Review the requirements under 3 AAC 306.520, 3 AAC 306.525, and 3 AAC 306.560.

Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	Live Badder		
Product Type: Choose one.	Marijuana Concentrate		
Perishable: Yes/No	Yes	**Shelf Life:** If perishable.	
Intended Use: Smokable/ edible/topical/wholesale/etc.	Smokeable		

Product Description: Details must include the color, shape, and texture.	Live Badder ranges in color from light blonde, gold, to slightly amber. It's texture can be dry cake batter to a stick of butter. Live Badder takes the shape of its container.

Ingredients:	

Standard Production Procedure and Detailed Manufacturing Process:	Live marijuana flower are harvested, cleared of any large fan leaves, and flash frozen, before being loaded into a hydrocarbon closed loop extractor. Solvent is passed over the frozen material, and then recovered. The concentrate solution is transferred to a sheet or dish, and placed in vacuum oven until ready for whipping/pulling. Once desired consistency has been reached, the final product is placed back into the vacuum oven to be purged of any residual solvents.

Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.

Section 7 – Proposed Product Packaging and Sample Labels

Review the requirements under 3 AAC 306.520, 3 AAC 306.565, and 3 AAC 306.570.

Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	Live Badder
Product Type:	Marijuana Concentrate

Packaging Description: Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565.
