Re: Cannavore Retail Marijuana Store #18928

Dear Ms. Drulis,

I have received and reviewed the "corrections letter" propounded upon our client/applicant Patrick Owens and have remediated the deficiencies outlines, therein. I have responded to each request, in turn, below, and attached all requested supplements, corrections, and affidavits.

- MJ-01 Operating Plan: Please find attached Logo.

- MJ-02 Premises Diagram: Please find amended and revised MJ-02 with attachments, attached.
    - Diagram 1: True North Arrow added, new labeling added to demonstrate that cultivation areas are both restricted access areas as well as cultivation areas. Entryway dimensions modified to reflect recent change order/modification on site. Asterisk added with language to signify that the shelves are stackable.
    - Diagram 2: True North Arrow Added; key and labeling modified to demonstrate that cultivation areas are within restricted access areas; entry way modified to show access to stairwell, which leads to residential area. To answer your question, yes, this is a residential garage which has been modified to become a limited cultivation.
    - Diagram 4: The house is the only building on the property. I can see how this is unclear in the imagery provided. I have included "MJ02 diagram 4 detail 1" to show a more clear rendering of the aerial view, however the roofline drops a shadow that leaves the image still somewhat unclear. I have outlined the residential portion of the house in one color, and shaded; outlined the proposed premises in color, and referred to both within the legend. Additionally, I used the same color as the neighbors roof to indicate, within the legend, that that is a different property, altogether. Hope this helps to clarify.

Received by AMCO 4/12/19

- MJ-04 Cultivation Supplemental:
    - Dimensional discrepancies have been verified and adjusted to match specific dimensions, as built.
    - Page 3, Section 4.6: Licensee has selected a few brands of Neem oil from DEC/ EPA approved products list and we have amended the MJ-04.
    - Page 3, Section 4.7: While no actual gases will be used, the words (for carbon dioxide management) has been added to the product list. Additionally- added the name brand and type of cleaning product to be used within the cultivation, to include EPA #.
- MJ-07 Public Notice Posting Affidavit:
    - Re-posted, signed, notarized, and attached
- MJ-08 Local Government Notice Affidavit:
    - Mat-Su Borough and Willow Community Council re-notices. New affidavit attached, signed, and notarized.
- Publishers Affidavit:
    - New ad has run. New publishers affidavit attached, along with tear sheet/ proof of publication i.e. copy of the ad.
- Proof of Possession for Proposed Premises:
    - Errors on page 1 reviewed; corrected. New PoPPP attached
- Fingerprint Card:
    - Will be hand delivered to your office before 4pm today.
- Applicant's Residency:
    - Patrick has applied for his PFD, however utilized the in-office application method. This has not yet been processed by the PFD office, and as such, is his eligibility status is not yet visible through MyAlaska. Client is pursuing proof of eligibility from the PFD office at the present time, as he has indicated that he is indeed PFD eligible.

I believe I have responded to and/or addressed each of the corrections and clarifications requested. Please let me know if there is anything else I can do to help this application go through to the board.

Thanks,
