Good evening,
I am writing to you regarding an objection to application 17077 for Grass Station 49. I am basing the objection based on Alaska statute 3 AAC 306.010, specifically regarding the proximity to a religious organization. The Nome United Pentecostal Church, located at 110 Front Street is within the said 500 feet of Grass Station 49, therefore I object to granting this license to this institution.

Grass Station 49 posted a Public Notice stating they are intending to open a Marijuana Store in the old Museum building located at 223 Front Street, Nome, AK, 99762
Across the street is the "Old Federal Building", which is a 3 story commercial office building. On the ground floor is a Church and it is 300 feet away or less from front door of Grass Station 49's proposed location to the congregation's entrance .
The Church's name is: Nome United Pentecostal Church
The Pastor: Rev. Craig Colvin

You can look them up on Facebook for more information.
It is my understanding that a Marijuana business has to be 500ft away from a church. Please advise if not correct.
