DIVISION OF COMMUNITY AND REGIONAL AFFAIRS

550 West Seventh Avenue, Suite 1650 Anchorage, Alaska 99501 Main: 907.269.4501/907.269.4581 Programs fax: 907.269.4539

Dear Municipal Official:

The Division of Community and Regional Affairs (DCRA) is pleased to provide you with an updated City Budget Manual. Suggestions from DCRA staff and city officials were used to prepare this document that we hope you will find useful.

We are e-mailing this budget manual to assist you in preparing your City's FY 20 budget*. Please send a copy of your completed budget to DCCED DCRA Community Aid and Accountability, PO Box 110809, Juneau, AK 99811-0809. If submitting by electronic mail:

- Email documents to caa@alaska.gov
- Subject line must include: Entity name CAP Program FY Document Name
 For example Haines Borough CAP FY20 Application
 City of Cordova CAP FY19 Budget

If you have suggestions or comments on how this document can be improved, please complete and mail the comment page found in the back of the manual.

For more information on preparing your budget, please contact the nearest DCRA regional office to talk to your Local Government Specialist

*Alaska Statute 29.20.640 requires that a city submit a copy of its annual budget to the Department.

SECTION 1 BUDGETING OVERVIEW

WHAT IS A BUDGET?

A budget is a plan for receiving and spending money for a given period of time. The plan is approved by the municipal governing body (city council or borough assembly) after public hearings and identifies how city money should be spent. In this way, the budget serves to make sure that public funds are used for the benefit of the community in compliance with applicable federal, state, and local requirements.

WHY DOES A CITY PREPARE A BUDGET?

A budget performs four important functions:

- 1. Alaska law requires cities and boroughs to adopt an annual operating budget before money can be received and spent.
- 2. The budget process ensures that everyone has an opportunity to provide input on how the city or borough generates and spends money.
- 3. The budget ensures the governing body has considered how much money the city or borough is expected to receive and how much will be spent.
- 4. Alaska Statute (AS) 29.20.640 requires that a city or borough submit a copy of its annual budget to the Department of Commerce, Community, and Economic Development.

HOW IS A BUDGET PREPARED?

Alaska law (AS 29.35.100) allows municipal governing bodies to establish the way a budget is prepared and submitted to them, but AS 29.25.010 requires all appropriations to be approved by ordinance. Preparing a budget and budget ordinance takes time. The following procedure and schedule are considered reasonable:

Step 1. Ninety days before the start of the new budget period, the mayor (or city manager, if a manager plan has been adopted) should ask the treasurer to prepare an estimate of the revenue the city can expect to receive during the coming year. For communities with a budget period beginning on July 1, this means starting April 1. See pages 5 – 13 for suggestions on how to estimate revenues.

- **Step 2.** Once revenue estimates have been developed, the mayor should call the governing body together for a work session. The mayor and council or assembly members should use the work session to set the municipality's spending priorities for the budget period. For example, improved street maintenance, replacement of worn-out equipment, or keeping services at existing levels.
- **Step 3.** Based on the governing body's priorities, current year expense records, and input from department heads, the treasurer develops estimates of expenses for next year. These estimates are combined with the estimated revenues from Step 1 to form a draft budget. (Information and worksheets to estimate expenses are provided in Section 2 of this manual).
- **Step 4.** The mayor and governing body hold a work session with the treasurer to review the draft budget and to make changes (if any) before the draft budget is introduced to the public.
- **Step 5**. The draft budget is introduced as a non-code ordinance during a public meeting of the governing body. The ordinance is called an appropriation ordinance or budget ordinance. This is considered the "first reading" of the budget. A public hearing on the proposed budget ordinance must be set by affirmative vote of a majority of the governing body (AS 29.25.020.)
- **Step 6.** The city clerk posts notices of the public hearing for at least five (5) days in compliance with state and local requirements. The notice must include a summary of the ordinance and the time and place for the hearing. The public hearing allows the council to get input from the public. Make sure copies of the budget are available for the public and council to view.
- **Step 7.** Following the public hearing, the governing body may vote to adopt the budget ordinance, with or without changes.
- **Step 8.** Upon adoption by majority vote of the governing body, the mayor and clerk, certify the ordinance. One copy must be retained by the city, and a copy must be sent to the Department of Commerce, Community, and Economic Development. Copies should also be provided to municipal department heads and be made available as a public record.

PROPOSED TIMETABLE FOR PREPARING A MUNICIPAL BUDGET

for July 1 - June 30 Fiscal Year

April 1-15: Mayor directs treasurer, administrator or city manager to estimate revenues for next fiscal year, including an estimate of money not spent from the current fiscal year (carry forward funds)

April 1 -30: Mayor directs treasurer/manager/administrator to prepare an estimate of expenditures for the next fiscal year and prepare a preliminary draft budget.

Mayor and governing body hold a work session with the treasurer to review the preliminary draft budget and to make changes (if any) before the budget ordinance is introduced.

May 1 - 15: Budget ordinance is introduced at a regular meeting of the governing body (1st reading).

Governing body schedules a date for a public hearing on the budget ordinance.

City clerk posts notices of public hearing for at least five (5) days in accordance with state and local requirements.

June 1 - 15: Governing body holds a public meeting for the purpose of conducting a public hearing on the budget ordinance

After hearing public comments, governing body votes to adopt the budget ordinance, with or without changes.

June 30: If the budget ordinance has not been adopted by this date, it can restrict the city's ability to receive or spend money until the ordinance is adopted.

July 1: Begin the new fiscal year.

SECTION 2 BUDGET PREPARATION

OVERVIEW

The following section will be useful to those officials responsible for preparing the city's budget. It will lead you step-by-step through the two main parts of the budget: revenues and expenditures.

The instructions on how to prepare a budget are followed by budget worksheets that may be used for presenting the estimate of revenues and expenditures to the council. The purpose of the budget worksheets is to provide source documentation* showing how budget figures were calculated. There are two types of budget worksheets provided for your use:

- Budget worksheet for estimating revenues (see page 13).
- Budget worksheet for estimating expenses other than payroll costs (page 20)

Two source documents are needed to prepare your budget:

- Your current year's budget with any amendments.
- Your latest monthly financial statement.

Note: If you are preparing your budget estimates in April, you will need the March financial statement.

With these source documents, you can begin estimating your revenues and expenditures for the next fiscal year's budget. Remember, preparing a budget requires that you predict future revenues and expenses based on last year's expenses and revenues. Be aware of changes in revenue programs, increases in costs, and changes in services the city provides.

Source documentation - Documents or records that provide supporting information such as payroll records, timesheets, or purchase orders

RULES TO LIVE BY IN PREPARING A BUDGET

Always

- Include all city revenues and all city expenses in the budget.
- Adopt a balanced budget; revenues plus carryover fundsmust be equal to or greater than expenditures.
- Be aware that some revenues have restrictions on how they are spent.

Avoid

- Borrowing money to support general expenses.
- Over-estimating revenues and under-estimating expenditures.
- Agreeing to continue service or operate a facility even though there is no revenue to support it and it cannot be made self-supporting.
- Spending all the revenues received in a year without setting aside money for emergencies.

Don't

- Use payroll tax deductions to pay expenses.
- Loan money to community organizations or individuals.
- Let bills or taxes owed to the city go unpaid.
- Include tribal council revenues with city revenues in the city's budget.

ESTIMATING MUNICIPAL REVENUES

STEP 1: IDENTIFY CARRYOVER MONEY FROM THE CURRENT YEAR.

The first step in identifying city revenues is to calculate money left over from the current year (called carryover or carry forward). To do this, 1) calculate current balances in your cash, checking, savings, and reserve accounts; 2) add revenues the city anticipates receiving during the remainder of the fiscal year; 3) subtract expenditures the city anticipates having during the remainder of the fiscal year: the difference is the "carryover cash balance". Use the worksheets on the following pages to identify the carryover cash balance.

CARRYOVER CASH BALANCE WORKSHEET

Part 1: List all current "cash" balances

Type of account (cash in safe, checking, savings, investment, reserve, etc.)	Name of account	Amount
, ,		
	TOTAL Part 1:	

PART 2: List anticipated revenues for the remainder of the current fiscal year

Revenue source	Revenue amount
TOTAL PART 2	

CARRYOVER CASH BALANCE WORKSHEET

PART 3: List anticipated expenditures for the remainder of the current fiscal year

Expense purpose or account	Amount
TOTAL PART 3	

PART 4: SUMMARY

Line 1	Total Cash balances (from Part 1)	
Line 2	Total anticipated revenues (from Part 2)	
Line 3	Total anticipated expenses (from Part 3)	
	CARRYOVER CASH BALANCE: (Line 1 + Line 2) minus Line 3	

STEP 2: SOURCES OF REVENUE

Sources of revenue for a city depend on a number of factors and may vary among communities depending on whether they tax, charge fees for services or receive state-shared taxes.

To identify the sources of revenue for your community, review the revenue sources listed on pages 9 through 11. These are the most common sources of city revenues.

Notes

REVENUE-SOURCES

Item	How to Estimate
Community Assistance Program	From the State of Alaska Call 907-465-5541
State Shared Taxes Forestry Receipts Raw Fish Tax	The State shares these taxes with the city. Call 907-451-2731, after June 15, to ask how much your city will receive next fiscal year. Accurate information may not be available prior to June 15.
Alcohol/Cigarette Tax	Do you have any local taxes on alcohol or tobacco?
Sales Taxes	Check what was collected during the current fiscal year and estimate the next fiscal year's amount of sales tax. Consider new businesses and changes in population when estimating.
	Contracts
Airport Maintenance Contract	Check the monthly rate in the contract, multiply it by 12 months to get the amount for the fiscal year.
Clinic Lease Contract	Check the monthly rate in the contract, multiply it by 12 months to get the amount for the fiscal year.
Alaska Village Electric Cooperative (AVEC)	CALL AVEC AT: (907- 561-1818)
Gravel Hauling Contracts	Check the contract and compute the expected amount of revenue based on the number of loads multiplied by the price per load.
Other Contracts	Check the contract agreements and see how much will be received during the next fiscal year. Make sure contracts haven't expired.

	Rentals
Buildings	Estimate the rental amounts. Look at the agreement and multiply the monthly rate by 12 to get the amount for the next fiscal year. For occasional rentals make your best estimates based on past experience.
	Estimate the amount of equipment rentals for the fiscal year based on expected work. Consider AVEC, State of Alaska, housing authority and local use. Also, include expected rental of equipment on any state grants the city will have during the fiscal year.
	Charge for Services
Water/Sewer	Estimate the amount of water/sewer charges to be received in the next fiscal year. For individuals, multiply the number of houses by the monthly rate. Multiply this by 12. In some cases, a certain amount of these charges will not be paid on time and some may not be collected. The amount of uncollected revenue and late payments should be based on past experience. For the school district and other users that are dependable customers, multiply the monthly rate by the number of months used.
Washeteria	Your estimate will depend on the amount of revenue received during this fiscal year.
Cable TV	Multiply the expected number of customers by the monthly rate times 12. Look closely at the amount received during this fiscal year for comparison.
Garbage Hauling- Landfill Fees	Multiply the expected number of customers by the monthly rate times 12. Look closely at the amount received during this fiscal year for comparison.
	Other Revenue
Fuel Sales	

Fuel Sales

Multiply the number of gallons you expect to sell times the expected price per gallon. Deduct at least 10% of your total fuel gallons for shrinkage. Look at last year's sales for comparison.

Bingo/Pulltabs/Gaming

Check last year's revenue. Estimate next year's revenues

Photocopy Fees

Base your estimate for next fiscal year on what you received during the current fiscal year and what you expect for the next fiscal year.

Grant Administration

Base your estimate for the fiscal year on the grant activity you expect. Grant administration costs are based on an allowable percentage of the total grant. 10% is a common percentage but it may be less depending on the type of grant. Construction grants may extend over a longer period of time than anticipated. This extension will usually increase the amount of money spent on administration. Be careful and realistic when estimating the project schedule and the grant administration costs. List each grant and the amount of grant administration costs to be taken.

Spreading administrative costs over more than one fiscal year. On capital project grants running for several years, don't include the entire amount of administrative costs in a single fiscal year. For grants that will continue for more than one year, divide the total administrative costs for the grant by the expected life of the grant project in years, to get the administrative cost estimate per fiscal year.

Interest Income

Prepare a schedule by months showing the excess money you expect to have in your general fund time certificate of deposit (CD) and your grant fund CD. Estimate the monthly interest. Add all amounts together to get the total for the year. If you have questions regarding interest earned on certificates of deposit or other investments, call the bank's customer service representative, or counselor with your investment firm.

Donations & Fund Raising

Base estimates on what was received during this fiscal year and the type and number of events planned for the next fiscal year.

Other

Make your best estimate. Prepare a worksheet to show how you came up with the estimate.

STEP 3: ESTIMATING REVENUES

When estimating the amount of revenue to be received, examine the city's latest monthly financial statement to determine how much has been received from each source during the current year. Since these figures are for a portion of the fiscal year, they need to be annualized. For instruction on how to annualize figures, see page 17.

Remember, that the amount of revenue from each source may change from year to year. Some factors that may cause revenues to change include:

- A community's population
- New or expanded businesses, or other economic activity
- Legislative funding sources

The treasurer and mayor should also consider the fact that all revenues do not come in at the same time. All of the city's money that is being budgeted will not appear in its checking account on the first day of the new fiscal year.

The mayor and treasurer, when identifying revenues, should note the dates that revenues are expected to be received by the city. By understanding when money will be available, the city may avoid a **cash flow*** problem.

Note: Some revenues are restricted to supporting certain services or facilities. For example, grant funds are usually designated for certain activities and cannot be used to fund anything else. Replace and Renewal (R&R) accounts are restricted for large capital expenses. Monies that have no specific requirements for their use are called unrestricted general funds.

A budget worksheet form is provided to assist you in preparing your revenue estimates.

^{*}Cash flow - The flow of cash into and flow of cash out of an organization. Cash flow determines the ability of an organization to pay obligations and make purchases at any particular time.

BUDGET WORKSHEET ESTIMATING REVENUES

Revenue Category	Show your calculation	Budget Amount

ESTIMATING CITY EXPENDITURES

The second part of preparing a budget is estimating expenditures. The following two steps will guide you through the process.

IDENTIFY CATEGORIES OF EXPENDITURES

The first step is to identify the categories of expenditures. The categories of expenditures should be related to the various services and facilities provided by the city. Each department represents a major category of expenses in larger cities. Smaller cities might categorize expenditures by services, such as water or electrical service. In either case, the main categories would be departments of the municipal government.

Departments are separated into "line items." Generally speaking, line items are the same for each of the city's departments. For example, each department has payroll costs, facility expenses (electricity, heating oil, telephone) and supply expenses, etc. Refer to pages 16 through 19 on "How to Estimate Budget Expenditures."

ESTIMATE EXPENDITURES

There are two primary sources of information used to estimate next year's expenses:

- The current monthly financial statement.
- Individuals who direct various programs and departments of the city.

The best source is the record of actual expenses from the current year. Many of these costs will have to be annualized. (see the next page) Annualizing is the process of estimating costs for an entire year based on actual costs for a part of the year. These costs are your starting point. Using the knowledge of supervisors, the mayor can make adjustments to these actual costs based on changing conditions.

Keep in mind that costs will be adjusted by the council during the course of review and passage of the budget. Don't spend too much time trying to be 100% accurate with expenses. However, be prepared to explain any major differences in the projected expenses or revenues for the next year compared to the current year.

Make copies of the budget worksheet on page 20 to assist you in preparing and documenting expenditure estimates.

HOW TO ANNUALIZE

To annualize revenues and expenditures the following procedure is used.

If you know the actual amount of revenue received for 9 months and you want to estimate what the amount of revenue received would be for 12 months; first divide the 9-month actual amount by 9, this will give you the average monthly amount. Then, multiply the average monthly amount by 12. This will give you an annualized amount based on your 9-month actual amount.

Example #1

Washeteria revenue for 9 months is \$6,300.00. You want to estimate how much revenue you will receive in 12 months.

To annualize you would use the following formula:

9-month actual amount divided by 9 = average monthly amount

\$6,300.00 divided by 9 = \$700.00

Average monthly amount times 12 = Annualized amount

\$700.00 x 12= \$8,400.00.

Example #2

The total of the electric bills for the washeteria for 8 months is \$9,600.00. You want to estimate how much the electric bill will be for the entire year. To annualize the expense, you would use the following formula:

8-month actual amount divided by 8 = average monthly amount \$9,600.00 divided by 8 = \$1,200.00
Average monthly amount times 12 = annualized amount \$1,200.00 x 12 = \$14,400.00

Note: Some revenues and expenditures should not be annualized since they are not received or expended evenly over a 12 month period. Examples are local fish taxes, grants, and water sold to the school.

HOW TO ESTIMATE BUDGET EXPENDITURES

Prepare the expenditure budget by departments and grants. Under each department and/or grant there are various accounts, such as gross wages, payroll taxes, workers' compensation, supplies, and fuel. **Use a separate worksheet for each department or grant.** The following instructions will help you to prepare worksheets for the various accounts under a department and/or grant.

Item	How to Estimate
Gross Wages	On a columnar pad or computer spreadsheet list each employee, the rate that they are paid (per hour, week or month) and the usual number of hours they work per pay period. Multiply the wage times the number of hours usually worked, then multiply this amount by the number of pay periods in the year. (See example on next page.) This amount is estimated gross wages for the employee. Add all of the employee gross wages together to get the Estimated Total Gross Wages that the city pays to all employees for the year.
Employee Taxes	Payroll taxes paid by the employee are deducted from their gross wages (<i>Gross Wages - Payroll Taxes = Net Wages</i>). Since you have already calculated the gross wages and put them into the budget, you do not need to worry about calculating employee payroll tax amounts for the budget.
Employer Payroll Taxes	For most employees of a city, the city will have to make Social Security payments. To estimate this amount, multiply the Total Gross Wages for all employees by 6.2% (.062).
Social Security	For most employees of a city, the city will have to make Social Security payments. To estimate this amount, multiply the Total Gross Wages for all employees by 6.2% (.062).
Medicare	Unless you have employees who have worked for you continuously since July of 1986, the city will have to pay Medicare tax on all employees. To estimate this amount, multiply the Total Gross Wages for all employees by 1.45% (.0145).
Public Employee Retirement System (PERS)	If you have employees that participate in the PERS retirement system, multiply the amount of those employees' gross wages by the Employer Rate assigned to the city by the PERS system.

State	
Unemployment	

Multiply the Total Gross Wages for all employees by the latest **Employer Rate** (may change each year) assigned to your city by the State of Alaska, Department of Labor and Workforce Development. If you are unsure of the rate, contact the Department of Labor and Workforce Development, Division of Employment Security.

Insurance

Check what types of insurance policies the city has. Call your insurance companies for the costs.

· ·	Example of How to Figure Employees Gross Wages				
Employee Name	Wage	Rate Type	Hours per Pay Period	Pay Periods Per Year	Gross Wages
John Miller	\$8.50	Hour	20	24	\$4,080.00
Scott Smith	\$10.50	Hour	40	24	\$10,080.00
Mike Jones	\$1,000.00	Month		12	\$12,000.00
Mary Miller	\$12.00	Hour	80	24	\$23,040.00
Henry Faith**	\$6.25	Hour	10	18	\$1,125.00
			Tot	al Gross Wages	\$50,325.00

In this example the city pays twice a month so there are 24 pay periods in a year. Some employers pay every two weeks – in that case, they would have 26 pay periods per year.

^{**} Henry Faith only works for 9 months (he has the summer off) so he only gets paid for 18 pay periods.

How to Figure To	tal Payroll C	ost	5	
Employer's Social Security Tax (FICA):	\$50,325	X	.062 = 6.20%	\$3,120.15
Employer's Medicare:	\$50,325	X	.0145 = 1.45%	\$729.71
Employer's ESC:	\$50,325	X	.0365* = 3.65%	1,836.86
Total	\$5,686.72			

^{*} Employer Rate used in this example. Each employer has its own rate. Make sure you use the **correct rate** assigned to your city by the Alaska Department of Labor and Workforce Development.

Workers'

Compensation

The cost of workers' compensation is based on the number of employees the city has and the type of work they do. Your insurance carrier has the rates.

Fees

Council Meeting If you pay council meeting fees, use the Budget Worksheet for "Other Expenditures." Multiply the number of regular and special meetings by the number of council members times the meeting fee to get this amount. Remember to add the employer's FICA contribution to the meeting fees to get the total cost to the city.

Travel & Per Diem

Use the Budget Worksheet for "Other Expenditures." Determine the number of trips necessary during the fiscal year and compute the travel and per diem costs of those trips. For example, if you're preparing the worksheet for council travel and per diem, list the Mayors' conference, AML and any other travel planned.

Telephone

Use the Budget Worksheet for "Other Expenditures." Estimate telephone costs for the next fiscal year based on actual costs for this year. Consider expected changes for the next fiscal year, such as increased rates, and long distance calls.

Electricity

Use the Budget Worksheet for "Other Expenditures." Estimate electricity costs for the next fiscal year based on actual costs for this year. Consider expected changes for the next fiscal year, such as a reduction in the amount of Power Cost Equalization. Call the electric company to find out if electricity costs will change.

Heating Fuel

Use the Budget Worksheet for "Other Expenditures." Prepare a schedule of gallons expected to be used. Multiply the gallons expected to be used by the cost of fuel per gallon; include freight costs per gallon.

Postage

Use the Budget Worksheet for "Other Expenditures." Base postage costs for next fiscal year on actual postage costs for this year. Don't forget there may be postage increases.

Office Supplies, Plus Freight

Use the Budget Worksheet for "Other Expenditures." Check office supplies costs for this fiscal year and check supplies on hand. Estimate the amount of supplies you'll need for the next fiscal year. Consider photocopy, computer, and cleaning supplies. for the next fiscal year.

Equipment Use the Budget Worksheet for "Other Expenditures." Make

> a list of new equipment you plan to purchase during the next fiscal year. Find out how much the equipment will cost

by calling vendors; include freight costs.

Repair/Parts Use the Budget Worksheet for "Other Expenditures".

> Estimate the repairs that will be made based on repair costs this fiscal year plus repairs you know will have to be made

during the next fiscal year.

Vehicle Fuel Use the Budget Worksheet for "Other Expenditures." Base

your estimate on the cost of fuel and expected fuel usage. For example, if you're purchasing an additional vehicle fuel

usage may be greater.

Legal Use the Budget Worksheet for "Other Expenditures." Look

> at actual legal costs during the current fiscal year. Note unusual or expected legal costs anticipated during the next

fiscal year.

Audit Use the Budget Worksheet for "Other Expenditures." Call

vour auditor for an estimate of what the total cost of the audit will be for the next fiscal year. The cost should include travel. Some cities are not required to have an audit. The requirement that a second class city has an audit depends upon the amount of State and federal grant

funds received by the city.

Election Judges Use the Budget Worksheet for "Other Expenditures." Make

a schedule of election dates, the number of judges and the

amount judges are paid.

Penalties & Interest Use the Budget Worksheet for "Other Expenditures." There

will be no penalties and interest expense if payroll tax

deposits are made on time.

Dues & Membership

Fees

Use the Budget Worksheet for "Other Expenditures." List the name and amount of each item for the next fiscal year.

Use the Budget Worksheet for "Other Expenditures" to figure the budget for any other expenditures anticipated during the next fiscal year. For example, cable TV, monthly loan payments, utility board fees, and fuel purchased for resale. Enter department and/or grant on the budget worksheet.

SECTION 3 BUDGET FORMS

OVERVIEW

The following budget forms are provided to assist you in putting the budget worksheet information into a draft budget to be presented to the city council. **Be sure to read the instructions contained in Sections 1 and 2 prior to completing the budget forms.** Transfer revenue and expenditure estimates from the budget worksheets to the appropriate line item on the budget forms.

Revenues

There are detailed budget forms for revenues provided. The detailed forms list revenues in two main categories. These categories are:

Locally Generated Sources and

Outside Sources.

Under each of these main categories, common revenues for operating and capital special projects are listed. Blank spaces are provided to list additional sources of revenues that your city receives.

Expenditures

Budgeted expenditures should be listed on the detailed budget expenditure forms. The detailed budget expenditure forms are designed to be completed for each of your city's departments or grants. Separate budget expenditure forms are filled out for each department. Departments may include:

Administration/Finance, City Council, Police, Fire, Streets and Roads, Harbor and Dock, Health Facilities, Electric Utility, Water and Sewer, Washeteria, Garbage and Landfill, Parks and Recreation, and Public Fuel Sales.

We have provided expenditure forms for your use. Use these forms if you provide these services. The remaining forms are blank and should be used for all of your city's remaining departments and grants. After entering all the revenue and expenditure information on the appropriate detailed budget forms, use the Budget Summary forms to summarize the information. Once the summary and detailed budget forms are complete and adopted by the city council as part of an appropriations ordinance (see Section 4), photocopy all the sheets you have used and send them to DCRA at the address below.

SECTION 4 APPROPRIATIONS ORDINANCE

OVERVIEW

The budget, when prepared in its final form as an ordinance, is called an appropriations ordinance. The appropriations ordinance legally establishes a city's budget. A city may spend money only for public services or projects listed in the appropriations ordinance. The appropriations ordinance is a non-code ordinance and does not become a part of the city's code of ordinances.

For a small city, the appropriations ordinance may be as short as one page. In larger cities, the appropriations ordinance may contain several pages. The sample ordinances following this discussion are considered typical of a small city's appropriations ordinance.

INTRODUCING AND APPROVING THE APPROPRIATIONS ORDINANCE

The appropriations ordinance is presented to the council like any other ordinance. It must be adopted in the same manner as all other ordinances. Refer to page 65, "How To Pass A Budget Ordinance."

AMENDING THE APPROPRIATIONS ORDINANCE

During the budget year, a city may find that the appropriations ordinance needs changing. To make changes to the appropriations ordinance a budget amendment ordinance is required. Use the budget amendment ordinance to amend your budget and send a copy to:

Department of Commerce, Community, and Economic Development Division of Community and Regional Affairs P.O. Box 110809 Juneau, AK 99811-0809 (907) 465-5541 (907) 465-4762(FAX)

www.commerce.alaska.gov/web/dcra/CommunityAidAccountability.aspx

Two types of budget amendments are:

- 1. Supplemental Appropriations
- 2. Transfer Appropriations

SUPPLEMENTAL APPROPRIATIONS

A supplemental appropriation is used if the city receives unexpected revenues it wishes to place in the operating budget. Supplemental appropriations are also used to revise expenditure categories. A city finding it needs an additional employee is an example of when a supplemental appropriation may be necessary. Since the position was not provided for in the original budget, no money is available to hire the additional worker. However, the city received more money than anticipated. The extra money can thus be used to hire the needed employee after a supplemental appropriation is adopted. The supplemental appropriation is adopted in ordinance form in the same manner that the original appropriations ordinance was adopted.

TRANSFER APPROPRIATIONS

A transfer appropriation is used to move money from one line item to another line item. For example, three months into the new fiscal year the city needs to spend additional money for road repairs. The city council reviews the budget and finds it has more money than necessary in the authorized expenditure for administration and finance. A transfer of money using an amendment to the appropriations ordinance is needed. The transfer appropriation is adopted in ordinance form in the same manner that the original appropriations ordinance was adopted.

Look at the following sample of an appropriations ordinance before preparing your own community's appropriations ordinance. Contact your regional office for assistance in preparing an appropriations ordinance.

Alaska Statute 29.25.010 states:

"... the governing body of a municipality shall use ordinances to make appropriations, including supplemental appropriations or transfer of appropriations; ..."

HOW TO PASS A BUDGET ORDINANCE

After the budget is prepared, the city council must pass a budget ordinance before any money can be legally spent. The budget ordinance is passed in the following manner.

- 1. The mayor (or manager, if the city has adopted the city manager plan) introduces the proposed budget ordinance in writing at a city council meeting.
- 2. The city council sets a date for a public hearing on the ordinance. At least four (4) votes are needed to set the date.
- 3. A summary of the ordinance, along with any amendments is published or posted in three public places with a notice of the time and date for the public hearing. State law requires the notices to be posted for not less than five days before the public hearing. However, if possible, the notice should be posted at least two weeks before the hearing to give everyone an opportunity to review the budget.
- 4. At the public hearing, copies of the ordinance must be available to everyone or the ordinance must be read in full.
- 5. All members of the public who wish to speak on the ordinance must be heard by the council.
- 6. After the hearing, the city council may adopt the ordinance with or without any budget amendments (changes). At least four (4) votes are needed to pass the ordinance.
- 7. Upon adoption, the budget shall be in effect for the next fiscal year (July 1 June 30).
- 8. The budget ordinance as adopted shall be certified by the mayor and the city clerk. A certified copy of the budget shall be filed in the city office.

The adopted budget ordinance is a public record. The city clerk must make copies of the budget ordinance available to anyone wanting a copy during normal working hours.

Send a copy of the budget ordinance and approved revenues and expenditures to:

Department of Commerce, Community, and Economic Development Division of Community and Regional Affairs P.O. Box 110809 Juneau, AK 99811-0809 (907) 465-5541 (907) 465-4762(FAX) caa@alaska.gov

Mayor ATTEST:
City Clerk
*or the Manager, if the Manager plan has been adopted.
Original - To be kept by the city. Copy - To be returned to the Department of Commerce, Community, and Economic Development

NOW THAT YOU'VE PASSED YOUR BUDGET, WHAT'S NEXT?

Passing your city budget is the first step toward good financial management. In order to make sure that the budget plan is followed and city resources are used for the good of a city, you should:

- Develop a chart of accounts from your budget categories.
- Keep track of all revenues and expenses through the use of cash receipt and cash disbursement journals.
- Make monthly financial reports to the city council by comparing actual revenues and expenditures to the budget.
- Prepare a year-end financial statement to be certified by the city council.

DCRA has staff and information to assist your city in these areas. Please contact your local DCRA Regional Office for further assistance.
