Alaska Marijuana Control Board

Form MJ-16: Proposed New Marijuana Product

What is this form?

This proposed new marijuana product form is required for a marijuana product manufacturing facility licensee who is seeking Marijuana Control Board (MCB) approval of a new marijuana product or marijuana concentrate for production at its licensed premises, as required under 3 AAC 306.100 and 3 AAC 306.525. **The required $250 proposed new marijuana product fee may be made by check, cashier's check, or money order.**

This form must be completed and submitted to AMCO's main office prior to production of any new marijuana product or marijuana concentrate. **The proposed new marijuana product may not be produced unless and until the MCB has approved of the product.**

Please note that licensees seeking approval of more than one proposed new marijuana product or marijuana concentrate must submit a separate completed copy of this form and pay a separate fee for each proposed new marijuana product or marijuana concentrate.

Section 1 – Establishment Information

Enter information for the business seeking to be licensed, as identified on the license application.

Form MJ-16: Proposed New Marijuana Product

Section 3 – Proposed Product Details

Enter information for the marijuana product for which you are seeking MCB approval.

Product Description: Details must include the color, shape, and texture.	Various colors with shimmering food safe edible glitter, round on a stick, hard. The shape is round, flat, on a stick. Hard and smooth. Flavors will depend on the season. At present they would be pear, pomengranate, orange, pineapple, lemon, strawberry, lime, mango, tutti fruiti, grapefruit. We do not use food coloring but are using sparkle dust. Suckers are 4 inches long, circle is 1 ¼ inches in diameter, weighing roughly 0.50-0.63 oz.
Ingredients:	White sugar, Corn syrup, water, citric acid, various essential oils/flavoring, decarboxylated cannabis oil. We purchase our oil from different marijuana manufacturers through Metrc, which is the system the state of Alaska uses. All ingredients are on our label of ingredients.
Standard Production Procedure and Detailed Manufacturing Process:	Heat in heavy pan the sugar, corn syrup, water. Heat until sugars have dissolved. Get up to temp and pull off stovetop. Add THC extract. Add flavoring. Add citric acid stir. Pour into molds. Package in cellophane sucker wrappers and seal. We do not use food coloring but are using sparkle dust.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.

Section 4 – Proposed Product Packaging and Sample Label

Enter information for the packaging and labeling of the marijuana product for which you are seeking MCB approval.

Packaging Description: Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.

White, Blue, yellow Mylar bag. Inside, each sucker wrapped individually in cellophane. 10mg per sucker. Two sucker per bag. Total THC 20mg.

Suckers are 4 inches long, circle is 1 ¼ inches in diameter. Dimensions of mylar bag are on 6 inches long, 3 ½ inches wide.
They heat sealed and have a resealable zip lock.
We place a sticker on every package with Best by date, tested by, lot number, batch number. We send all the test results to the retailer per regulations. Customers can have a copy of the test results if wanted.

Sample Labels: Provide sample labels showing how the labeling requirements set forth in 3 AAC 306.570 will be met.
