Section 6 – Proposed Marijuana Concentrates and Marijuana Products

Review the requirements under 3 AAC 306.520, 3 AAC 306.525, and 3 AAC 306.560.
Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	Bubble Hash		
Product Type:	Marijuana Concentrate (Smokable/Wholesale/In-House)		
Perishable: Yes/No	No	**Shelf Life:** If perishable.	

Product Description: Details must include the color, shape, and texture.	Bubble hash ranges between granular and crumbly to waxy and sticky and is light yellowish to light brown in color. Bubble hash is soft and pliable.
Ingredients: This box is not applicable to marijuana concentrates.	N/A
Standard Production Procedure and Detailed Manufacturing Process:	Bubble Hash is made using either water and ice or dry ice. The production method is the same for both with the only difference being the water/ice or dry ice. Marijuana plant matter is placed into a bucket lined with cloth sieves. The bucket is then filled with ice water, and the mixture is manually agitated. Once the ice melts, the sieves are removed sequentially, leaving concentrate of different consistency in each screen. The left over marijuana plant matter is disposed of and the concentrates can be heated in an oven to remove residual moisture, the stored in a freezer.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.

Section 7 – Proposed Product Packaging and Sample Labels

Review the requirements under 3 AAC 306.520, 3 AAC 306.565, and 3 AAC 306.570.
Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	Bubble Hash
Product Type:	Marijuana Concentrate (Smokable/Wholesale/In-House)

Packaging Description:
Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.

Up to 7 grams of bubble hash will be packaged into non-stick, silicone, acrylic, plastic or glass containers with a lid. The small container will then be packaged into a mylar bag, box, or blister package.
The product's complete packaging will be resealable and child-resistant, retail stores will ensure purchases are in opaque exit bags. The total THC content will range from 20-99% with the actual THC content will be listed on the label per the testing results.
Bubble Hash may also be stored in sanitized containers up to five (5) pounds for wholesale sales and in-house use with their respective labels containing test results.

Sample Labels:
Provide sample labels showing how the labeling requirements set forth in 3 AAC 306.570 will be met.
