Alaska Marijuana Control Board

Form MJ-16: Proposed New Marijuana Product

What is this form?

This proposed new marijuana product form is required for a marijuana product manufacturing facility licensee who is seeking Marijuana Control Board (MCB) approval of a new marijuana product or marijuana concentrate for production at its licensed premises, as required under 3 AAC 306.100 and 3 AAC 306.525. **The required $250 proposed new marijuana product fee may be made by check, cashier's check, or money order.**

This form must be completed and submitted to AMCO's main office prior to production of any new marijuana product or marijuana concentrate. **The proposed new marijuana product may not be produced unless and until the MCB has approved of the product.**

Please note that licensees seeking approval of more than one proposed new marijuana product or marijuana concentrate must submit a separate completed copy of this form and pay a separate fee for each proposed new marijuana product or marijuana concentrate.

Section 1 – Establishment Information

Enter information for the business seeking to be licensed, as identified on the license application.

Licensee:	SHFT LLC	**MJ License #:**	23503		
License Type:	Marijuana Product Manufacturing Facility				
Doing Business As:	Green Growcer				
Premises Address:	301 E Dimond Blvd, Suite B				
City:	Anchorage	**State:**	Alaska	**ZIP:**	99515

Section 2 – Proposed Marijuana Concentrate or Marijuana Product

Enter information for the marijuana concentrate or the marijuana product for which you are seeking MCB approval.

Product Name:	CannaRub Hybrid		
Product Type: Choose one.	Other Marijuana Product		
Perishable: Yes/No	No	**Shelf Life:** If perishable.	
Intended Use: Smokable/ edible/topical/wholesale/etc.	Topical		

Received by AMCO 11.13.20

Form MJ-16: Proposed New Marijuana Product

Section 3 – Proposed Product Details

Enter information for the marijuana product for which you are seeking MCB approval.

Product Description: Details must include the color, shape, and texture.	CannaRub Hybrid is intended for topical use and not for ingestion. CannaRub Hybrid will appear yellow-ish to dark green in color and be aromatic. It will be smooth and oily to the touch and vary in firmness depending on the temperature at which it is stored.
Ingredients:	Cannabis Extract, Hempseed Oil, Emu Oil, Beeswax, Eucalyptus Extract, Peppermint Extract, Lavender Extract, Rosemary Extract
Standard Production Procedure and Detailed Manufacturing Process:	Marijuana flower/trim is mixed/soaked in liquid Coconut oil (or any of the various vegetable oils) and heated to decarboxylate the THC, remove water and kill pathogens. The mixture is then filtered to remove the Marijuana Flower/Trim while leaving an Oil infused with THC and a wide array of cannabinoids.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.
