Alaska Marijuana Control Board

Form MJ-16: Proposed New Marijuana Product

What is this form?

This proposed new marijuana product form is required for a marijuana product manufacturing facility licensee who is seeking Marijuana Control Board (MCB) approval of a new marijuana product or marijuana concentrate for production at its licensed premises, as required under 3 AAC 306.100 and 3 AAC 306.525. **The required $250 proposed new marijuana product fee may be made by check, cashier's check, or money order.**

This form must be completed and submitted to AMCO's main office prior to production of any new marijuana product or marijuana concentrate. **The proposed new marijuana product may not be produced unless and until the MCB has approved of the product.**

Please note that licensees seeking approval of more than one proposed new marijuana product or marijuana concentrate must submit a separate completed copy of this form and pay a separate fee for each proposed new marijuana product or marijuana concentrate.

Section 1 – Establishment Information

Enter information for the business seeking to be licensed, as identified on the license application.

Licensee:	Great Northern Manufacturing, Inc.	**MJ License #:**		17336

Section 3 – Proposed Product Details

Enter information for the marijuana product for which you are seeking MCB approval.

Product Description: Details must include the color, shape, and texture.	This is a sugar based body scrub. It will be be opaque in color and solid but slightly viscous at room temperature and will fully melt upon contact with skin. The product is sandy in texture and homogeneous.
Ingredients:	Marijuana concentrate, Sugar, Coconut Oil, Olive Oil, and may include coffee or other natural exfoliant. Product may contain added terpenes or CBD isolate. The marijuana concentrate used will be one produced by Great Northern Manufacturing, Inc., such as full extract cannabis oil, shatter, sugar wax or distillate. Concentrates produced by other manufacturers may also be used, depending on supply.
Standard Production Procedure and Detailed Manufacturing Process:	Marijuana concentrate will be warmed and combined with the oil ingredients. Once combined, the other ingredients will be added. The resulting mixture will then be cooled, producing a homogeneous product.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.	Actual product appearance attached. AMCO DEC 16 2020

Section 4 – Proposed Product Packaging and Sample Label

Enter information for the packaging and labeling of the marijuana product for which you are seeking MCB approval.

Packaging Description: Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.	Product packaging will be a 3.5 - 16.0 oz. tin or plastic container. Product will contain approximately 50 - 500 mg THC depending on packaging size. Product packaging will have a child-resistant, screw-on, resealable lid or will be sold in a sealed mylar bag or will be placed in an opaque, resealable child-resistant exit packaging at the point of sale and will be placed in an additional exit bag upon purchase if necessary. See attached image.
Sample Labels: Provide sample labels showing how the labeling requirements set forth in 3 AAC 306.570 will be met.	See attached image. AMCO DEC 16 2020

As a marijuana establishment licensee, I declare under penalty of unsworn falsification that this form, including all accompanying schedules and statements, is true, correct, and complete.
