Section 6 – Proposed Marijuana Concentrates and Marijuana Products

Review the requirements under 3 AAC 306.520, 3 AAC 306.525, and 3 AAC 306.560.
Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	Budder		
Product Type:	Marijuana Concentrate (Smokable/Wholesale/In-house)		
Perishable: Yes/No	No	**Shelf Life:** If perishable.	

Product Description: Details must include the color, shape, and texture.	The texture of budder is similar to sand, soft and crumbles when touched. The color of budder varies from a golden amber to brown.
Ingredients: This box is not applicable to marijuana concentrates.	N/A
Standard Production Procedure and Detailed Manufacturing Process:	Budder is created using a closed loop extraction machine and various post processing equipment with specific parameters set for budder. Ground marijuana material is loaded manually into a stainless steel vessel and pressurized solvent is passed through material to remove the cannabinoids, terpenes, plant waxes, and other volatile organic compounds. The output from extraction will need different post processing if any depending on the solvent used. Actual solvent used will be indicated on the final product label. See attached for additional production procedures and solvents used.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.

Section 7 – Proposed Product Packaging and Sample Labels

Review the requirements under 3 AAC 306.520, 3 AAC 306.565, and 3 AAC 306.570.
Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	Budder
Product Type:	Marijuana Concentrate (Smokable/Wholesale/In-house)
Packaging Description: Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.	Up to 7grams of budder will be packaged into non-stick, silicone, acrylic, plastic or glass containers with a lid. The small container will then be packaged into a mylar bag, box, or blister package. The product's complete packaging will be resealable and child-resistant. Retail stores will ensure purchases are in opaque exit bags. The total THC content will range from 20-99% with the actual THC content and solvent use will be listed on the label per the testing results. For wholesale sales and in-house use, up to 5 pounds of Budder will be stored in sanitized food-grade containers with their respective labels and test results.
Sample Labels: Provide sample labels showing how the labeling requirements set forth in 3 AAC 306.570 will be met.	**License Number:** 15790 **Batch/Lot Number:** 000BA8675 **Net MJ Weight:** 0.5 gm **Tested By:** ABC Testing **License Number:** XXXXX **Budder** **Strain:** Mint **Retailer:** Scorpion Grass **License Number:** 15788 **Total THC:** XX% **CBD:** XX% **CBN:** XX% **THCA:** XX% **CBDA:** XX% METRC #: 3688750000364511 15AB **Microbial Test:** **Pesticides:** **Herbicides:** **Fungicides:** **Residual Solvent Test:** **Contaminants Test Result:** **Alaska Safety Warning:** *Marijuana has intoxicating effects and may be habit forming and addictive. Marijuana impairs concentration, coordination and judgment. Do not operate a vehicle or machinery under its influence. There are health risks associated with consumption of marijuana. For use only by adults twenty-one and older. Keep out of the reach of children. Marijuana should not be used by women who are pregnant or breast feeding.* ***Keep Refrigerated for quality***
