Form MJ-15: Operating Plan Change

What is this form?

This operating plan change form is required for all marijuana establishment licensees seeking to change a licensed marijuana establishment's existing operating plan, as required by 3 AAC 306.100. With this form, a licensee may request changes to as much or as little as desired of Form MJ-01 and/or the corresponding operating plan supplemental for the establishment's license type. **The required $250 change fee may be made by check, cashier's check, or money order.**

Please complete and submit with this form the pages of Form MJ-01 and/or the corresponding operating plan supplemental that contain sections that you are requesting to change. **All fields must be completed of any page for which you are requesting changes** – upon board approval, the submitted pages will replace those currently on file. If your current, approved operating plan is on the original version of the forms, you may be required to complete and submit the new operating plan forms in their entirety.

The form(s) that I am requesting board approval to change is:

- ☐ **Form MJ-01:** Marijuana Establishment Operating Plan
- ☐ **Form MJ-03:** Retail Marijuana Store Operating Plan Supplemental
- ☐ **Form MJ-04:** Marijuana Cultivation Facility Operating Plan Supplemental
- ☑ **Form MJ-05:** Marijuana Product Manufacturing Facility Operating Plan Supplemental
- ☐ **Form MJ-06:** Marijuana Testing Facility Operating Plan Supplemental

This form must be completed and submitted to AMCO's main office prior to changing existing operations. The licensed establishment's operations may not be altered unless and until the director has given temporary approval or the Marijuana Control Board (MCB) has given final approval of the changes. Please note that licensees seeking to change operating plans for multiple licenses must submit a separate completed copy of this form for each license.

Section 1 – Establishment Information

Enter information for the business seeking to be licensed, as identified on the license application.

Section 2 – Summary of Changes

Provide a summary of the changes for which you are requesting approval.

Rosemary Sea Salt Cracker
Requesting to change the shape from square to round with a waffle impression. The size will be approximately 2" round. We have discovered that we get a more accurate dosage of 5mg THC per cracker if we make them round. They hold up much better in the package and don't break. We found that the square crackers broke in the individual packages. The waffle stamp makes them bake up crispy.

Package size changes: see attached Exhibit A

Product name change: Salted Caramel Chews to Salted Caramels

Ingredient change to Vegan Oatmeal Cookie. Removed non-dairy chocolate chips

Section 3 – Declarations

Read each statement below, and then sign your initials in the corresponding box to the right: Initials

The proposed changes conform to all applicable public health, fire, and safety laws. AR

I understand that any temporary approval granted by the director is pending a final decision by the MCB; therefore, any investment I make, based upon temporary approval, is at my own risk. AR

As a marijuana establishment licensee, I declare under penalty of unsworn falsification that this form, including all accompanying schedules and statements, is true, correct, and complete.

Section 4 – Proposed Marijuana Concentrates and Marijuana Products

Review the requirements under 3 AAC 306.520 - 3 AAC 306.525 and 3 AAC 306.560, and identify how the proposed establishment will meet the listed requirements. **Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.**

Product Name:	Vegan Oatmeal Cookie
Type:	Edible

Product Description: Details must include the color, shape, and texture.	Approximately 2"x 2" round, flat shape, medium to dark brown, soft, chewy texture.

Ingredients: This box is not applicable to marijuana concentrates	All-purpose flour, rolled oats, brown sugar, baking soda, cinnamon, salt, maple syrup, almond milk, vanilla extract, cannabis extract (cannaoil). I removed non-dairy choc. chips

Standard Production Procedure and Detailed Manufacturing Process:	The cookies will be produced using the cannaoil once all testing reports have been received. A batch will be produced in the following manner: Cream together the cannaoil, brown sugar, maple syrup, almond milk and vanilla until smooth. Dissolve baking soda in hot water. Add to batter along with salt. Stir in flour, oats, cinnamon. Shape dough into 1" balls and place on a parchment lined cookie sheet, 2" apart. Bake in a 350 degree oven for 10 minutes or until edges are nicely browned. Cool slightly then move onto a cooling rack and allow to cool completely. A sample from this batch will be sent to a marijuana testing facility with a travel manifest. This batch will be packaged, labeled with a METRC label, and stored in locked, secure storage room. Once the sample is cleared through the testing facility, labels will be made and placed on the packaged cookies and stored in locked, secured storage room until sent to retail stores.

Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.

Section 4 – Proposed Marijuana Concentrates and Marijuana Products

Review the requirements under 3 AAC 306.520 - 3 AAC 306.525 and 3 AAC 306.560, and identify how the proposed establishment will meet the listed requirements. **Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.**

Product Name:	Rosemary Sea Salt Cracker
Type:	Edible

Product Description: Details must include the color, shape, and texture.	Approximately 2" x 2" round, flat shape, with waffle stamp, medium to golden brown with green spots (rosemary pieces), soft texture similar to a butter cracker or a shortbread cracker.

Ingredients: This box is not applicable to marijuana concentrates	All-purpose flour, Parmesan cheese, cream, rosemary, salt, black pepper, cannabis-infused butter.

Standard Production Procedure and Detailed Manufacturing Process:	The crackers will be produced using the cannabutter once all testing reports have been received. A batch will be produced in the following manner: Mix flour, Parmesan cheese, cream, rosemary, salt, black pepper and cannabis-infused butter together. Shape dough into approximately 1" balls and stamp each one down with a waffle stamp, sprinkle with salt, place on a parchment lined baking sheet, 2" apart. Bake in a 350 degree oven for approximately10 minutes or until edges are nicely browned. Cool slightly then move onto a cooling rack and allow to cool completely. A sample from this batch will be sent to a marijuana testing facility with a travel manifest. This batch will be packaged, labeled with a METRC label, and stored in locked, secure storage room. Once the sample is cleared through the testing facility, labels will be made and placed on the packaged crackers and stored in locked, secured storage room until sent to retail stores.

Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.	See attached.
