I talked with Joe over at the hemp licensing and we won't be required to have a license as the product is already endorsed in Alaska. This is what he wrote.

Hi Kyle,

A Registered Retailer is authorized to add, mix, or incorporate a processed industrial hemp product intended for human or animal consumption into a non-hemp product. The hemp products offered for sale must carry a valid endorsement. Since you are purchasing an already endorsed isolate and distillate from NuLyfe Labs, use their Endorsement Approval and registration number. We will need to know the physical location where you intend to mix the products. Please include a physical address or GPS points.

Good Morning Kyle:

During board prep/audit, it was discovered that your retailer registration with the industrial hemp program is no longer listed as an active registrant. See below for the active registrant list.

http://plants.alaska.gov/hemp/pdf/resources/Alaska_Industrial_Hemp_Registrant_List.htm

I need verification of active retailer registration from the Alaska Industrial hemp program for your agenda tab.

Please sent me a new one **no later than 03/17/2021 at 4pm**, or I will not be able to update your portfolio for MCB, and they may delegate, deny or table your application based on you not being an active registrant.

If you have any questions, feel free to email or call.

Thanks,
