MEMORANDUM

TO: Chair and Members of the Board

DATE: May 29, 2020

FROM: Glen Klinkhart, Interim Director
Marijuana Control Board

RE: Petrichor LLC #18493

Petrichor LLC, a marijuana product manufacturing facility, is requesting approval of amendment(s) to three of its products. Attached is MJ-15 Operating Plan Change application, and current approved products. This MJ-15 was not temporarily approved.

Question for the board: For the Sol Infused Water and the Psychonaught Infused Energy products, as part of the change request, the licensee is proposing an additional 2-ounce bottle option, with ten 0.2-ounce servings of 5 mg THC, for a total of 50mg THC. Does the board find this appropriate, considering the small bottle option and serving sizes?
