Alaska Marijuana Control Board

Form MJ-16: Proposed New Marijuana Product

What is this form?

This proposed new marijuana product form is required for a marijuana product manufacturing facility licensee who is seeking Marijuana Control Board (MCB) approval of a new marijuana product or marijuana concentrate for production at its licensed premises, as required under 3 AAC 306.100 and 3 AAC 306.525. **The required $250 proposed new marijuana product fee may be made by check, cashier's check, or money order.**

This form must be completed and submitted to AMCO's main office prior to production of any new marijuana product or marijuana concentrate. **The proposed new marijuana product may not be produced unless and until the MCB has approved of the product.**

Please note that licensees seeking approval of more than one proposed new marijuana product or marijuana concentrate must submit a separate completed copy of this form and pay a separate fee for each proposed new marijuana product or marijuana concentrate.

Section 1 – Establishment Information

Enter information for the business seeking to be licensed, as identified on the license application.

Licensee:	Lady Gray Gourmet Medibles, LLC	**MJ License #:**		12254	
License Type:	Marijuana Product Manufacturing				
Doing Business As:	Lady Gray Gourmet Medibles				
Premises Address:	36322 Pine Street				
City:	Soldotna	**State:**	Alaska	**ZIP:**	99669

Section 2 – Proposed Marijuana Concentrate or Marijuana Product

Enter information for the marijuana concentrate or the marijuana product for which you are seeking MCB approval.

Product Name:	Frozen Goodness		
Product Type: Choose one.	Other Marijuana Product		
Perishable: Yes/No	Yes	**Shelf Life:** If perishable.	6 mo
Intended Use: Smokable/ edible/topical/wholesale/etc.	Edible		

Received by AMCO 1.25.19

Approved at Feb. 2019 meeting

Alaska Marijuana Control Board

Form MJ-16: Proposed New Marijuana Product

Section 3 – Proposed Product Details

Enter information for the marijuana product for which you are seeking MCB approval.

Product Description: Details must include the color, shape, and texture.	Color will be varying muted shades according to flavor such as cream for vanilla, brown for chocolate, pink for strawberry (natural color) with possible mix-ins showing such as a fudge ripple or nuts. The shape will take form to the small child resistant drams they are packaged in, individually portioned. Texture will range from thick and creamy to slightly grainy and icy.
Ingredients:	NONVEGAN BASE: CREAM, MILK, SUGAR, SUGARED EGG YOLK, SWEET CREAM BUTTERMILK, CORN STARCH, CREAM CHEESE, HONEY, VANILLA VEGAN BASE: VEGAN CANE SUGAR, NON-GMO COCONUT, GLUCOSE,MODIFIED FOOD STARCH, SALT,CELLULOSE GUM, XANTHAN GUM Mixins include: Organic Coconut Oil (Cannabis infused) or CO2 oil, natural flavor oils, natural fruit preserves, Cocoa, matcha powder, sugar, maple syrup, strawberries or equivalent, pecans or equivalent Organic/Fair traded/NonGMO ingredients will be used whenever feasible.
Standard Production Procedure and Detailed Manufacturing Process:	Please see earlier MJ05 acccording to how we make our Cannabis Infused Coconut Oil. If CO2 oil is used it will be from an Alaskan licensed facility. We'll do the calculations on what will equate to 5mg THC per container and mix ingredients together for proper emulsion. This mix will then be blended in a commercial ice cream maker according to manufacturer instructions. It will then be packaged individually according to weight for 5mg THC per container with proper testing procedures followed and submitted, shock froze first for additional quality then moved into longer term freezer storage - available for sale only once testing has passed.

Depiction:
Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.

Form MJ-16: Proposed New Marijuana Product

Section 3 – Proposed Product Details

Enter information for the marijuana product for which you are seeking MCB approval.

Product Description: Details must include the color, shape, and texture.	Color will be varying shades of browns with small amounts of seasoning, majority of visible product is nuts. Shape will be naturally occuring nut shapes such as almonds, cashews, pecans, etc... The texture will be crunchy.
Ingredients:	Combinations of commonly equivalent nuts/seeds including almonds, cashews, walnuts, pecans, macadamia, hazelnut, pistachio, sesame seeds, pepitas, hemp seeds, sunflower seeds and peanuts will be blended with commonly equivalent spices including rosemary, paprika, smoked paprika, onion powder, jalapeno powder, salt, sugar, brown sugar, garlic powder, parsley, lime, orange, maple syrup, curry powder, chili powder, chipotle powder, honey, coconut, cinnamon, nutmeg, ginger, and thyme. Organic/Fair traded/NonGMO ingredients will be used whenever feasible.
Standard Production Procedure and Detailed Manufacturing Process:	Please see earlier MJ05 acccording to how we make our Cannabis Infused Coconut Oil and Butter. We'll do the calculations on what will equate to 5mg THC per serving pouch (as we do with our previously approved and in production granola) and mix ingredients according to that. All wet ingredients will be mixed with the cannabis infusion for homogeneity and then coating the nuts evenly and into the commercial oven at low and long baking temperatures for roasting. Nuts will then be cooled and packaged with proper testing procedures followed and submitted, available for sale only once testing has passed.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.

Avoid Accidental Ingestion:

Keep your edibles inside this resealable/reusable childproof package. Most of our edibles are created to stay frozen (for up to 6 months) until ready to enjoy. This package is perfect for your freezer and protects from anyone accidentally ingesting cannabis, adults and children alike.

Start Low and Go Slow:

Your digestive system processes cannabis slowly, especially if you've already eaten a substantial meal. Remember that the THC in orally consumed cannabis will be metabolized by the liver into 11-hydroxy-THC and this form is twice as strong and will last twice as long as regular THC. One hour is a minimum wait time to feel the effects (starting with a minimum dose of 5-10mg), as it can sometimes take up to three hours, depending on your body.

Do Not Drive or Operate Machinery:

Due to the slow nature edibles can take, 8 hours is recommended from the time you ingest cannabis to the time you drive so please plan your experience accordingly - Stay put or get a ride.
