Alaska Marijuana Control Board

Form MJ-16: Proposed New Marijuana Product

What is this form?

This proposed new marijuana product form is required for a marijuana product manufacturing facility licensee who is seeking Marijuana Control Board (MCB) approval of a new marijuana product or marijuana concentrate for production at its licensed premises, as required under 3 AAC 306.100 and 3 AAC 306.525. **The required $250 proposed new marijuana product fee may be made by check, cashier's check, or money order.**

This form must be completed and submitted to AMCO's main office prior to production of any new marijuana product or marijuana concentrate. **The proposed new marijuana product may not be produced unless and until the MCB has approved of the product.**

Please note that licensees seeking approval of more than one proposed new marijuana product or marijuana concentrate must submit a separate completed copy of this form and pay a separate fee for each proposed new marijuana product or marijuana concentrate.

Section 1 – Establishment Information

Enter information for the business seeking to be licensed, as identified on the license application.

Licensee:	Einstein Enterprises, Inc.	**MJ License #:**		10082

Form MJ-16: Proposed New Marijuana Product

Section 3 – Proposed Product Details

Enter information for the marijuana product for which you are seeking MCB approval.

Product Description: Details must include the color, shape, and texture.	Terp Sugar is a cannabis extract product ranging in color from pale yellow or white to amber. Terp Sugar is somewhat sticky and has a texture similar to brown sugar.
Ingredients:	Heptane gas, Co2, rosin pressed, water, or ethanol processed flower or trim.
Standard Production Procedure and Detailed Manufacturing Process:	Flower or trim is extracted using a solvent through a closed loop extraction system. The extracted oil is winterized using ethanol in a freezer. After at least 12 hours in the freezer product is triple filtered and then run through a rotary evaporator. The resulting oil is poured out into "slabs" and put into a vacuum oven at desired temperature and pressure settings. Over the next 12 hours to 4 days time the product reaches the desired final consistency and is removed from the oven to be packaged.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.

Section 4 – Proposed Product Packaging and Sample Label

Enter information for the packaging and labeling of the marijuana product for which you are seeking MCB approval.

Packaging Description: Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.	The designated amount of Terp Sugar will be packaged into 5.0 mL to 7.0 mL frosted or clear glass jars with child resistant lids made of plastic, silicone, or bamboo. Each glass jar will contain a minimum of 0.5 grams of cannabis product but not more than 7.0 grams of cannabis product. Jars will be placed into 2"x2"x2" cardboard boxes. Boxes will be printed with a multi-colored art depiction of a space nebula that wraps around all but the front panel. The front panel is black with the Einstein Labs triangle logo. Tamper evident stickers will be used to seal boxes closed. Stickers stating the product name and Net Weight in grams will be affixed to the front of each box. The required warnings will be printed on a sticker affixed to the back of the box. A sticker label will be affixed to the side of each box in compliance with 3 AAC 306.570. Total THC/THCA will range from 70-99% SEE ATTACHED FOR PICTURES OF PACKAGING DESCRIBED HEREIN. As a secondary packaging option the 5.0 -7.0 mL glass jars may be packaged in printed or sticker branded, non-toxic, opaque, black, child resistant mylar bags with an optional clear back to show product. Bags range in size from 1/8 oz to 1oz. Mylar bags will be heat sealed using an impulse sealer for added consumer protection. Labels will be affixed to the front and back of each bag in compliance with 3 AAC 306.570.
Sample Labels: Provide sample labels showing how the labeling requirements set forth in 3 AAC 306.570 will be met.	  
As a marijuana establishment licensee, I declare under penalty of unsworn falsification that this form, including all accompanying schedules and statements, is true, correct, and complete.
