Subject: Fw: License # 17916, License # 17983, License # 17886
Date: Saturday, May 12, 2018 11:51:42 AM

Subject: License # 17916, License # 17983, License # 17886

I have concerns in regards to the marijuana license # 17916 because it would be located in a residential neighborhood. The State of Alaska would be bringing higher volume of people from outside locations into a neighborhood which could bring more crime, higher traffic and safety concerns for children. It would be irresponsible if the State of Alaska granted a marijuana license in a residential area. Marijuana operations need to be kept in commercial locations. In regards to marijuana license # 17983 and marijuana license # 17886, the State of Alaska would be approving operations near schools and this would be another irresponsible approval.
All marijuana operations need to be located away from schools and need to be kept in commercial areas for coexisting responsibility and safety. License # 17886 would be located near Knik Goose Bay Elementary School. License # 17983 would be located near American Charter School, Midnight Sun Charter School and Meadow Lakes Elementary School. Please be responsible in your decision and reject License number's 17916, 17983 and 17886 for the safety of our children. Thank you for your prompt and courteous attention.

Sincerely yours,

Esther Huddleston
