Section 6 – Proposed Marijuana Concentrates and Marijuana Products

Review the requirements under 3 AAC 306.520, 3 AAC 306.525, and 3 AAC 306.560.
Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	Moose Milk		
Product Type: Choose one.	Other Marijuana Product		
Perishable: Yes/No	Yes	**Shelf Life:** If perishable.	6 weeks
Intended Use: Smokable/ edible/topical/wholesale/etc.	Edible		

Product Description: Details must include the color, shape, and texture.	This is a nut-based milk (liquid). Moose Milk will come in several flavor varieties made with nuts: plain, vanilla, cinnamon, almond, chocolate, golden, coffee, and chai. Moose Milk will come in Dairy and Non-Dairy options (Dairy or Non-dairy will be clearly indicated on the final product label).
Ingredients:	Non-dairy - Almonds, hemp seeds, oats, cashews, vanilla extract (vanilla beans, water, alcohol), cane sugar, cinnamon, organic cacao, Enlighten Drops (an approved Enlighten Extracts product), turmeric, black pepper, cayenne, maca powder, almond oil, chai spice, monkfruit powder, cold brew coffee, stevia. Dairy- Whole milk, Enlighten Drops, flavor addition (cane sugar, cacao powder, cinnamon, heavy cream, eggs, strawberry powder, flavor oil (mint, strawberry, almond, turmeric, black pepper, chai spice), organic bourbon flavor powder, cold brew coffee.
Standard Production Procedure and Detailed Manufacturing Process:	Soak nuts overnight; grind nuts and strain to make milk. Mix with desired flavorings (almond extract, vanilla, cinnamon etc.). Measure Enlighten Drops based on potency of infusion; stir into mixture, mixing thoroughly to evenly distribute THC. Heat liquid to 160F for 15 seconds to pasteurize. Pour infused milk into heated bottles; Quarantine and label batch for testing and sale.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.

Section 7 – Proposed Product Packaging and Sample Labels

Review the requirements under 3 AAC 306.520, 3 AAC 306.565, and 3 AAC 306.570.
Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	Moose Milk
Product Type:	Edible

Packaging Description: Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.	Moose Milk will come in two sizes: 40 mg THC (8oz) and 10mg THC (2oz). A 2 oz bottle will be used to package 10 mg THC Moose Milk. Each bottle will hold 2 - 1oz, 5mg THC single servings. One serving = 1 oz = 5 mg THC One package = 2 servings = 10 mg of THC An 8 oz bottle will be used to package 40 mg THC Moose Milk. Each bottle will hold eight 1oz, 5 mg THC single servings. One serving = 5 mg THC One package = 8 servings = 40mg THC THC limits will increase to 10 mg per single serving with the 8 oz bottle totaling 80 mg THC and the 2 oz bottle totaling 20 mg with the approval of the AMCO edible limit regulation change. All bottles will have a child resistant resealable cap sealed with a tamper-proof heat shrink band. There will be a visual inspection gap in the label for measuring servings, with lines of demarcation denoting 1oz serving sizes. * or similar. Lines of demarcation are for illustration purposes only and do not reflect actual serving sizes.
Sample Labels: Provide sample labels showing how the labeling requirements set forth in 3 AAC 306.570 will be met.	See attached sample labels that will be affixed to the packaging bottles.

Section 6 – Proposed Marijuana Concentrates and Marijuana Products

Review the requirements under 3 AAC 306.520, 3 AAC 306.525, and 3 AAC 306.560.

Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	Enlighten Drops		
Product Type: Choose one.	Other Marijuana Product		
Perishable: Yes/No	Yes	**Shelf Life:** If perishable.	1 Year
Intended Use: Smokable/ edible/topical/wholesale/etc.	Edible/wholesale		

Product Description: Details must include the color, shape, and texture.	The product appears as golden amber to yellow and is transparent by nature. The oily liquid takes on the shape of the container. Tincture will come in a variety of strains with differing THC and CBD ratios.
Ingredients:	Macadamia nut oil, olive oil, or MCT(medium-chain triglyceride), natural flavors (essential oil/ flavor extract depending on flavor, see attached supplemental page for full list of proposed flavors), lecithin, cannabis concentrate (shall either be canna butter, canna coconut oil, canna-liquid, shatter, distillate, crumble, budder, kief, tincture, or sauce). Actual flavor and cannabis concentrate used in production will be clearly indicated on final product label.
Standard Production Procedure and Detailed Manufacturing Process:	Cannabis concentrate and flavoring will be added to carrier oil until desired potency is achieved and will be mixed until homogeneous. The mixture will then be loaded into 15ml dropper bottles or packaged in sanitized food grade jars for use in-house to make Enlighten Extracts products. The final product, Enlighten Drops, will be packaged and placed into storage until testing and sale.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.	*photograph depicts color variations and does not reflect packaging

Product Name:	Enlighten Drops
Product Type:	Edible/wholesale
Packaging Description: Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.	Enlighten Drops will be loaded into 15ml bottles with a 1.5 ml dropper with a child resistant pipette topper totaling 10 servings with each serving of 5 mg of THC depending on batch potency. The measured dropper will be used to orally consume desired dosage. One and a half droppers (1.5 ml) equals one serving (5 mg THC). Serving potency will be clearly indicated on label. Each package is not to exceed 50mg of THC in total. THC limits will increase to 10 mg (1.5 ml) of THC per single serving with the approval of the AMCO edible limit regulation change. Enlighten Drops will also be packaged up to 5 pounds, in sanitized food grade jars for use in-house to produce other products. Each container will be marked with the name of the product, METRC package number, date, test lab, lab license number, strain and test results.
Sample Labels: Provide sample labels showing how the labeling requirements set forth in 3 AAC 306.570 will be met. Section 6 – Proposed Marijuana Concentrates and Marijuana Products

Review the requirements under 3 AAC 306.520, 3 AAC 306.525, and 3 AAC 306.560.

Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	Co2 Oil		
Product Type: Choose one.	Marijuana Concentrate		
Perishable: Yes/No	No	**Shelf Life:** If perishable.	
Intended Use: Smokable/ edible/topical/wholesale/etc.	Smokable		

Product Description: Details must include the color, shape, and texture.	Co2 extracted cannabis oil will fill a vape pen cartridge or be stored in a mason jar (or similar) for in-house use to make other Enlighten Extracts products). The color will range from a light gold to dark amber. The liquid will be viscous and sticky to the touch.
Ingredients:	
Standard Production Procedure and Detailed Manufacturing Process:	Cannabis concentrate will be extracted from flower or trim using a closed-loop machine with the use Co2. Depending on the fat/lipid content of extracted oil, the solution will be further purified through the process of winterization. To remove any residual solvent from the product the solution will purged with the use of a vacuum oven and/or roto-evaporator. The Co2 oil is then loaded into cartridges or stored in mason jars for use in production of Enlighten Extracts products), properly packaged and stored until testing and sale.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.
