Section 6 – Proposed Marijuana Concentrates and Marijuana Products

Review the requirements under 3 AAC 306.520, 3 AAC 306.525, and 3 AAC 306.560.

Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	Rosin/SHO (solvent-less hash oil)		
Product Type: Choose one.	Marijuana Concentrate		
Perishable: Yes/No	No	**Shelf Life:** If perishable.	
Intended Use: Smokable/ edible/topical/wholesale/etc.	Smokeable		

Product Description: Details must include the color, shape, and texture.	Rosin ranges in color from white, to gold, to even dark brown, and can be translucent, sappy, and even waxy. Rosin is usually sticky, and soft, but can also have a "shatter" like texture as well. Rosin takes the shape of its container.
Ingredients:	
Standard Production Procedure and Detailed Manufacturing Process:	Dried marijuana flower, trim, or dry sift are packed into filter bags, loaded into parchment paper envelope, and pressed between heated plates for a specific time based on material and desired finished product. Rosin is collected off parchment paper, and either packaged as is, or put into a sealed jar, and placed in oven to separate terpenes. Rosin used for cartridges must first be decarboxylated before being loaded into cartridges.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.	

Section 7 – Proposed Product Packaging and Sample Labels

Review the requirements under 3 AAC 306.520, 3 AAC 306.565, and 3 AAC 306.570.

Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.
