Alaska Marijuana Control Board

Form MJ-15: Operating Plan Change

What is this form?

This operating plan change form is required for all marijuana establishment licensees seeking to change a licensed marijuana establishment's existing operating plan, as required by 3 AAC 306.100. With this form, a licensee may request changes to as much or as little as desired of Form MJ-01 and/or the corresponding operating plan supplemental for the establishment's license type. **The required $250 change fee may be made by check, cashier's check, or money order.**

Please complete and submit with this form the pages of Form MJ-01 and/or the corresponding operating plan supplemental that contain sections that you are requesting to change. **All fields must be completed of any page for which you are requesting changes** – upon board approval, the submitted pages will replace those currently on file. If your current, approved operating plan is on the original version of the forms, you may be required to complete and submit the new operating plan forms in their entirety.

The form(s) that I am requesting board approval to change is:

- ☐ **Form MJ-01:** Marijuana Establishment Operating Plan
- ☐ **Form MJ-03:** Retail Marijuana Store Operating Plan Supplemental
- ☐ **Form MJ-04:** Marijuana Cultivation Facility Operating Plan Supplemental
- ☑ **Form MJ-05:** Marijuana Product Manufacturing Facility Operating Plan Supplemental
- ☐ **Form MJ-06:** Marijuana Testing Facility Operating Plan Supplemental

This form must be completed and submitted to AMCO's main office prior to changing existing operations. The licensed establishment's operations may not be altered unless and until the director has given temporary approval or the Marijuana Control Board (MCB) has given final approval of the changes. Please note that licensees seeking to change operating plans for multiple licenses must submit a separate completed copy of this form for each license.

Section 1 – Establishment Information

Enter information for the business seeking to be licensed, as identified on the license application.

Licensee:	Will's World, LLC	**MJ License #:**		12536	
License Type:	Marijuana Concentrate Manufacturing Facility				
Doing Business As:	Will's World				
Premises Address:	12151 E Palmer-Wasilla Hwy, Unit 1 C				
City:	Palmer	**State:**	Alaska	**ZIP:**	99645

AMCO Received 11/8/2019

Alaska Marijuana Control Board

Form MJ-15: Operating Plan Change

Section 2 – Summary of Changes

Provide a summary of the changes for which you are requesting approval.

Will's World would like to add Blister Packaging as a packaging option for approved products.

Will's World would like to add - Sor Butane hash oil (BHO) that additional cannabis terpenes purchased from a licensed facility or from production run-off will be added to BHO.

Section 3 – Declarations

Read each statement below, and then sign your initials in the corresponding box to the right: Initials

The proposed changes conform to all applicable public health, fire, and safety laws. [WL]

I understand that any temporary approval granted by the director is pending a final decision by the MCB; therefore, any investment I make, based upon temporary approval, is at my own risk. [WL]

As a marijuana establishment licensee, I declare under penalty of unsworn falsification that this form, including all accompanying schedules and statements, is true, correct, and complete.

Form MJ-05: Marijuana Product Manufacturing Facility

Section 4 – Proposed Marijuana Concentrates and Marijuana Products

Review the requirements under 3 AAC 306.520 - 3 AAC 306.525 and 3 AAC 306.560, and identify how the proposed establishment will meet the listed requirements. **Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.**

Product Name:	Dry Sift Hash
Type:	Marijuana Concentrate

Product Description: Details must include the color, shape, and texture.	Texture will either be powdery or pressed into firm round discs. The color will range from golden brown, chocolate brown to yellowish or greenish.

Ingredients: This box is not applicable to marijuana concentrates	N/A

Standard Production Procedure and Detailed Manufacturing Process:	The marijuana plant material is first dehydrated, then crumbled into a powdered consistency. The powder is then sifted through fine nylon mesh over a columnar basket. The hash resin will then fall to the bottom. where it will be collected and either sieved through mesh screens or left as is. Dry sift hash may be pressed into discs either by hand or with a small hydraulic press.

Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.

Section 5 – Proposed Product Packaging and Sample Labels

Review the requirements under 3 AAC 306.520 and 3 AAC 306.565 – 3 AAC 306.570, and identify how the proposed establishment will meet the listed requirements. **Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.**

Product Name:	Dry Sift Hash
Type:	Marijuana Concentrate

Packaging Description: Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Attached photos, drawings, or graphic representations are preferred.	Dry sift hash will be packaged in small, opaque, heat sealed and child-resistant mylar bags or small silicone or glass containers or blister packaging for sale to retail stores. Bags/containers will contain either .5, 1, 3, 5 or 7 grams of hash. Up to 1 pound of hash will be packaged in large, opaque mylar bags or glass jars with screw top lids for wholesale transaction. THC will range from 20% to 99%.

Sample Labels: Provide sample labels showing how the labeling information required in 3 AAC 306.570 will be set out.	Label will include all of the following clearly and easily displayed on every product: Business Name: License Number: Strain: Batch / Lot Number: Gross Weight: Net MJ Weight: Packaging Date: Expiration Date: Amount of THC:  Alaska Safety Warning: Marijuana has intoxicating effects and may be habit forming and addictive. Marijuana impairs concentration, coordination, and judgment. Do not operate a vehicle or machinery under its influence. There are health risks associated with consumption of marijuana. For use only by adults twenty–one and older. Keep out of the reach of children. Marijuana should not be used by women who are pregnant or breast feeding.

AMCO Received 11/8/2019

Section 6 – Proposed Marijuana Concentrates and Marijuana Products

Review the requirements under 3 AAC 306.520, 3 AAC 306.525, and 3 AAC 306.560.
Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	Butuane Hash Oil (BHO)		
Product Type: Choose one.	Marijuana Concentrate		
Perishable: Yes/No	No	**Shelf Life:** If perishable.	
Intended Use: Smokable/ edible/topical/wholesale/etc.	Smokable		

Product Description: Details must include the color, shape, and texture.	BHO is smooth, hard and brittle when cold and sticky and pliable when warm. The color can range from yellow to amber.
Ingredients:	
Standard Production Procedure and Detailed Manufacturing Process:	The oil is extracted using a closed loop machine using marijuana flower and trim and one or a combination of the following solvents such as: butane, N-butane, Iso-butane, Ethanol. Once the oil extracted, it will either be winterized or placed into a vacuum. The winterization process begins by dissolving the BHO in ethanol and then freezing . The BHO is then filtered using a vacuum and evaporator. Additional cannabis terpenes purchased from licensed facilities or from production run off will be added to BHO.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.	
AMCO Received 11/8/2019

Section 7 – Proposed Product Packaging and Sample Labels

Review the requirements under 3 AAC 306.520, 3 AAC 306.565, and 3 AAC 306.570.
Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	Butane Hash Oil (BHO)
Product Type:	Marijuana Concentrate

Packaging Description:
Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.

BHO will be packaged two different ways:

1. In small, opaque, heat sealed and child-resistant mylar bags or blister packaging or small silicone or glass containers for sale to retail stores. Bags/containers will contain either .5, 1, 3, 5 or 7 grams of BHO. Up to 1 pound of BHO will be packaged in large, opaque mylar bags or glass jars with screw top lids for wholesale transaction. THC will range from 20% to 99%.

2. Half and one gram portions of BHO will be packaged into vape cartridges. The total THC will range from 20-99% with the actual amount of THC content listed on the label per testing results. The filled vape cartridge will be placed into an opaque mylar child resistant bag. The mylar bag is then to be placed into a child-resistant exit bag by the retailer before the customer exits the retail store.

Sample Labels:
Provide sample labels showing how the labeling requirements set forth in 3 AAC 306.570 will be met.

Product Name:	Rosin
Type:	Marijuana Concentrate

Product Description: Details must include the color, shape, and texture.	Rosin is sticky and waxy, somewhat translucent with an amber color. The consistency is similar to sap and is smooth and pliable.

Ingredients: This box is not applicable to marijuana concentrates	N/A

Standard Production Procedure and Detailed Manufacturing Process:	Rosin will be produced via heat and pressure using a hydraulic press with heated metal pressing plates. Marijuana plant material or hash will be placed into mesh bags then placed between parchment paper and onto the press. The heat and pressure will move the rosin out of the nylon bags and onto the parchment paper.

Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.

Product Name:	Bubble Hash
Type:	Marijuana Concentrate

Product Description: Details must include the color, shape, and texture.	Bubble hash can be crumbly and granular or sticky and waxy. It ranges in color from light yellow to green to light brown and is soft and malleable.

Ingredients: This box is not applicable to marijuana concentrates	N/A

Standard Production Procedure and Detailed Manufacturing Process:	Either ground marijuana or whole marijuana flower is put into buckets lined with mesh screens. Ice water or dry ice is then added to the buckets and the mixture is manually agitated. Once the ice melts or the dry ice achieves desired reaction, the screens are removed and the concentrate is manually separated from the screens. The hash is then allowed to air dry.
