Alaska Marijuana Control Board

Form MJ-16: Proposed New Marijuana Product

What is this form?

This proposed new marijuana product form is required for a marijuana product manufacturing facility licensee who is seeking Marijuana Control Board (MCB) approval of a new marijuana product or marijuana concentrate for production at its licensed premises, as required under 3 AAC 306.100 and 3 AAC 306.525. **The required $250 proposed new marijuana product fee may be made by check, cashier's check, or money order.**

This form must be completed and submitted to AMCO's main office prior to production of any new marijuana product or marijuana concentrate. **The proposed new marijuana product may not be produced unless and until the MCB has approved of the product.**

Please note that licensees seeking approval of more than one proposed new marijuana product or marijuana concentrate must submit a separate completed copy of this form and pay a separate fee for each proposed new marijuana product or marijuana concentrate.

Section 1 – Establishment Information

Enter information for the business seeking to be licensed, as identified on the license application.

Licensee:	Top Hat Concentrates, LLC	**MJ License #:**		10271	
License Type:	Marijuana Product Manufacturing Facility				
Doing Business As:	Top Hat Concentrates, LLC				
Premises Address:	2315 Industrial BLVD, STE B				
City:	Juneau	**State:**	Alaska	**ZIP:**	99801

Section 2 – Proposed Marijuana Concentrate or Marijuana Product

Enter information for the marijuana concentrate or the marijuana product for which you are seeking MCB approval.

Product Name:	Distillate		
Product Type: Choose one.	Other Marijuana Product		
Perishable: Yes/No	No	**Shelf Life:** If perishable.	
Intended Use: Smokable/ edible/topical/wholesale/etc.	Adding to manufactured products, edibles, or vaping		

AMCO Received 3/11/2020

Form MJ-16: Proposed New Marijuana Product

Section 3 – Proposed Product Details

Enter information for the marijuana product for which you are seeking MCB approval.

Product Description: Details must include the color, shape, and texture.	Clear - light amber, “oil-like”, high viscosity with estimated THC levels in the 90%+ range. Several different cannabinoid profiles will be created based on customer request/demand.
Ingredients:	CO2 Cannabis Oil (previously approved) or Rosin press extracted winterized oil
Standard Production Procedure and Detailed Manufacturing Process:	Either rosin or CO2 oil will be distillate. Both oils are winterized (processed with pure organic ethanol to remove fats and waxes then rotary evaporated to remove all alcohol) and then the resulting oil is put through the process of fractional distillation. This separates the terpenes and individual cannabinoids, as they separate at different temperatures. Individual cannabioids (mostly CBD & THC) will be sold in bulk to edible manufacturers, placed in vaporizer cartridges, and at times re-combined to create different THC:CBD ratios. All individual batches tested in accordance to state law.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.

Section 4 – Proposed Product Packaging and Sample Label

Enter information for the packaging and labeling of the marijuana product for which you are seeking MCB approval.

Packaging Description: Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.	When sold in bulk, packaging will be glass jars with with METRC tag affixed. When packaged in vape cartridges, it will be packaged in sizes .5g or 1g amounts in cartridges with current box packaging; Grey cardboard with gold foil detail and window on front panel. Measures 4" x 2" x .5". Box clearly displays net weight in grams and ounces (.5g / .018oz or 1g / .036oz). The required warnings will be on the box with the full test profile with all present cannabinoid percentages. Total THC will vary from strain to strain, but will be listed by percentage and total mg, as shown on label. (THC will vary from 25 - 99%). Bottom of the box will be completely sealed with test results label wrapping fully around. Top will be secured with tamper seal that requires sharp object for entry.
Sample Labels: Provide sample labels showing how the labeling requirements set forth in 3 AAC 306.570 will be met.	**Produced By**: Top Hat Concentrates **License Number**: 10271 **Product Name**: Distillate **Strain**: **Batch/Lot Number**: **Gross Weight**: **Net MJ Weight**: **OZ(g)** **Best By Date**: **Packaging Date**: **Tested By**: **License Number**: **Total THC**: **THCA**: **CBD**: **CBDA**: **CBN**: **Microbial Test**: **Pesticides**: **Herbicides**: **Fungicides**: **Residual Solvent Test**: **Contaminants Test Result**: Retailer: License Number: **Alaska Safety Warning: Marijuana has intoxicating effects and may be habit forming and addictive. Marijuana impairs concentration, coordination and judgment. Do not operate a vehicle or machinery under its influence. There are health risks associated with consumption of marijuana. For use only by adults twenty-one and older. Keep out of the reach of children. Marijuana should not be used by women who are pregnant or breast feeding.**

As a marijuana establishment licensee, I declare under penalty of unsworn falsification that this form, including all accompanying schedules and statements, is true, correct, and complete.
