Alaska Marijuana Control Board

Form MJ-16: Proposed New Marijuana Product

What is this form?

This proposed new marijuana product form is required for a marijuana product manufacturing facility licensee who is seeking Marijuana Control Board (MCB) approval of a new marijuana product or marijuana concentrate for production at its licensed premises, as required under 3 AAC 306.100 and 3 AAC 306.525. **The required $250 proposed new marijuana product fee may be made by check, cashier's check, or money order.**

This form must be completed and submitted to AMCO's main office prior to production of any new marijuana product or marijuana concentrate. **The proposed new marijuana product may not be produced unless and until the MCB has approved of the product.**

Please note that licensees seeking approval of more than one proposed new marijuana product or marijuana concentrate must submit a separate completed copy of this form and pay a separate fee for each proposed new marijuana product or marijuana concentrate.

Section 1 – Establishment Information

Enter information for the business seeking to be licensed, as identified on the license application.

Licensee:	L & J Ventures, Inc.	**MJ License #:**		15790

Received by AMCO 1.27.22

Form MJ-16: Proposed New Marijuana Product

Section 3 – Proposed Product Details

Enter information for the marijuana product for which you are seeking MCB approval.

Product Description: Details must include the color, shape, and texture.	Duo-Dabs is a packaged unit containing two different concentrates. A container with a separation wall will be loaded with an approved Scorpion Grass concentrate on each side. The color and texture of the concentrate will be dependent on the concentrate used and will align with the description of the approved product being used.
Ingredients:	N/A
Standard Production Procedure and Detailed Manufacturing Process:	Equal measured amounts of two different Scorpion Grass approved concentrates will be packaged into a container with two separate reservoirs. Concentrates used and individual testing results will clearly indicate the options being packaged.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.

Section 4 – Proposed Product Packaging and Sample Label

Enter information for the packaging and labeling of the marijuana product for which you are seeking MCB approval.

Packaging Description: Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.	Up to 7 grams of concentrate total (up to 3.5g of each selected concentrate) will be packaged into glass container with a wall separating the concentrates. The container will then be packaged into a mylar bag, box, plastic container, or blister package. The product's complete packaging will be resealable, and child resistant. Retail stores will ensure all purchases are in opaque exit bags. The total THC content will of each selected concentrate will range from 35-99% with the actual THC content of each separate concentrate listed on the label per the testing results.
Sample Labels: Provide sample labels showing how the labeling requirements set forth in 3 AAC 306.570 will be met.	Keep refrigerated to preserve quality Duo Dabs Strain: Wedding Pie Extract: Rosin METRC#: 1A4XXXXXXXXXXXXXXXXXXXXX1234 Production Lot: WedPieROS001 Weight: 0.5g Tested By: ABC Testing Microbial, Residual Solvent, Contaminate Testing: Passed I Total Cannabinoids: XX % Total THC: XX% Total CBD: XX% Total Terpenes: XX% SCORPION GRASS Total Cannabinoids: XX % Total THC: XX% Total CBD: XX% Total Terpenes: XX% Strain: Papaya Cake Extract: CO2 extract METRC#: 1A4XXXXXXXXXXXXXXXXXXXXXX1234 Production Lot: PapcakeCE001 Weight: 0.5g Tested By: ABC Testing Microbial, Residual Solvent, Contaminate Testing: Passed S Marijuana has intoxicating effects and may be habit forming and addictive.
