Re: Limited Marijuana Cultivation Facility #17886

Dear applicant,

The AMCO Office has reviewed the documents submitted for the proposed marijuana establishment license referenced above. This letter is notice under 3 ACC 306.025(e)(2) that your application is incomplete and additional items are needed to complete the application. The additional items that need correction or resubmittal are listed below—please be sure to read the entire letter. **Please note that if the corrections and/or additional documents submitted in response to this letter are not found to be complete, your application will be returned to you in accordance with 3 AAC 306.025(e)(1), and you will need to file a new application and pay a new fee should you wish to continue pursuing licensure.**

- **Online Application**
  - Please obtain a state business license for business name BAM Alaska that shows BAM Alaska, Inc. (and not BAM Alaska, LLC) is the owner. Email me the business license number so that I can update our system.
  - The application will then be rolled back to 'New' status so that you can update the entity licensee to BAM Alaska, Inc. in your MyAlaska.
  - When you resubmit the online application with the above changes, the system will generate an updated Public Notice and Advertisement Notice template. You will need these for part of your corrections.

- **MJ-02 Premises Diagram**
  - Please number your diagrams according to the guide on MJ-02, and also make sure that you are providing the information requested of each diagram.
  - The name of the company licensee, and the name of the business needs to be corrected on the diagrams themselves. Additionally:
    - On diagram AP-1:
      - the areas under-cultivation are not clearly defined (the color is hiding them). Clearly define the areas under cultivation (your hatchings) including dimensions.
      - is there access to the second floor from within the cultivation area? please state it on the diagram.
    - Diagram A1.1:

- What diagram number is this?
- License number is missing
- Point out the building in which the proposed cultivation will be in.

- **MJ-04 Cultivation Supplemental**
  - Page 3: there is a new version of MJ-04 on our website because we added a section for pesticides. I am not requesting for you to fill out the entire application, but you do need to take page 3 of this new form and basically transfer the information from you old one to this new page. The new section is 4.6 which needs to be filled out with the requested information, and of course, you can attach separate pages as continuation. Here is the link to the form: https://www.commerce.alaska.gov/web/Portals/9/pub/MCB/MarijuanaApplication/MJ-04.pdf .
  - Page 4, 5.2: in this box you are stating that if the Board approves it, you will incinerate the marijuana waste (as another option, or instead of being picked up or transported by the waste management company). The Board has not approved the on-site incineration of marijuana waste on other applications especially when there is not even a permit obtained from the local government to do so. That said, if you insist on asking the Board to approve this option, you will need to remember to bring it up at the time this application is considered by the Board.

- **MJ-07 Public Notice Posting Affidavit**
  - Use a copy of the updated Public Notice, as mentioned above, under bullet point Online Application, and post it at the location of the proposed premises, and another conspicuous location.
  - You will need to complete a brand new MJ-07 and submit it to me.

- **MJ-08 Local Government Notice Affidavit**
  - Use a copy of the updated Public Notice, as mentioned above, under bullet point Online Application, and provide it to the local government, and the community council.
  - You will need to complete a brand new MJ-08 and submit it to me.

- **Publisher's Affidavit**
  - The newspaper ad must reflect the correct company applying for the license, so, use the updated ad template generated, as mentioned above, under bullet point Online Application, and run the newspaper ad once a week for three consecutive weeks in a newspaper of general circulation in the area.
  - You will need to submit the affidavit of publication and copy of the ad for this run.

- **Entity Documents**
  - Please provide a list of the names of each corporate officer and director, and shareholders with the percentage of shares owned.

It is very important that you submit the above corrections and/or documents as soon as possible so that AMCO staff has adequate time to review the corrections and/or additional documents which must be found to be complete within 90 days of the date of this letter.

Respectfully,

Jane Sawyer, Occupational Licensing Examiner

Hello,

I am following up on the corrections received 1.14.19. The application is still incomplete:

- I know that you are saying that the red shade is the 9-foot fence, and is going to be locked, etc. BUT, it really should be outlined with the red-dotted restricted access area line and green (for licensed premises). AND, it is not clear how this exterior MJ waste storage area (enclosed by the fence) is going to be internally connected with the rest of the licensed premises.
- In my original incomplete letter, I asked about whether you can access the 2nd floor through the 1 floor (the proposed cultivation facility), but you did not provide an answer. I don't see depiction of stairs inside, but I would like that clarified.

This email does not extend the 90-day deadline to get this application complete. The deadline is 2.7.19. Furthermore, the application is subject to get returned altogether if corrections are not adequate second time around.

Thank you
