Alaska Marijuana Control Board

Operating Plan Supplemental

Form MJ-05: Marijuana Product Manufacturing Facility

What is this form?

This operating plan supplemental form is required for all applicants seeking a marijuana product manufacturing facility license and must accompany **Form MJ-01: Marijuana Establishment Operating Plan**, per 3 AAC 306.020(b)(11). Applicants should review **Chapter 306: Article 5** of the **Alaska Administrative Code.** This form will be used to document how an applicant intends to meet the requirements of the statutes and regulations.

If your business has a formal operating plan, you may include a copy of that operating plan with your application, but all fields of this form must still be completed per 3 AAC 306.020 and 3 AAC 306.520(3).

What additional information is required for cultivation facilities?

Applicants must identify how the proposed establishment will comply with applicable regulations regarding the following:

- Equipment, compounds, and processes to be used
- Waste disposal
- Testing procedure and protocols
- Proposed marijuana concentrates and marijuana products
- Proposed product packaging and sample labels
- Prohibitions

This form must be completed and submitted to AMCO's main office before any new or transfer application for a marijuana product manufacturing facility or marijuana concentrate manufacturing facility license will be considered complete.

Section 1 – Establishment Information

Enter information for the business seeking to be licensed, as identified on the license application.

Licensee:	Baked Alaska LLC	**MJ License #:**		15800	
License Type:	Marijuana Product Manufacturing Facility				
Doing Business As:	Baked Alaska LLC				
Premises Address:	2745 Hanson Road, Unit B				
City:	Fairbanks	**State:**	Alaska	**ZIP:**	99709

AMCO received 10/4/2022

Section 2 – Overview of Operations

2.1. Provide an overview of your proposed facility's operations. Include information regarding the intake, flow, and transfer of marijuana, marijuana concentrate, and marijuana product at and from your premises:

All shipments of marijuana and marijuana product that arrives at Baked Alaska LLC will be first inspected by a licensee or designated employee before being accepted and entered as inventory. The shipment contents will be reconciled with the transport manifest, shipment labels and packaging labels to ensure consistency. All product will be weighed by Baked Alaska LLC and reconciled with the weight listed on the manifest and labels. Any shipments with discrepancies will be rejected. Shipments that pass initial inspection will be accepted into the facility, immediately entered into METRC and added to the inventory log. All marijuana and marijuana products will be tracked in METRC from intake into the facility, to its use in manufactured product or disposal to its transfer to or from another licensed facility. At the end of each business day, Baked Alaska LLC will reconcile each transfer to or from another licensed facility with METRC and the inventory on hand to ensure consistency and to resolve discrepancies immediatley. A random sample of each product manufactured at the facility will be sent to a licensed testing lab before being transferred to another licensed facility and the remainder of the production lot will be segregated from all other product until the testing results are received. Once passing testing results are received from the testing lab, marijuana products will be packaged and labeled in compliance with AMCO regulations. The packaged products will then be transported by a licensee or employee of Baked Alaska LLC who holds a valid marijuana handler permit or by a third party transport company with valid marijuana handler permits. All transfers will be entered into METRC and a trip manifest will be sent with each shipment as well as stored on site as a business record.

Section 3 – Equipment and Compounds to be Used

Review the requirements under 3 AAC 306.555.

3.1. Describe the equipment and solvents, gases, chemicals, and other compounds the marijuana product manufacturing facility will use to create marijuana concentrates:

Baked Alaska does not use any solvents, gases, chemicals or any other compounds in their facility.
Baked Alaska's equipment consists of a sous-vide water circulators, a commercial mixer and an oven.

AMCO received 10/4/2022

Section 4 – Waste Disposal

Review the requirements under 3 AAC 306.740.

You must be able to certify the statement below. Read the following and then sign your initials in the box to the right: Initials

4.1. The marijuana product manufacturing facility shall give the board at least three days written notice required under 3 AAC 306.740(c) before making marijuana waste unusable and disposing of it.

4.2. Describe how you will store, manage, and dispose of any solid or liquid marijuana waste, including expired or outdated marijuana or marijuana product, in compliance with any applicable laws. Include details about the material(s) you will mix with ground marijuana waste and the processes that you will use to make the marijuana waste unusable for any purpose for which it was grown or produced:

Any marijuana product that does not meet state testing requirements or the company's quality standards will be disposed of in a way that meets the State and local regulations. Baked Alaska LLC will give the board notice via email, on a form prescribed by the board, and recorded in Metrc, not later than three days before rendering the waste unusable. Marijuana liquid waste will be stored in a grey water tank and rendered unusable by the mixture of at least 50% of other non-marijuana liquid waste including dish soap water, and other food liquid waste that happens in normal daily operations. Once rendered unusable, the liquid waste will be pumped out to be disposed of by a septic system company. Marijuana plant waste will be kept in a separate locked container inside the facility. Any other materials or containers in contact with marijuana product that risks contamination will be stored in the same locked container within the facility, ground up, rendered unusable and delivered to the FNSB landfill. Baked Alaska LLC understands that all marijuana plant waste materials will be handled and disposed of in accordance with state regulations, 3 AAC 306.740. Marijuana waste will be logged into Metrc at least three days prior to making it unusable. Waste material generated by food-based marijuana concentrate production includes leaves and stems that have NOT been processed with solvent or hazardous chemicals will be made unusable by grinding the plant waste and mixing it with at least an equal amount of other compostable or non-compostable materials such as; food waste, paper, cardboard or plastic prior to secured delivery to the FNSB landfill. This will be done inside the proposed location in a secure area. We will contact the FNSB landfill prior to delivering the marijuana waste to confirm that the waste will be accepted at the facility and to determine if the facility has additional acceptance requirements for the marijuana waste.
All disposal will be logged and kept as an official business record.

AMCO received 10/4/2022

Section 5 – Testing Procedure and Protocols

Review the requirements under 3 AAC 306.520 and 3 AAC 306.550.

You must be able to certify the statement below. Read the following and then sign your initials in the box to the right: Initials

5.1. I will ensure that any individual responsible for collecting random samples for required laboratory testing under 3 AAC 306.550 will prepare the necessary accompanying signed statement, provide the signed statement to the marijuana testing facility, and maintain a copy as a business record under 3 AAC 306.755. KM

Answer "Yes" or "No" to the following question: Yes No

5.2. Will the marijuana product manufacturing facility be performing in-house testing (as defined under 3 AAC 306.990(b)(20)? ☑ ☐

If "Yes" to 5.2, you must be able to certify the statement below. Read the following and then sign your initials in the box: Initials

5.3. The area where in-house testing will occur is clearly identified on the Form MJ-02: Premises Diagram that is submitted with this application. KM

5.4. Describe the testing procedures and protocols the marijuana product manufacturing facility will follow:

Baked Alaska LLC's licensees or an employee will be responsible for collecting a random sample from each production lot to be sent to a licensed testing facility. The designated employee will sign a statement certifying that the sample was randomly selected. A copy of the signed statement will accompany the sample to the testing facility and another copy will be filed on-site as a business record. The sample will be transported to the testing facility by a Baked Alaska LLC licensee or employee who holds a valid marijuana handler permit or by a third party transport company who has valid marijuana handler permits. The remainder of the production lot will be segregated from all other marijuana and marijuana products in secure containers until the testing results are received. During the quarantine period, all product will be securely stored on-site and then Baked Alaska LLC will ensure the products are kept cool and dry to prevent contamination or loss of efficacy. A copy of the testing facility results will be stored in the office onsite as an official business record and will be made available to AMCO upon request.

Section 6 – Proposed Marijuana Concentrates and Marijuana Products

Review the requirements under 3 AAC 306.520, 3 AAC 306.525, and 3 AAC 306.560.

Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	Brownie Bites		
Product Type: Choose one.	Other Marijuana Product		
Perishable: Yes/No	Yes	**Shelf Life:** If perishable.	6-9 months
Intended Use: Smokable/ edible/topical/wholesale/etc.	edible		

Product Description: Details must include the color, shape, and texture.	2" x 2" round, dark brown (cocoa) brownie. Texture is cake-like, chewy, and dense.
Ingredients:	sugar, enriched bleached flour (wheat flour, niacin, reduced iron, thiamin mononitrate, riboflavin, folic acid), semi-sweet chocolate chips (sugar, unsweetened chocolate, cocoa butter, whole milk powder, soy lecithin, vanilla extract), cocoa, soy bean oil, bittersweet chocolate chips (unsweetened chocolate, sugar, cocoa butter, milk fat, soy lecithin, vanilla extract), milk chocolate chips (sugar, whole milk powder, unsweetened chocolate, cocoa butter, soy lecithin, vanilla extract), salt, eggs, baking soda, cannabis infused butter.
Standard Production Procedure and Detailed Manufacturing Process:	Ingredients are mixed to make batter. Cannabis infused ingredient measurements are recorded for accurate entry into METRC. Batter is divided into cupcake tins and baked off. Brownies are individually sealed in mylar bags for preservation. Total batch number is entered into METRC. Samples from the batch are submitted for testing. When test results are received, brownies are ready for sale to licensed retail facilities.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.	

Section 7 – Proposed Product Packaging and Sample Labels

Review the requirements under 3 AAC 306.520, 3 AAC 306.565, and 3 AAC 306.570.
Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	Brownie Bites
Product Type:	Edible

Packaging Description: Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.	Brownie Bites will be sold in 10 packs (100mg of THC per package). 1 brownie = 1 serving = 10mg of THC; 10 servings = 100mg THC (6 1/4"w x 7 1/4" h packaging) Brownie Bites will be packaged in opaque (black), child resistant, mylar, metalized zipper pouch bags providing a high barrier, with an airtight, resealable zip closure, and 6-9 month shelf life stability (per Clearbags). Bags are smell proof, food safe, and heat seal-able. Each bag will be labeled with Baked Alaska, LLC's business information and in compliance with 3AAC 306.565. Please see example below and attached:
Sample Labels: Provide sample labels showing how the labeling requirements set forth in 3 AAC 306.570 will be met.

Alaska Marijuana Control Board

Form MJ-16: Proposed New Marijuana Product

What is this form?

This proposed new marijuana product form is required for a marijuana product manufacturing facility licensee who is seeking Marijuana Control Board (MCB) approval of a new marijuana product or marijuana concentrate for production at its licensed premises, as required under 3 AAC 306.100 and 3 AAC 306.525. **The required $250 proposed new marijuana product fee may be made by check, cashier's check, or money order.**

This form must be completed and submitted to AMCO's main office prior to production of any new marijuana product or marijuana concentrate. **The proposed new marijuana product may not be produced unless and until the MCB has approved of the product.**

Please note that licensees seeking approval of more than one proposed new marijuana product or marijuana concentrate must submit a separate completed copy of this form and pay a separate fee for each proposed new marijuana product or marijuana concentrate.

Section 1 – Establishment Information

Enter information for the business seeking to be licensed, as identified on the license application.

Licensee:	Baked Alaska, LLC.	**MJ License #:**	5a-15800		
License Type:	Marijuana Product Manufacturing

EDIBLES 101

GO LOW & SLOW
If you are new to edibles, one serving is enough to feel the effects of marijuana—it may take 30 to 90 minutes. Be patient and don't eat more before you feel the full effect.

GET COMFORTABLE
Enjoy edibles in a safe environment.
Effects tend to last between 4 & 6+ hours.

BE SMART
Avoid mixing edibles with alcohol.
Don't consume on an empty stomach and DON'T drive.

LOCK IT UP
Keep out of reach of children & pets.

Brownie Joys

INGREDIENTS: sugar, enriched bleached flour (wheat flour, niacin, reduced iron, thiamin mononitrate, riboflavin, folic acid), semi-sweet chocolate chips (sugar, unsweetened chocolate, cocoa butter, whole milk powder, soy lecithin, vanilla extract), cocoa, soy bean oil, bittersweet chocolate chips (unsweetened chocolate, sugar, cocoa butter, milk fat, soy lecithin, vanilla extract), milk chocolate chips (sugar, whole milk powder, unsweetened chocolate, cocoa butter, soy lecithin, vanilla extract), salt, eggs, baking soda, cannabis infused coconut oil. CONTAINS: wheat, soy, eggs, and milk.

WARNING: Marijuana has intoxicating effects and may be habit forming and addictive. Marijuana impairs concentration, coordination, and judgement. Do not operate a vehicle or machinery under its influence. There are health risks associated with consumption of marijuana. For use only by adults twenty-one and older. Keep out of the reach of children. Marijuana should not be used by women who are pregnant or breast feeding.

Product Name:	Chocolate Chip Cookie		
Product Type: Choose one.	Other Marijuana Product		
Perishable: Yes/No	Yes	**Shelf Life:** If perishable.	6-9 months
Intended Use: Smokable/ edible/topical/wholesale/etc.	Edible		

Product Description: Details must include the color, shape, and texture.	Approximately 2" x 2" round and flat; medium to dark brown in color, with dark brown spots (chocolate chips); crispy exterior texture, with a softer (chewier) interior texture.
Ingredients:	Organic all-purpose flour (organic wheat flour, organic malted barley flour), sugar, eggs, chocolate chips (sugar, chocolate milk fat, cocoa butter, soy lecithin, natural flavors), vanilla extract (vanilla bean extractives in water, alcohol), salt, baking soda (sodium bicarbonate), cannabis-infused butter (pasteurized cream, natural flavorings, cannabis).
Standard Production Procedure and Detailed Manufacturing Process:	Calculate potency. Melt down frozen infused butter to liquefy. Let cool. Cream non-infused butter together with white sugar, and brown sugar. Add liquefied cannabis infused butter. Combine eggs and vanilla extract. Beat in eggs. Sift flour into separate container. Sift salt and baking soda into flour. Stir in flour mixture to make dough. Scoop 6 gram balls of dough, and add five mini chocolate chips to the top of dough ball. Space dough balls two inches apart on baking sheet. Bake at 300 degrees for 5 minutes, rotate, and bake another 5 minutes. Cool. Package. Seal. Raw Chocolate Chip cookie dough may also be packaged for sale to consumers to "take and bake" with baking directions , after dough balls are scooped, packages of 10 will be segregated in the freezer.

Form MJ-05: Marijuana Product Manufacturing Facility Operating Plan Supplemental

Section 6 – Proposed Marijuana Concentrates and Marijuana Products

Review the requirements under 3 AAC 306.520, 3 AAC 306.525, and 3 AAC 306.560.

Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	Salted Peanut Butter Cookies		
Product Type: Choose one.	Other Marijuana Product		
Perishable: Yes/No	Yes	**Shelf Life:** If perishable.	6-9 months
Intended Use: Smokable/ edible/topical/wholesale/etc.	Edible		

Product Description: Details must include the color, shape, and texture.	Approximately 2" x 2" round and flat; medium brown in color; crispy, flaky texture.
Ingredients:	Peanut Butter cookies (peanuts, sugar, molasses, rapeseed and soybean oils, mono and diclycerides, salt), brown sugar, eggs, vanilla extract (vanilla bean extract in water, alcohol), salt, cannabis infused butter (pasteurized cream, natural flavorings, cannabis).
Standard Production Procedure and Detailed Manufacturing Process:	Vigorously whisk brown sugar and eggs, whisk in vanilla extract, fold in peanut butter and infused butter with spatula until dough forms, scoop out 6g dough balls on cookie sheet, lightly salt with coarse sea salt, bake at 300 degrees for 3 minutes, rotate, bake another 3 minutes; 6 minutes total, let cool, pull samples, submit to testing, bag cookies, segregate until test results are received. Raw Salted Peanut Butter Cookie dough may also be packaged for sale to consumers to "take and bake" with baking directions , after dough balls are scooped, packages of 10 will be segregated in the freezer..
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.	

AMCO received 10/4/2022

Form MJ-05: Marijuana Product Manufacturing Facility Operating Plan Supplemental

Section 7 – Proposed Product Packaging and Sample Labels

Review the requirements under 3 AAC 306.520, 3 AAC 306.565, and 3 AAC 306.570.
Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	Salted Peanut Butter Cookies
Product Type:	Edible

Packaging Description: Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.	Products will be packaged in opaque (black), child resistant, mylar, metalized zipper pouch bags providing a high barrier, with an airtight, resealable zip closure, and 6-9 month shelf life stability (per Clearbags). Bags are smell proof, food safe, and heat seal-able. Each bag will be labeled with Baked Alaska, LLC's business information and in compliance with 3 AAC 306.565. 10 pack bag dimensions 6 1/4" wide x 7 1/4" high Package Options: 1 cookie = 1 serving = 10 m THC g 10 servings = 100 mg THC See attached packaging *Raw dough option packaging will clearly indicate that product must be refrigerated or frozen*
Sample Labels: Provide sample labels showing how the labeling requirements set forth in 3 AAC 306.570 will be met.	*See supplemental

Intended Use: Smokable/ edible/topical/wholesale/etc.	Edible		

Product Description: Details must include the color, shape, and texture.	Approximately 2" x 2" round and flat; medium brown in color; crispy, flaky texture.
Ingredients:	Organic all-purpose flour (organic wheat flour, organic malted barley flour), peanut butter (peanuts, sugar, molasses, rapeseed oil, soybean oil, monoglycerides, diglycerides, salt), sugar, eggs, baking soda (sodium bicarbonate), baking powder (sodium acid pyrophosphate, sodium bicarbonate, corn starch, monocalcium phosphate), salt, cannabis-infused butter (pasteurized cream, natural flavorings, cannabis).
Standard Production Procedure and Detailed Manufacturing Process:	Calculate potency, melt down frozen infused butter to liquefy. Let cool. Cream non-infused butter together with white sugar, and peanut butter. Add liquefied cannabis infused butter. Beat in eggs. Sift flour into separate container. Sift salt. baking soda, and baking powder into flour. Mix in flour mixture to make dough. Scoop 6 gram balls of dough. Space dough balls two inches apart on baking sheet. Press fork into top of dough ball to create classic peanut butter cookie line press. Bake at 300 degrees for 5 minutes, rotate, and bake another 5 minutes. Cool. Package. Seal. Raw Peanut Butter Cookie dough may also be packaged for sale to consumers to "take and bake" with baking directions, after dough balls are scooped, packages of 10 will be segregated in the freezer.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.
