Alaska Marijuana Control Board

# Form MJ-16: Proposed New Marijuana Product

**What is this form?**

This proposed new marijuana product form is required for a marijuana product manufacturing facility licensee who is seeking Marijuana Control Board (MCB) approval of a new marijuana product or marijuana concentrate for production at its licensed premises, as required under 3 AAC 306.100 and 3 AAC 306.525. **The required $250 proposed new marijuana product fee may be made by check, cashier's check, or money order.**

This form must be completed and submitted to AMCO's main office prior to production of any new marijuana product or marijuana concentrate. **The proposed new marijuana product may not be produced unless and until the MCB has approved of the product.**

**Please note that licensees seeking approval of more than one proposed new marijuana product or marijuana concentrate must submit a separate completed copy of this form and pay a separate fee for each proposed new marijuana product or marijuana concentrate.**

## Section 3 – Proposed Product Details

Enter information for the marijuana product for which you are seeking MCB approval.

| | |
|---|---|
| **Product Description:** Details must include the color, shape, and texture. | Chocolate Bars are brown/cream colored with a smooth to rough texture (rough texture due to added ingredients such as; nuts, cookie crumbs, dried fruit etc.) and a square or rectangular shape. |
| **Ingredients:** | Cacao butter, Cacao powder, Cacao Butter (a proposed Higher Altitude Manufacturing Product), Milk powder, Powdered sugar, Sea salt, Mixed nuts, Cookie crumbs and a variety of dried fruits. Actual nuts, cookie crumbs and/or dried fruits used in production will be clearly identified on the final product label. Higher Altitude Manufacturing may also use one or more of the following preservatives: sorbitol, potassium sorbate, citric acid, malic acid, lecithin, arabic gum, modified food starch, butylated hydroxyanisole (BHA), maltodextrin, and invertase. |
| **Standard Production Procedure and Detailed Manufacturing Process:** | Double boil cacao butter until melted, sift in cacao powder and milk powder and stir until blended, add Cacao Butter, vanilla and cookie crumbs, mixed nuts, dried fruit, etc; then pour into chocolate bar molds to solidify. Remove from molds, package and store until receipt of testing results. |
| **Depiction:** Provide a photograph, drawing, or graphic representation of the expected appearance of the final product. | Chocolate Bar will have a lines of demarcation to indicate each single serving.  |
