Review the requirements under 3 AAC 306.520, 3 AAC 306.525, and 3 AAC 306.560.

Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	Live Sauce		
Product Type: Choose one.	Marijuana Concentrate		
Perishable: Yes/No	No	**Shelf Life:** If perishable.	
Intended Use: Smokable/ edible/topical/wholesale/etc.	Smokeable		

Product Description: Details must include the color, shape, and texture.	Live sauce ranges in color from light blonde, gold to slightly amber. It's texture is similar to wet/oily sand or apple sauce. Live sauce is takes the shape of its container.
Ingredients:	
Standard Production Procedure and Detailed Manufacturing Process:	Live marijuana flower that have been cleared of any fan leaves, and then flash frozen is loaded into a hydrocarbon close loop extractor. Solvent is then ran over frozen material and then recovered. The concentrate solution is then poured in jars and loaded into pressure vessel to allow terpene cannabinoid separation. Once desired consistency has been reached, live sauce is then placed in vacuum oven and purged of any residual solvents. Live sauce for cartridges must first be decarboxylated before being loaded into cartridge.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.
