Alaska Marijuana Control Board

Form MJ-16: Proposed New Marijuana Product

What is this form?

This proposed new marijuana product form is required for a marijuana product manufacturing facility licensee who is seeking Marijuana Control Board (MCB) approval of a new marijuana product or marijuana concentrate for production at its licensed premises, as required under 3 AAC 306.100 and 3 AAC 306.525. **The required $250 proposed new marijuana product fee may be made by check, cashier's check, or money order.**

This form must be completed and submitted to AMCO's main office prior to production of any new marijuana product or marijuana concentrate. **The proposed new marijuana product may not be produced unless and until the MCB has approved of the product.**

Please note that licensees seeking approval of more than one proposed new marijuana product or marijuana concentrate must submit a separate completed copy of this form and pay a separate fee for each proposed new marijuana product or marijuana concentrate.

Section 1 – Establishment Information

Enter information for the business seeking to be licensed, as identified on the license application.

Licensee:	Cold Creek Extracts LLC	**MJ License #:**		15594

Received by AMCO 5.13.22

Form MJ-16: Proposed New Marijuana Product

Section 3 – Proposed Product Details

Enter information for the marijuana product for which you are seeking MCB approval.

Product Description: Details must include the color, shape, and texture.	Product will be in a clear capsule containing a oil that will appear light gold-dark amber, or light green.
Ingredients:	MCT oil (medium chain triglyceride oil, derived from coconut oil), marijuana concentrate, (optional) naturally-derived terpenes, Alaska Hemp Program approved-hemp concentrate (for CBD/CBG:THC version only) (The marijuana concentrate used will be one produced by licensee, such as Full Extract Ethanol Hash Oil, Shatter, Sugar Wax, or Distillate. Concentrates produced by other manufacturers may also be used, depending on supply.)
Standard Production Procedure and Detailed Manufacturing Process:	Marijuana concentrate will be measured out to achieve, 1mg, 2mg, 3mg, 4mg, 5mg, 6mg, 7mg, 8mg, 9mg, or 10mg THC per capsule, with no more than 10 mg THC per capsule. MCT oil, marijuana concentrate, and naturally derived terpenes (if desired), and Alaska Hemp Program-approved hemp concentrate (if applicable) are mixed to a homogenized consistency. Once homogenized sufficiently, the mixture will then be dispersed into size "00" capsules containing 0.9ml of mixture and sent to the testing lab per 3 AAC 306.560.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.	Photo of product
