Section 6 – Proposed Marijuana Concentrates and Marijuana Products

Review the requirements under 3 AAC 306.520, 3 AAC 306.525, and 3 AAC 306.560.

Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	Live terps (HTE)		
Product Type: Choose one.	Other Marijuana Product		
Perishable: Yes/No	No	**Shelf Life:** If perishable.	
Intended Use: Smokable/ edible/topical/wholesale/etc.	Smokeable		

Product Description: Details must include the color, shape, and texture.	Live terps range in color from water clear, to a dark amber color, and can be watery or syrupy in texture depending on starting material and manufacturing practices. Live terps take the shape of its container.
Ingredients:	
Standard Production Procedure and Detailed Manufacturing Process:	Live marijuana flower/plants are cleared of any fan leaves and are flash frozen before being ran through a hydrocarbon closed loop extractor, solvent is then ran and recovered. The concentrate solution is transferred to jar and placed into pressure vessel until desired separation is complete. The liquid/syrup portion of the extract will be poured off, and placed in vacuum oven until residual solvents have been completely purged.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.	

Section 7 – Proposed Product Packaging and Sample Labels

Review the requirements under 3 AAC 306.520, 3 AAC 306.565, and 3 AAC 306.570.

Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.
