MEMORANDUM

TO: Chair and Members of the Board

DATE: October 12, 2020

FROM: Jane P. Sawyer,
Regulations Specialist

RE: Denali Herb Company
License 14706

Denali Herb Company, a limited marijuana cultivation facility, is requesting approval of their updated MJ-01 and MJ-04. The licensee is adding the unit next to them to their operation.

The updated MJ-01 and MJ-04 were reviewed and they seem to be in line with what the board approved for them before and in general. Enforcement has done an inspection that includes the additional unit. The approved MJ-14 is attached here in case is needed as reference.

Licensee will abide by the DEC's pesticides list. Licensee is responsible for the chemicals used on the plant. Temporary was approved of the MJ-15 was approved.

Additional comments: an application, by the same individual, with license number 14707 which is for the unit that was added to this operation (14706) has been in "Tabled" status for a while. I have informed the licensee that now that this unit is part of the licensed premises of 14706, they need to withdraw/rescind the application 14707. When and if they wish to apply at a different location, they will need to submit a new application and go through that process.
