License number: 14252

My name is Shaun Proden, my family and I reside at 2268 Sunshine Ave. which is located directly across the street from the proposed cultivation facility. I have lived in this neighborhood for the last ten years, in that time, Mr. Weltzin has occupied the property at 2276 Sunshine Ave. The property is trash pit, there is garbage everywhere, broken down cars and trucks and for some reason he can't even have the decency not to block the roadway with them. Multiple winters he has left trucks and cars in the roadway which left the snowplow only a narrow path to drive through. He was also making jams and jellies at this location and selling them with an Ester address on the jars, I'm sure he did this so he didn't have to have the DEC come out and inspect his facility. When his workers are there we would hear constant yelling, swearing and screaming coming from his property. Also the hours of operation were quite odd, mainly between the hours of 12 am and 5 am. This cultivation facility is one that the marijuana industry can do without. I know your board has a job to do and I'm pretty sure once you inspect his facility and property you will come to the same conclusion that I have, and not to allow Jeffrey Weltzin a marijuana cultivation license or any type of license I'm not against marijuana cultivation, I'm just against this person in this location.
