Alaska Marijuana Control Board

Form MJ-15: Operating Plan Change

What is this form?

This operating plan change form is required for all marijuana establishment licensees seeking to change a licensed marijuana establishment's existing operating plan, as required by 3 AAC 306.100. With this form, a licensee may request changes to as much or as little as desired of Form MJ-01 and/or the corresponding operating plan supplemental for the establishment's license type. **The required $250 change fee may be made by check, cashier's check, or money order.**

Please complete and submit with this form the pages of Form MJ-01 and/or the corresponding operating plan supplemental that contain sections that you are requesting to change. **All fields must be completed of any page for which you are requesting changes** – upon board approval, the submitted pages will replace those currently on file. If your current, approved operating plan is on the original version of the forms, you may be required to complete and submit the new operating plan forms in their entirety.

The form(s) that I am requesting board approval to change is:

- ☐ **Form MJ-01:** Marijuana Establishment Operating Plan
- ☐ **Form MJ-03:** Retail Marijuana Store Operating Plan Supplemental
- ☑ **Form MJ-04:** Marijuana Cultivation Facility Operating Plan Supplemental
- ☐ **Form MJ-05:** Marijuana Product Manufacturing Facility Operating Plan Supplemental
- ☐ **Form MJ-06:** Marijuana Testing Facility Operating Plan Supplemental

This form must be completed and submitted to AMCO's main office prior to changing existing operations. The licensed establishment's operations may not be altered unless and until the director has given temporary approval or the Marijuana Control Board (MCB) has given final approval of the changes. Please note that licensees seeking to change operating plans for multiple licenses must submit a separate completed copy of this form for each license.

Section 1 – Establishment Information

Enter information for the business seeking to be licensed, as identified on the license application.

Licensee:	Calm N Collective, LLC	**MJ License #:**		10799	
License Type:	Standard Marijuana Cultivation Facility				
Doing Business As:	Calm N Collective				
Premises Address:	13886 W Parks Hwy				
City:	Houston	**State:**	Alaska	**ZIP:**	99694

Form MJ-15: Operating Plan Change

Section 2 – Summary of Changes

Provide a summary of the changes for which you are requesting approval.

Calm N Collective would like to update their Operating plan to include use of OG Biowar and root packs for foliar spray and root drench as a deterrent to pests and fungi. Both are organic and have no EPA registration numbers and are safe to use per Alaska DEC.
Calm N Collective would also like to include use of an organic tea composed of Alaska humus, worm castings and molasses. These are also pest and fungi inhibitors and do not have an EPA registration number as it is naturally accruing in nature.
Calm N Collective would also like to add the following additives to feed their plants: Vitilize, Basis A, Basis B, Start-R, C-4, Ultimate PK, UC Roots, MOAB, RAW nutrient line, h202 (A hydrogen peroxide dilution for cleaning reservoirs), Great white premium (Helps plants absorb nutrients), Fox farm flower kiss foilier spray (Feeds the plants), Terpinator (Enhances Terpines), Terpenex (Enhances Terpenes), Coco fiber, perlite and Superthrive.

Calm N Collective was approved for CO2 use in the cultivation facility and would like to include the use of CO2 back into their operating plan.

Calm N Collective would also like to update their operating plan to include all pesticides that are approved for use on cannabis listed on the DEC website and will adhere to all additions and removals of said pesticides on the DEC approved list. (as per November 13-15, 2019 MCB meeting)

See MJ-04 Page 3 Sections 1 and 2

Section 3 – Declarations

Read each statement below, and then sign your initials in the corresponding box to the right: Initials

The proposed changes conform to all applicable public health, fire, and safety laws. [RB]

I understand that any temporary approval granted by the director is pending a final decision by the MCB; therefore, any investment I make, based upon temporary approval, is at my own risk. [RB]

As a marijuana establishment licensee, I declare under penalty of unsworn falsification that this form, including all accompanying schedules and statements, is true, correct, and complete.

Operating Plan Supplemental

Form MJ-04: Marijuana Cultivation Facility

Describe the marijuana cultivation facility's growing medium(s) to be used:

The Cultivation Facility will use Pro-Mix Soil as a growing medium. Pro-Mix is specially formulated with all natural ingredients, It contains an organic fertilizer that provides gradual feeding to the plants. Calm N Collective will use an organic tea composed of Alaska humus, worm castings and molasses. These are also pest and fungi inhibitors and do not have an EPA registration number as it is naturally accruing in nature. Calm N Collective will als o be us ing Terpinator (Enhances Terpines), Terpenex (Enhances Terpenes) coco fiber, Superthrive. and perlite.

Describe the marijuana cultivation facility's fertilizers, chemicals, gases, and delivery systems, including carbon dioxide management, to be used:

The facility will use hydrogen peroxide and chlorine bleach as cleaning agents Calm N Collective will be using C02 in the cultivation facility. The facility will use carbon dioxide (CO2) as a gas distributed in the growing rooms by pressurized cylinders of carbon dioxide. The gas is used to supply the plant roots and plant leaves with oxygen and carbon. The parts per million (ppm) of carbon dioxide gas distributed to each growing room will be constantly electronically monitored and set to turn on and off when the ppm concentration of CO2 gas falls below or rises above a set concentrate. Calm N Collective will be using the following additives to feed the plants: Vitilize, Basis A, Basis B, Start-R, C-4, Ultimate PK, UC Roots, MOAB, RAW nutrient line, h202 (A hydrogen peroxide dilution for cleaning reservoirs), Great white premium (Helps plants absorb nutrients), Fox farm flower kiss foilier spray (Feeds the plants), OG Biowar and root packs for foliar spray and root drench as a deterrent to pests and fungi (both are organic and have no EPA registration numbers and are safe to use per Alaska DEC. Calm N Collective may also use any of the pesticides that are on the DEC approved pesticides list.

Describe the marijuana cultivation facility's irrigation and waste water systems to be used:

The cultivation facility will use hoses to irrigate plants.
Waste water that is not re-used will be drained into the facility's septic system which was approved by an engineering firm to contain the type of waste water expected to be discarded from this facility (See details in Operation Plan Section 5) A neutralizer will be added to the septic system as well to eliminate the possibility of eutorphication.
A local septic pumping business licensed by local state and federal authorities to dispose of this type waste will be utilized to remove the waste water.
