Alaska Marijuana Control Board

Operating Plan Supplemental

Form MJ-04: Marijuana Cultivation Facility

What is this form?

This operating plan supplemental form is required for all applicants seeking a marijuana cultivation facility license and must accompany **Form MJ-01: Marijuana Establishment Operating Plan**, per 3 AAC 306.020(b)(11). Applicants should review **Chapter 306: Article 4** of the **Alaska Administrative Code.** This form will be used to document how an applicant intends to meet the requirements of the statutes and regulations.

If your business has a formal operating plan, you may include a copy of that operating plan with your application, but all fields of this form must still be completed per 3 AAC 306.020 and 3 AAC 306.420(2).

What additional information is required for cultivation facilities?

Applicants must identify how the proposed establishment will comply with applicable regulations regarding the following:

- Prohibitions
- Cultivation plan
- Waste disposal
- Odor control
- Testing procedure and protocols
- Packaging and labeling

This form must be completed and submitted to AMCO's main office before any new or transfer application for a standard marijuana cultivation facility or limited marijuana cultivation facility license will be considered complete.

Section 1 – Establishment Information

Enter information for the business seeking to be licensed, as identified on the license application.

Licensee:	Snow Capped Gardens 2, LLC	**MJ License #:**		19874	
License Type:	Limited Marijuana Cultivation				
Doing Business As:	Snow Capped Gardens 2, LLC				
Premises Address:	3253 W. Coghlan Circle Suite 101				
City:	Wasilla	**State:**	Alaska	**ZIP:**	99623

AMCO
MAY – 8 2020

Form MJ-04: Marijuana Cultivation Facility Operating Plan Supplemental

Section 2 – Overview of Operations

2.1. Provide an overview of your proposed facility's operations. Include information regarding the flow of marijuana from seed or clone to harvest and transfer from your premises:

All plants, clones and seeds will be entered into Metrc and tracked from the immature plant stage to harvest, testing, packaging, and sold/transferred. Allbatches will pass all required testing prior to being transferred to another facility. After all flower and trim has passed the required testing it will than be packaged for wholesale. All rooms will be set up in Metrc to make it known where the marijuana and marijuana products are at any given time.

Section 3 – Prohibitions

Review the requirements under 3 AAC 306.405 and 3 AAC 306.410.

3.1. I certify that the marijuana cultivation facility will not: Initials

a. **sell, distribute, or transfer any marijuana or marijuana product to a consumer, with or without compensation;** MB

b. **allow any person, including a licensee, employee, or agent, to consume marijuana or marijuana product on the licensed premises or within 20 feet of the exterior of any building or outdoor cultivation facility; or** MB

c. **treat or otherwise adulterate marijuana with any organic or nonorganic chemical or compound to alter the color, appearance, weight, or odor of the marijuana.** MB

Section 4 – Cultivation Plan

Review the requirements under 3 AAC 306.420 and 3 AAC 306.430.

4.1. Describe the size of the space(s) the marijuana cultivation facility intends to be under cultivation, including dimensions and overall square footage. Provide your calculations below:

Flower room #1 will have 3 tables, each table will be 4-foot wide and 16-foot long each table will consist of 64 square feet for a total of 192 square feet.
Flower room #2 will have 2 tables, each table will be 4-foot wide and 16-foot long each table will consist of 64 square feet for a total of 128 square feet.
The Veg Room will have 4 tables, each table will be 4-foot wide and 8 foot long each table will consist of 32 square feet it will also have 3 sets of stackable shelves consisting of 2 shevles under cultivation each shelf will be 2-foot wide and 4-foot long for a total of 8 square feet for each shelf. For a total of 176 square feet.
The total square foot under cultivation of all 3 rooms combined will be 494 square feet.

5-Tables 4 ft. X 16 ft. = 320 square feet
4-Tables 4 ft. X 8 ft. = 128 square feet
6-Shelves 2 ft. X 4 ft. = 48 square feet
Total sq. ft. under cultivation = 496 square feet

AMCO
MAY – 8 2020

Form MJ-04: Marijuana Cultivation Facility Operating Plan Supplemental

You must be able to certify the statement below. Read the following and then sign your initials in the box to the right: Initials

4.2. The proposed area(s) for cultivation are clearly identified on the Form MJ-02: Premises Diagram that is submitted with this application. MB

Answer "Yes" or "No" to the following question: Yes No

4.3. Will the marijuana cultivation facility include outdoor production? ☐ ☑

If "Yes", describe the outdoor structure(s) or the expanse of open or clear ground and how it is fully-enclosed by a physical barrier:

4.4. Describe the method(s) used to ensure that any marijuana at the marijuana cultivation facility, whether indoors or outdoors, cannot be observed by the public from outside the facility:

All the growing at Snow Capped Gardens 2, LLC will be conducted indoors in a restricted area. There is only 1 door at the entrance of the facility that will not allow anybody to see inside the facility and the facility does not have any windows.

4.5. Describe the marijuana cultivation facility's growing medium(s) to be used:

Snow Capped Gardens 2, LLC will be using traditional soil cultivation, as well as hydroponic growing methods. Mediums: soil, Coco, Fiber, Rockwell cubes, and water.

4.6. Provide the complete product name and EPA registration # (if applicable) for each of the cultivation facility's pesticide and pest control product to be used. All proposed products must be on DEC's list of approved pesticides in the state of Alaska:

Snow Capped Gardens 2 LLC does not plan on using any pesticides in it's facility, but if for some reason there becomes a need for the use of a pesticide we will use whatever is availiable on the approved list of pesticides that meet Alaska criteria for use on marijuana. Please see the list attached marked Exhibt 4.6(a)

4.7. Describe all other fertilizers, chemicals, gases, and delivery systems, including carbon dioxide management, to be used at the marijuana cultivation facility:

Fertilizers: Organic
Chemicals: PH up and PH down additives to water
These will be delivered via water to plants
Gases: CO_2
We will be using a SmartBee control system to monitor and control the HVAC system and the CO_2 burner system we will be using CO_2 Monitors as a back up safety system. The CO_2 Enrichment System would consist of 3 total Titan Control CO_2 burners 1-in the Veg Room, 1-in Flower Room #1, 1-in Flower Room #2.

AMCO

4.8. Describe the marijuana cultivation facility's irrigation and waste water systems to be used:

Soil cultivation will not generate waste water. Water will be absorbed by the plants or evaporate. Catchments are below each plant to contain any overflow.

Hydroponic cultivation will generate waste water that contains nutrients. This water will either be disposed of in the facilities leech field or used to irrigate outdoor gardens. All will be done in comliance with local, state, and federal DEC guidlines.

Section 5 – Waste Disposal

Review the requirements under 3 AAC 306.740.

You must be able to certify the statement below. Read the following and then sign your initials in the box to the right: Initials

5.1. The marijuana cultivation facility shall give the board at least three days written notice required under 3 AAC 306.740(c) before making marijuana waste unusable and disposing of it. MB

5.2. Describe how you will store, manage, and dispose of any solid or liquid marijuana waste, including wastewater generated during marijuana cultivation, in compliance with any applicable laws. Include details about the material(s) you will mix with ground marijuana waste and the processes that you will use to make the marijuana waste unusable for any purpose for which it was grown:

All marijuana waste will be weighed, recorded and stored on the licensed premises for the required amount of time, then will be ground up and mixed with the growing medium, root balls, paper, card board, and other trash available at the facility at 50/50 ratio. At that thime it will be considered unuseable, then will be put into a landfill dumpster. There will be no waste water. Any water that may be generated will be disposed of in the facilities leech field or used to irrigate outdoor gardens.

AMCO MAY – 8 2021

Section 6 – Odor Control

Review the requirements under 3 AAC 306.430.

Answer "Yes" or "No" to the following question:	Yes	No
6.1. Have you received an exemption from your local government for the odor control requirement set forth in 3 AAC 306.430(c)(2)?	☐	☑

If "Yes", you must be able to certify the statement below. Read the following and then sign your initials in the box:	Initials
I am attaching to this form documentation of my odor control exemption from the local government.	☐

If "No" to question 6.1., describe the odor control method(s) to be used and how the marijuana cultivation facility will ensure that any marijuana at the facility does not emit an odor that is detectable by the public from outside the facility:

Carbon filters will be used as necessary and ozone generators can be used to neutralize any odors. The employees, Licensee, or Agents of the marijuana establishment will conduct a smell test around the facility and at the facility's Property line every day.

Section 7 – Testing Procedure and Protocols

Review the requirements under 3 AAC 306.455 and 3 AAC 306.465.

You must be able to certify each statement below. Read the following and then sign your initials in the corresponding box:	Initials
7.1. I understand and agree that the board or director will, from time to time, require the marijuana cultivation facility to provide samples of the growing medium, soil amendments, fertilizers, crop production aids, pesticides, or water for random compliance checks.	MB
7.2. I will ensure that any individual responsible for collecting random, homogenous samples for required laboratory testing under 3 AAC 306.455 will prepare the necessary accompanying signed statement, provide the signed statement to the marijuana testing facility, and maintain a copy as a business record under 3 AAC 306.755.	MB

7.3. Describe the testing procedures and protocols the marijuana cultivation facility will follow:

A random sample will be taken from each harvest batch of marijuana produced in the facility and entered into Metrc and delivered to a testing facility. Transportation of the samples to the testing facility will be in compliance with 3AAC 306. 750. The havest batch from which the sample was taken will be confined in the processing/drying room the batch will be maintained in a cool, dry location until the testing facility returns the results of the test. No marijuana from this facility will be sampled, sold, or transfered until all required lab testing has been completed. Testing results will be maintained as a part of the business records. Should the board or the director require the facility to provide samples of the growing medium, soil amendments, fertilizers, ect. for compliance checks, the facility will cooperate to facilitate the collection of samples.

AMCO

Form MJ-04: Marijuana Cultivation Facility Operating Plan Supplemental

Section 8 – Packaging and Labeling

Review the requirements under 3 AAC 306.470 and 3 AAC 306.475.

Answer "Yes" or "No" to the following question:	Yes	No
8.1. Will the marijuana cultivation facility be packaging marijuana for a retail marijuana store to sell to a consumer without repackaging?	☐	☑

If "Yes", describe how the marijuana cultivation facility will ensure that the marijuana sold will meet the packaging requirements in 3 AAC 306.470, and provide a sample label that the facility will use to meet the labeling requirements set forth in 3 AAC 306.475:

Answer "Yes" or "No" to the following question:	Yes	No
8.2. Will the marijuana cultivation facility be packaging marijuana in wholesale packages?	☑	☐

If "Yes", describe how the marijuana cultivation facility will ensure that the marijuana sold will meet the packaging requirements in 3 AAC 306.470, and provide a sample label that the facility will use to meet the labeling requirements set forth in 3 AAC 306.475:

Snow Capped Gardens 2, LLC will be packaging marijuana in wholesale packages only not to exceed five (5) pounds per package for repackaging by the retail marijuana store; or to a marijuana product manufacturing facility and consisting of a single strain or a mixture of strains as identified on the label. Each package prepared will be identified by a tracking label generated for tracking by the marijuana cultivation facility's marijuana inventory tracking system. All marijuana will be placed in a sealed, tamper evident container affixed with a label, and 3 copies of the transportation manifest will be kept with the shipment until accepted at the receiving marijuana establishment. One copy of the manifest will be left with the marijuana establishment receiving the shipment and the other 2 copies will be for Snow Capped Gardens 2, LLC.
Sample Label continued on page #7

I certify that as a marijuana cultivation facility, I will submit monthly reports to the Department of Revenue and pay the excise tax required under AS 43.61.010 and AS 43.61.020 on all marijuana sold or provided as a sample to a marijuana establishment, as required under 3 AAC 306.480.

I declare under penalty of unsworn falsification that this form, including all accompanying schedules and statements, is true, correct, and complete.
