Alaska Marijuana Control Board

Form MJ-16: Proposed New Marijuana Product

What is this form?

This proposed new marijuana product form is required for a marijuana product manufacturing facility licensee who is seeking Marijuana Control Board (MCB) approval of a new marijuana product or marijuana concentrate for production at its licensed premises, as required under 3 AAC 306.100 and 3 AAC 306.525. **The required $250 proposed new marijuana product fee may be made by check, cashier's check, or money order.**

This form must be completed and submitted to AMCO's main office prior to production of any new marijuana product or marijuana concentrate. **The proposed new marijuana product may not be produced unless and until the MCB has approved of the product.**

Please note that licensees seeking approval of more than one proposed new marijuana product or marijuana concentrate must submit a separate completed copy of this form and pay a separate fee for each proposed new marijuana product or marijuana concentrate.

Form MJ-16: Proposed New Marijuana Product

Section 3 – Proposed Product Details

Enter information for the marijuana product for which you are seeking MCB approval.

Product Description: Details must include the color, shape, and texture.	Color will be natural cream/green shades, a small bullet shaped mass firm to the touch
Ingredients:	Cannabis coconut oil (organic coconut oil, cannabis, non-GMO sunflower lecithin), or CO2 extracted oil purchased from an Alaskan licensed facility, with or without food grade organic cocoa butter, with or without CBD sourced from a 2018 Farm Bill compliant supplier, and/or food grade flavor oils or essential oils (list attached). All organic and fair traded ingredients will be used as feasible.
Standard Production Procedure and Detailed Manufacturing Process:	Cannabis Infused Coconut Oil will be used that has already passed state testing, made by mixing coconut oil, marijuana, or CO2 oil from another licensed facility while using low heat on a stove top. This oil will be blended and melted with or without a food grade Cocoa Butter along with food grade natural oils for to produce varying suppository strengths as indicated on proper packaging. Disposable suppository applicators (pharmaceutical grade) will be an available option in some packages (not necessary but personal choice).
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.	Actual Suppositories Optional Applicators Below
