Alaska Marijuana Control Board

Cover Sheet for Marijuana Establishment Applications

What is this form?

This cover sheet **must** be completed and submitted any time a document, payment, or other marijuana establishment application item is emailed, mailed, or hand-delivered to AMCO's main office.

Items that are submitted without this page will be returned in the manner in which they were received.

Section 1 – Establishment Information

Enter information for the business seeking to be licensed, as identified on the license application.

Licensee:	Royal Mountain Extracts LLC	**License Number:**		13249	
License Type:	Marijuana Product Manufacturing Facility				
Doing Business As:	X-TRACTED LABORATORIES				
Physical Address:	38957 S COMMERCIAL DR				
City:	Talkeetna	**State:**	AK	**Zip Code:**	99676
Designated Licensee:	Joe McAneney				
Email Address:	joe@thehighexpedition.com				

Section 2 – Attached Items

List all documents, payments, and other items that are being submitted along with this page.

Attached Items:	MJ-15: Operating Plan Change (MJ-05)

OFFICE USE ONLY					
Received Date:		Payment Submitted Y/N:		Transaction #:	

Received 12/5/2019

Alaska Marijuana Control Board

Form MJ-15: Operating Plan Change

What is this form?

This operating plan change form is required for all marijuana establishment licensees seeking to change a licensed marijuana establishment's existing operating plan, as required by 3 AAC 306.100. With this form, a licensee may request changes to as much or as little as desired of Form MJ-01 and/or the corresponding operating plan supplemental for the establishment's license type. **The required $250 change fee may be made by check, cashier's check, or money order.**

Please complete and submit with this form the pages of Form MJ-01 and/or the corresponding operating plan supplemental that contain sections that you are requesting to change. **All fields must be completed of any page for which you are requesting changes** – upon board approval, the submitted pages will replace those currently on file. If your current, approved operating plan is on the original version of the forms, you may be required to complete and submit the new operating plan forms in their entirety.

The form(s) that I am requesting board approval to change is:

- ☐ **Form MJ-01:** Marijuana Establishment Operating Plan
- ☐ **Form MJ-03:** Retail Marijuana Store Operating Plan Supplemental
- ☐ **Form MJ-04:** Marijuana Cultivation Facility Operating Plan Supplemental
- ☑ **Form MJ-05:** Marijuana Product Manufacturing Facility Operating Plan Supplemental
- ☐ **Form MJ-06:** Marijuana Testing Facility Operating Plan Supplemental

This form must be completed and submitted to AMCO's main office prior to changing existing operations. The licensed establishment's operations may not be altered unless and until the director has given temporary approval or the Marijuana Control Board (MCB) has given final approval of the changes. Please note that licensees seeking to change operating plans for multiple licenses must submit a separate completed copy of this form for each license.

Section 1 – Establishment Information

Enter information for the business seeking to be licensed, as identified on the license application.

Licensee:	Royal Mountain Extracts LLC	**MJ License #:**	13249		
License Type:	Marijuana Product Manufacturing Facility				
Doing Business As:	X-tracted Laboratories				
Premises Address:	38957 South Commercial Drive				
City:	Talkeetna	**State:**	Alaska	**ZIP:**	99676

Received 12/5/2019

Alaska Marijuana Control Board

Form MJ-15: Operating Plan Change

Section 2 – Summary of Changes

Provide a summary of the changes for which you are requesting approval.

Add Commercial Freeze Dryer and High Sheer Blender to equipment list.

Adding T-5, T-41, Silica, Silica Powder, Silica Gel, MagSil PR, Degumming Enzyme, Degumming Clay, Activated Alumina, Brine and Sodium Bicarbonate to our approved chemical list.

Update the product "Refine Alaska Distillate" to be sold in bulk, in mason jars, to other licensed manufacturing facilities.

Updating the product "Refine Loud Jars" to contain multiple types of approved concentrates instead of just "Refine Alaska Loud Resin

Updating the product "Double Dippers" to come in a variety of different weights instead of just 1 gram units.

Updating all "Ganja Grindz" products to "Royal Mountain Edibles" branding as well as updating the ingredients of each. We will no longer be using the licensed branding or the licensing contract initially submitted for these products. We will be making our own unique branding and labels for these products now instead of licensing them from "Ganja Grindz". We plan to update all 5 of the currently approved products to "Royal Mountain Edibles" branding. Attached in this MJ15 are 3 of 5 product updates with more to come on future MJ15s.

Updating the ingredients list of "Sour Bitz", "Sucka Bitz", and "Sugga Bitz".

Section 3 – Declarations

Read each statement below, and then sign your initials in the corresponding box to the right: Initials

The proposed changes conform to all applicable public health, fire, and safety laws. SB

I understand that any temporary approval granted by the director is pending a final decision by the MCB; therefore, any investment I make, based upon temporary approval, is at my own risk. SB

As a marijuana establishment licensee, I declare under penalty of unsworn falsification that this form, including all accompanying schedules and statements, is true, correct, and complete.

Operating Plan Supplemental

Form MJ-05: Marijuana Product Manufacturing Facility

Section 2 – Prohibitions

Applicants should review 3 AAC 306.510 and be able to answer "Agree" to all items below.

The marijuana product manufacturing facility will not:	Agree	Disagree
Sell, deliver, distribute, or transfer any marijuana, marijuana concentrate, or a marijuana product directly to a consumer, with or without compensation	✓	☐
Allow any person, including a licensee, employee, or agent, to consume marijuana, marijuana concentrate, or a marijuana product on its licenses premises	✓	☐

The marijuana product manufacturing facility will not manufacture or sell any product that:	Agree	Disagree
Is an adulterated food or drink	✓	☐
Closely resembles a familiar food or drink item including candy	✓	☐
Is packaged to look like candy, or in bright colors or with cartoon characters or other pictures or images that would appeal to children	✓	☐

Section 3 – Equipment, Compounds, and Processes to be Used

Review the requirements under 3 AAC 306.555, and identify how the proposed premises will meet the listed requirements.

Describe the equipment and solvents, gases, chemicals, and other compounds the marijuana product manufacturing facility will use to create marijuana concentrates:

Professional grade closed-loop hydrocarbon extractor designed for Butane (Butane, N-Butane, & Iso-Butane), or Propane. This system includes a recovery pump, solvent recovery tank, solvent scale, heated water circulator, and chiller. Filtration pumps, rotary evaporator, and distillation system. Vacuum ovens, vacuum pumps, pneumatic heat press, Bubble Magic washing machine (or comparable), ice water hash extraction bags, commercial freeze dryer, high sheer blender, homogenizers, magnetic stir plates, certified scales, and heat guns.

Solvents: Butane, N-Butane, Iso-Butane, Propane
Chemicals: Food Grade Ethanol, Hexane, Pentane, Heptane, Alcohols, Aldehydes, Terpenes, Ketones, MCT Oil, Diatomaceous Earth, T-5, T-41, Silica, Silica Powder, Silica Gel, MagSil PR, Degumming Enzyme, Degumming Clay, Activated Alumina, Sodium Bicarbonate, Brine, Nitrogen, Liquid Nitrogen, Natural and Artificial Flavoring.
Other: Dry Ice, Water, Activated Carbon

Section 5 – Proposed Product Packaging and Sample Labels

Review the requirements under 3 AAC 306.520 and 3 AAC 306.565 – 3 AAC 306.570, and identify how the proposed establishment will meet the listed requirements. **Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.**

Product Name:	Refine Alaska Distillate
Type:	Concentrate

Packaging Description: Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Attached photos, drawings, or graphic representations are preferred.	Packaging for retail sale consists of non-toxic, sealed, glass containers that will hold no more than 1000mg of Refine Alaska Distillate. The containers will be placed in tamper evident cardboard wallets with clear PET blisters to display the product container. Cardboard will be roughly 3"x4.5". Not to be repackaged. Total cannabinoid content per product will range from 40-99%. Refine Alaska Distillate will also be sold in bulk packages (not to exceed 5 pounds) to other product manufacturers. Bulk packaging will consist of mason jars with a sticker attached to the jar.

Sample Labels: Provide sample labels showing how the labeling information required in 3 AAC 306.570 will be set out.

Section 4 – Proposed Marijuana Concentrates and Marijuana Products

Review the requirements under 3 AAC 306.520 - 3 AAC 306.525 and 3 AAC 306.560, and identify how the proposed establishment will meet the listed requirements. **Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.**

Product Name:	Refine Loud Jar
Type:	Concentrate

Product Description: Details must include the color, shape, and texture.	Consistencies, textures, and colors will vary by strain and starting material, but generally Refine Alaska Loud Jars™ will posses a golden yellow to dark amber color; amorphous shape, and a waxy texture. Refine Loud Jars will contain either 7 grams of Refine Alaska Loud Resin, or 7 grams of Refine Alaska Distillate, or 7 grams of Refine Alaska Double Dipper, or 7 grams of Refine Rocks, or 7 grams of Refine Alaska Cannabinoid Isolate.

Ingredients: This box is not applicable to marijuana concentrates	N/A

Standard Production Procedure and Detailed Manufacturing Process:	Marijuana concentrate is extracted in a closed-loop machine using flower or trim with the use of the following solvents; Butane, N-Butane, Iso-Butane, Propane, (or a combination of). The solution is properly purged to remove all residual solvents below the regulated ranges (3 AAC 306.645) from the product. The concentrated oil is then properly packaged until testing and sale.

Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.

Product Description: Details must include the color, shape, and texture.	Noble Apple - Apple Cider features freshly pressed apples infused with the perfect blend of mulling spices. For that warm and cozy feeling all year long, enjoy this award winning cider hot or over ice. Each 8oz bottle will consist of ten (10) servings, each containing 5mg of THC, totaling 50mg for the entire bottle. 4oz bottles will be available in multiple dosage levels of 5mg, 10mg, and 25mg per bottle. Each with 5mg of THC per serving. Each bottle contains a dark golden colored liquid, similar to apple juice.

Ingredients: This box is not applicable to marijuana concentrates	Fresh apple cider, orange peel, allspice, cinnamon, cloves, Refine Alaska Distillate, Gum Acacai, Refine Alaska Cannabinoid Isolate, Citric Acid, Sodium Benzoate, Natural Emulsifiers.

Standard Production Procedure and Detailed Manufacturing Process:	Heat Cider with spices, Skim off apple fiber, pour into plastic dispensing bucket and dispense back into cleaned stock pot. Set up trays of sanitized bottles of appropriate size. Fill each bottle according to bottle filling instructions. Then close with recloseable child resistant cap and tamper evident seal. Place accurate product identifying label on front of bottle and place information label on back. Place in storage until transported for sale.

Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.
