Alaska Marijuana Control Board

Form MJ-16: Proposed New Marijuana Product

What is this form?

This proposed new marijuana product form is required for a marijuana product manufacturing facility licensee who is seeking Marijuana Control Board (MCB) approval of a new marijuana product or marijuana concentrate for production at its licensed premises, as required under 3 AAC 306.100 and 3 AAC 306.525. **The required $250 proposed new marijuana product fee may be made by check, cashier's check, or money order.**

This form must be completed and submitted to AMCO's main office prior to production of any new marijuana product or marijuana concentrate. **The proposed new marijuana product may not be produced unless and until the MCB has approved of the product.**

Please note that licensees seeking approval of more than one proposed new marijuana product or marijuana concentrate must submit a separate completed copy of this form and pay a separate fee for each proposed new marijuana product or marijuana concentrate.

Section 1 – Establishment Information

Enter information for the business seeking to be licensed, as identified on the license application.

Licensee:	Cold Creek Extracts LLC	**MJ License #:**		15594	
License Type:	Marijuana Product Manufacturing Facility				
Doing Business As:	Cold Creek Extracts				
Premises Address:	7801 Schoon St., Unit L & M				
City:	Anchorage	**State:**	Alaska	**ZIP:**	99518

Section 2 – Proposed Marijuana Concentrate or Marijuana Product

Enter information for the marijuana concentrate or the marijuana product for which you are seeking MCB approval.

Intended Use: Smokable/ edible/topical/wholesale/etc.	Edible		

Received by AMCO 5.13.22

Form MJ-16: Proposed New Marijuana Product

Section 3 – Proposed Product Details

Enter information for the marijuana product for which you are seeking MCB approval.

Product Description: Details must include the color, shape, and texture.	This product is a sealed small cylindrical plastic straw containing Alaska honey infused with marijuana concentrate. The straw will be translucent or opaque, depending on product availability. Within the straw will be a viscous substance that is golden in color.
Ingredients:	Marijuana concentrate, Alaska honey, Alaska Hemp Program-approved hemp concentrate (for CBD/CBG:THC version only). Terpenes may also be added. The marijuana concentrate used will be one produced by Cold Creek Extracts, such as Full Extract Ethanol Hash Oil, Shatter, Sugar Wax, or Distillate. Concentrates produced by other manufacturers may also be used, depending on supply.
Standard Production Procedure and Detailed Manufacturing Process:	Marijuana concentrate will be infused into honey. Terpenes and Alaska Hemp Program approved hemp concentrate (if applicable) may be added at this stage. The resulting mixture will be homogenized and inserted into individual straws for packaging.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.

Alaska Marijuana Control Board

Form MJ-16: Proposed New Marijuana Product

Section 4 – Proposed Product Packaging and Sample Label

Enter information for the packaging and labeling of the marijuana product for which you are seeking MCB approval.

Packaging Description:
Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.

Honey Stix will be sold individually in one-stick 5-10mg THC servings, or in packages of up to ten (10) 5-10mg THC servings (total THC of 50-100mg). Individual straws will be opaque or translucent and heat-sealed in a child resistant manner. Multiple servings of Honey Stix may be packaged by bundling them together or contained in an opaque or half-opaque child-resistant mylar bag. Labels will be attached directly to individual straws, to bundles of straws, or to bags and labels will reflect the number of servings per package and amount of THC in each package.
