Alaska Marijuana Control Board

Form MJ-16: Proposed New Marijuana Product

What is this form?

This proposed new marijuana product form is required for a marijuana product manufacturing facility licensee who is seeking Marijuana Control Board (MCB) approval of a new marijuana product or marijuana concentrate for production at its licensed premises, as required under 3 AAC 306.100 and 3 AAC 306.525. **The required $250 proposed new marijuana product fee may be made by check, cashier's check, or money order.**

This form must be completed and submitted to AMCO's main office prior to production of any new marijuana product or marijuana concentrate. **The proposed new marijuana product may not be produced unless and until the MCB has approved of the product.**

Please note that licensees seeking approval of more than one proposed new marijuana product or marijuana concentrate must submit a separate completed copy of this form and pay a separate fee for each proposed new marijuana product or marijuana concentrate.

Section 1 – Establishment Information

Enter information for the business seeking to be licensed, as identified on the license application.

Licensee:	Cold Creek Extracts LLC	**MJ License #:**		15594

Section 3 – Proposed Product Details

Enter information for the marijuana product for which you are seeking MCB approval.

Product Description: Details must include the color, shape, and texture.	Mike Bites will be a soft, chewy, jelly candy, approximately 1" x 1" in size. The candy will be reddish color, varying from a deep red to a dull red (depending on production variables), with a coating of sugar, and offered in multiple flavors, including sour apple, watermelon, and black raspberry. The candy will be in the shape of a human ear with a chunk missing from the helix area, as if it were bitten off.
Ingredients:	Marijuana concentrate, water, fruit pectin, natural flavoring, corn syrup, citric acid, baking soda, sugar, non-stick cooking spray.
Standard Production Procedure and Detailed Manufacturing Process:	Combine and heat sugar, corn syrup, and marijuana concentrate. Reduce heat when desired temperature is met and homogenize. Let resulting mixture cool and combine with mixture of water, citric acid, baking soda, fruit pectin, and natural flavoring. Reheat new mixture for desired time. Remove from heat and spread mixture into molds. Let candies sit in molds until desired consistency is reached. Remove candies from molds and roll in sugar. Allow candies to dry for desired time prior to testing and packaging.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.

Section 4 – Proposed Product Packaging and Sample Label

Enter information for the packaging and labeling of the marijuana product for which you are seeking MCB approval.

Packaging Description: Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.	Each piece of candy will contain no more than 5-10mg of THC per candy. One (1) candyis a single serving. Candies will be packaged for sale in opaque child-resistant packaging, such as mylar bags, child-resistant boxes, or child-resistant canisters. Candies will be sold in packages containing between 1-10 pieces (5-100 mg THC per package), with no more than 100 mg THC per package.
Sample Labels: Provide sample labels showing how the labeling requirements set forth in 3 AAC 306.570 will be met.	
As a marijuana establishment licensee, I declare under penalty of unsworn falsification that this form, including all accompanying schedules and statements, is true, correct, and complete.
