Form MJ-15: Operating Plan Change

Section 2 – Summary of Changes

Provide a summary of the changes for which you are requesting approval.

At this time our packaging for Crumble, Bubble Hash, Rosin, Wax and Shatter is 9ml jars with child proof lids. We would like to add to our packaging. We would like to sell product in bulk to a Marijuana Product Manufacturing Facility or to a Marijuana Retail Store. We would transfer wholesale packages to accounts not to exceed 5 pounds. Product will be put into pint size jars that would hold 1/2 lb of product. Each package would be identified by a tracking label generated by AKO Farms .

The jars will be placed into a sealed tamper proof shipping container that locks. We will affix a label to the shipping container showing that the product has been tested by a licensed testing facility. There will be a label placed on the shipping container that has our name , batch number and the net weight of the package . We will then generate a transport manifest from the inventory tracking system. The manifest will stay with the package until delivered. The receiving establishment will get a copy of the test results and the transport manifest and will receive package in Metrc.

Section 3 – Declarations

Read each statement below, and then sign your initials in the corresponding box to the right: Initials

The proposed changes conform to all applicable public health, fire, and safety laws. EM

I understand that any temporary approval granted by the director is pending a final decision by the MCB; therefore, any investment I make, based upon temporary approval, is at my own risk. EM

As a marijuana establishment licensee, I declare under penalty of unsworn falsification that this form, including all accompanying schedules and statements, is true, correct, and complete.
