access the premises.

AMCO Received 2/1/2019
