Alaska Marijuana Control Board

Form MJ-01: Marijuana Establishment Operating Plan

What is this form?

An operating plan is required for all marijuana establishment license applications. Applicants should review **Title 17.38** of **Alaska Statutes** and **Chapter 306** of the **Alaska Administrative Code.** This form will be used to document how an applicant intends to meet the requirements of those statutes and regulations. If your business has a formal operating plan, you may include a copy of that operating plan with your application, but all fields of this form must still be completed per 3 AAC 306.020(c).

What must be covered in an operating plan?

Applicants must identify how the proposed premises will comply with applicable statutes and regulations regarding the following:

- Control plan for persons under the age of 21
- Security
- Business records
- Inventory tracking of all marijuana and marijuana product on the premises
- Employee qualification and training
- Health and safety standards
- Transportation and delivery of marijuana and marijuana products
- Signage and advertising

Applicants must also complete the corresponding operating plan supplemental forms (**Form MJ-03, Form MJ-04, Form MJ-05,** or **Form MJ-06)** to meet the additional operating plan requirements for each license type.

Section 1 – Establishment & Contact Information

Enter information for the business seeking to be licensed, as identified on the license application.

Licensee:	BP ProGro, LLC	**MJ License #:**	29922		
License Type:	Limited Marijuana Cultivation Facility				
Doing Business As:	BP ProGro				
Premises Address:	3065 N. Nichols Drive, Building 2

Email:	padiebobby@yahoo.com		

Received by AMCO 10.22.21

Section 2 – Control Plan for Persons Under the Age of 21

2.1. Describe how the marijuana establishment will prevent persons under the age of 21 from gaining access to any portion of the licensed premises and marijuana items:

The facility will be not open to the general public. The entire premises will be designated as a restricted access area with signage posted on and around the building stating "Restricted Access Area" & "Visitors Must Be Escorted" as well as signs stating, "No one Under 21 Years of Age Allowed" & "Video Surveillance in Progress". Video surveillance cameras will be visible throughout the facility as well as around the exterior perimeter of the building to continuously monitor the premises and to deter any unauthorized individuals from attempting to access the premises. A limited number of supervised visitors will be allowed onto the premises, all of whom will have their photo identification checked by a Licensee, employee, manager, or designated agent (Hereinafter called "Agents") to ensure that they are over 21 years of age. No persons under the age of 21 shall be allowed to enter the restricted access area/licensed premises at any time. A valid form of photographic identification includes: an unexpired, unaltered passport; and unexpired, unaltered driver's license, instruction permit, or identification card of a state or territory of the United States, the District of Columbia, or a Province or Territory of Canada; or, an identification card issued by a federal or state agency authorized to issue a driver's license or identification card.

Section 3 – Security

Restricted Access Areas (3 AAC 306.710):

3.1. Describe how you will prevent unescorted members of the public from entering restricted access areas:

BP ProGro will have ample signage indicating that the cultivation facility is a restricted access area. The exterior of the facility will be equipped with outdoor lighting to ensure the 24-hour video surveillance system captures individuals approaching the facility and keeps signage visible to the public. The facility is not open to the public. Members of the public will not be allowed on the premises unless they receive prior approval and have a legitimate business reason for visiting the premises. Certain individuals such as licensed retailers, contractors, security personnel and consultants will be allowed escorted access to the property by appointment only. Surveillance cameras will be installed to monitor all areas, interior and exterior, of the facility. All outer doors will remain locked at all times from outside the facility but, easily opened from inside the facility in case of an emergency. Whenever they are on the licensed premises, all Agents will be required to wear and prominently display BP ProGro identification badge and all visitors in the facility will be required to wear and prominently display visitor badges.

3.2. Describe your recordkeeping and processes for admitting visitors into and escorting them through restricted access areas:

All visitors to the facility, with the exception of AMCO and law enforcement, must obtain an appointment from the Licensee before access will be granted. A visitor will only be allowed to the facility if they have a legitimate business need to be present. Once a visitor has been properly approved and scheduled, they will be directed to enter through the designated facility entrance where they will be met by an Agent. The visitor will be required to produce a valid form of government-issued photo identification to confirm their identity and prove that they are at least twenty-one (21) years of age. The visitor will be assigned to a particular Agent, who will be responsible for escorting and monitoring the visitor, and will complete no other job duties while doing so. The Agent will assist the visitor in completing their entry in the Visitors' Log, which will contain the visitor's full name, the responsible Agent, date, time into the facility and purpose of visit. The visitor will be given a visitor badge and instructed to prominently display it on their person at all times. No responsible Agent will ever be assigned more than five (5) visitors at once. When the visit is complete, all visitors must return their visitor badge(s), and exit the premises. Visitors will be directed to promptly leave the property, to comply with BP ProGro's No Loitering policy. The responsible Agent will then update the log with the time the visitor left, and note any objectionable behavior by the visitor. All visitor logs will be maintained and stored as an official business record. All visitor logs will be made readily available to AMCO and AMCO enforcement upon request.

Received by AMCO 10.22.21.

3.3. Provide samples of licensee-produced identification badges that will be displayed by each licensee, employee, or agent while on the premises, and of visitor identification badges that will be worn by all visitors while in restricted access areas:

Security Alarm Systems and Lock Standards (3 AAC 306.715):

3.4. Exterior lighting is required to facilitate surveillance. Describe how the exterior lighting will meet this requirement:

BP ProGro will utilize bright outdoor lighting to deter nuisance activity and enhance the quality of video surveillance. Exterior commercial LED lighting will be placed and angled to illuminate the entire perimeter of the building and will be cross-checked with surveillance footage to ensure full coverage. All light fixtures will be shielded and angled downwards, to prevent nuisance light pollution on the surrounding properties. The light fixtures will keep the premises and any signs well lit, and allow the exterior surveillance cameras to record the best possible facial image of all individuals who are within twenty feet (20ft.) of all entry points to the building, including doors and windows. The lighting fixtures will be installed at an inaccessible height with sturdy housings to deter vandalism and prevent common obstructions. An Agent will regularly walk the perimeter and check the surveillance camera feed to ensure that all lights are operational, and are installed in the optimum positions to enhance the clarity of video recordings. These walks will also check for loiterers.

Received by AMCO 10.22.21.

3.5. An alarm system is required for all license types that must be activated on all exterior doors and windows when the licensed premises is closed for business. Describe the security alarm system for the proposed premises, explain how it will meet all regulatory requirements, and outline your policies and procedures regarding the actions to be taken by a licensee, employee, or agent when the alarm system alerts of an unauthorized breach:

BP ProGro will be contracting with a third-party alarm company to install a regulation-compliant security system, maintain the security equipment, perform periodic tests and continuously monitor the facility at the corresponding monitoring center. The alarm system will utilize motion sensors, commercial locks, surveillance cameras, remote monitoring and audible alarms. Motion sensors will be installed on each entrance door. Glass break sensors will be installed on every exterior window. If an alarm is triggered, an automatic electronic alert will be sent to the monitoring center and designated Agents' cell phones. An audible alarm will also sound to deter potential intruders. It will be standard operating procedure to arm the alarm when the last Agent leaves the facility at the close of every business day and disarm the alarm at the beginning of the following business day. In the event of an unauthorized breach of the facility during operating hours, the Agents will ask all persons inside the facility to exit quickly and safely and meet at a nearby pre-determined safe location. While there, the supervising Agent will take a headcount of all other Agents and visitors and will then notify law enforcement of the results. The Agent will await instruction from law enforcement and comply with all directives. Once law enforcement deems the situation safe, Agents will return to the facility, sign visitors out of the visitor log book, retrieve their visitor badges and begin an inspection of the facility to ensure there is no missing or damaged product, equipment, cash, etc. by performing an extensive inventory count of the entire facility. All documentation requested by AMCO or law enforcement as a result of the breach will be promptly provided. In any event, any unauthorized breach, or any event involving law enforcement, regardless of damage or lack thereof, will be electronically reported to AMCO within 24 hours.

3.6. Describe your policies and procedures for preventing diversion of marijuana or marijuana product, including by employees:

BP ProGro Agents will perform frequent and comprehensive inventory counts which will be reconciled in Metrc to maintain accuracy of all marijuana, in all stages, in the facility at any given time. All marijuana from sprout, to trimmed and packaged product will be under 24/7 video surveillance in the restricted access facility. Surveillance cameras will have complete coverage of all areas where marijuana is present. Agents will be closely monitored for misconduct. BP ProGro has a zero tolerance policy for theft, inversion or diversion. If an Agent is caught stealing, bringing marijuana from an outside source into the facility or removing marijuana from the facility without an accurate Metrc-generated manifest, they will be reprimanded immediately and local law enforcement will be notified. AMCO will be also be electronically notified within 24 hours in the event of theft, inversion or diversion by an Agent.

3.7. Describe your policies and procedures for preventing loitering:

BP ProGro will utilize and enforce policies that discourage loitering. The exterior will be well-lit and equipped with 24-hour video surveillance, as well as "Premises Under Video Surveillance" and "No Loitering" signs. Agents will actively monitor the premises by performing frequent, but unscheduled, walks around the outside the facility to check for loiterers. The video surveillance system will also be checked. If someone is found to be loitering they will requested to leave and then escorted from the property. If necessary, law enforcement will be contacted to enforce this No Loitering policy. Vendors who make pick ups, deliveries, or repairs will be escorted and only allowed to be on site to complete their business. Agents will only be permitted to receive visitors with the authorization of the Licensee.

You must be able to certify the statement below. Read the following and then sign your initials in the box to the right: Initials

3.8. I certify that if any additional security devices are used, such as a motion detector, pressure switch, and duress, panic, or hold-up alarm, to enhance security of the licensed premises, I will have written policies and procedures describing their use. BP

Received by AMCO 10.22.21.

Video Surveillance (3 AAC 306.720):

You must be able to certify each statement below. Read the following and then sign your initials in the corresponding box: Initials

3.9. The video surveillance and camera recording system for the licensed premises covers each restricted access area, and both the interior and exterior of each entrance to the facility. BP

3.10. Each video surveillance recording: is preserved for a minimum of 40 days, in a format that can be easily accessed for viewing (consistent with the Alcohol & Marijuana Control Office's approved format list); clearly and accurately displays the time and date; and is archived in a format that does not permit alteration of the recorded image. BP

3.11. The surveillance room or area is clearly defined on the Form MJ-02: Premises Diagram that is submitted with this application. BP

3.12. Surveillance recording equipment and video surveillance records are housed in a designated, locked, and secure area or in a lock box, cabinet, closet or other secure area where access is limited to the licensee(s), an authorized employee, and law enforcement personnel (including an agent of the Marijuana Control Board). BP

3.13. Describe how the video cameras will be placed to produce a clear view adequate to identify any individual inside the licensed premises, or within 20 feet of each entrance to the licensed premises:

BP ProGro will maintain a video security surveillance system that meets all regulation requirements. Multiple cameras will be used to record the interiors and exteriors of the premises. Cameras will be installed at an inaccessible height and carefully angled to prevent any blockages from fixtures, posts, display cases, vegetation or other equipment. Security cameras, with the help of bright lighting, will capture the best possible facial image of anyone present inside the building or within twenty feet (20ft.) of a facility egress or ingress. The security system will be installed with a failure notification system that will provide an audible & visual notification of any system failures. In the case of a power outage, all recording equipment will run on emergency power, via a battery backup system, for at least one hour (1hr.) to ensure continued operation. An Agent will regularly check the cameras and surveillance equipment to ensure that all cameras are in good working order, and that all areas of the facility are covered by video surveillance.

3.14. Describe the locked and secure area where video surveillance recording equipment and original copies of surveillance records will be housed and stored, and how you will ensure the area is accessible only to authorized personnel, law enforcement, or an agent of the Marijuana Control Board. If you will be using an offsite monitoring service and offsite storage of video surveillance records, your response must include how the offsite facility will meet these security requirements:

Surveillance and business records will be stored on-site in a locked cabinet in the secured office area for at least six months. Records may be stored off-site if they are older than six months. The facility will keep hard copies of all business records for a minimum of five years. BP ProGro may scan all hard copies of business records into a cloud-based server as a back up. The security system shall be password protected to prevent any data tampering. Recorded surveillance footage will be stored as an official business record for a minimum of forty (40) days. All surveillance footage will be accessible for upload to a separate hard drive, in case it is needed in any criminal, civil, or administrative investigations. All recordings will be date and time stamped, and archived in a format that prevents alteration of the recording. In accordance with standard data retention policies, BP ProGro will manage facility records in a consistent & searchable manner. Only the Licensee and select designated Agents will have access to the business records. All records will be stored separately from any currency or marijuana products.

Received by AMCO 10.22.21.

Section 4 – Business Records

Review the requirements under 3 AAC 306.755. All licensed marijuana establishments must maintain, in a format that is readily understood by a reasonably prudent business person, certain business records.

4.1. I certify that the following business records will be maintained and kept on the licensed premises: Initials

a. **all books and records necessary to fully account for each business transaction conducted under my license for the current year and three preceding calendar years** *(records for the last six months must be maintained on the licensed premises; older records may be archived on or off-premises)*; BP

b. **a current employee list setting out the full name and marijuana handler permit number of each licensee, employee, and agent who works at the marijuana establishment;** BP

c. **the business contact information for vendors that maintain video surveillance systems and security alarm systems for the licensed premises;** BP

d. **records related to advertising and marketing;** BP

e. **a current diagram of the licensed premises, including each restricted access area;** BP

f. **a log recording the name, and date and time of entry of each visitor permitted into a restricted access area;** BP

g. **all records normally retained for tax purposes;** BP

h. **accurate and comprehensive inventory tracking records that account for all marijuana inventory activity from seed or immature plant stage until the retail marijuana or retail marijuana product is sold to a consumer, to another marijuana establishment, or destroyed;** BP

i. **transportation records for marijuana and marijuana product, as required by 3 AAC 306.750(f); and** BP

j. **registration and inspection reports of scales registered under the Weights and Measures Act, as required by 3 AAC 306.745.** BP

4.2. A marijuana establishment is required to exercise due diligence in preserving and maintaining all required records. Describe how you will prevent records and data, including electronically maintained records, from being lost or destroyed:

All business records, including: operational and regulatory documents, recordings, surveillance, financial books, inventory, employment records, logs, manifests, and communications will be stored on-site in the office area (provided they are less than six months old). Older records may be stored off-site. BP ProGro will ensure that all business records are stored in a consistent and searchable manner, in compliance with standard data retention policies. Business records will be stored in the restricted and secured facility office, separate from any and all marijuana products and currency. Only the Licensee and select designated Agents will have access to the secured storage and business records. An electronic log will be maintained that will capture the credentials and access time of all Agents who access electronic business records. All business records and surveillance video will be made readily available to AMCO and law enforcement upon request. Video surveillance may be disposed of after forty days, provided that BP ProGro is not notified of the need to preserve evidence. If notified of such a need, then records will be available for download to a secondary device for preservation.

Received by AMCO 10.22.21.

Section 5 – Inventory Tracking of All Marijuana and Marijuana Product

Review the requirements under 3 AAC 306.730. All licensed marijuana establishments must use a marijuana inventory tracking system capable of sharing information with Metrc to ensure all marijuana cultivated and sold in the state, and each marijuana product processed and sold in the state, is identified and tracked from the time the marijuana is propagated from seed or cutting, through transfer to another licensed marijuana establishment, or use in manufacturing a marijuana product, to a completed sale of marijuana or marijuana product, or disposal of the harvest batch of marijuana or production lot of marijuana product.

You must be able to certify each statement below. Read the following and then sign your initials in the corresponding box: Initials

5.1. My marijuana establishment will be using Metrc, and if any other tracking software is used, it will be capable of sharing information with Metrc. BP

5.2. All marijuana delivered to a marijuana establishment will be weighed on a scale registered in compliance with 3 AAC 306.745. BP

5.3. My marijuana establishment will use registered scales in compliance with AS 45.75.080 (Weights and Measures Act), as required by 3 AAC 306.745. BP

Section 6 – Employee Qualification and Training

Review the requirements under 3 AAC 306.700. All licensees, and every employee or agent of the marijuana establishment who sells, cultivates, manufactures, tests, or transports marijuana or a marijuana product, or who checks the identification of a consumer or visitor, must obtain a marijuana handler permit from the board before being licensed or beginning employment at a marijuana establishment.

You must be able to certify each statement below. Read the following and then sign your initials in the corresponding box: Initials

6.1. All licensees, and each employee or agent of the marijuana establishment who sells, cultivates, manufactures, tests, or transports marijuana or marijuana product, or who checks the identification of a consumer or visitor, shall obtain a marijuana handler permit from the board before being licensed or beginning employment at the marijuana establishment. BP

6.2. Each licensee, employee, or agent who is required to have a marijuana handler permit shall keep that person's marijuana handler permit card in that person's immediate possession (or a valid copy on file on the licensed premises) when on the licensed premises. BP

6.3. Each licensee, employee, or agent who is required to have a marijuana handler permit shall ensure that that person's marijuana handler permit card is valid and has not expired. BP

6.4. Describe any in-house training that will be provided to employees and agents (apart from a marijuana handler course):

Proper training is an essential part of maintaining regulatory compliance, and it is the highest priority of BP ProGro. In addition to the state required marijuana handler training, the facility will implement and execute a training program for every Agent, regardless of the Agent's prior level of cannabis knowledge. The program will commence on the Agent's start date, and must be completed before the Agent can begin independent work in the facility. Key topics of the training program will include types of cannabis, cannabinoids and their properties, licensed facility buyer procedures, facility cleanliness and hygiene, federal and state laws, and AMCO rules and regulations. Refresher training will be conducted as needed, when the Licensee feels it is needed or when regulations change. BP ProGro will ensure that current versions of AMCO regulations are available to Agents for review.

Received by AMCO 10.22.21.

Section 7 – Health and Safety Standards

Review the requirements under 3 AAC 306.735.

You must be able to certify each statement below. Read the following and then sign your initials in the corresponding box: Initials

7.1. I understand that a marijuana establishment is subject to inspection by the local fire department, building inspector, or code enforcement officer to confirm that health or safety concerns are not present. BP

7.2. I have policies regarding health and safety standards (including: ensuring a person with an illness or infection does not come into contact with marijuana or marijuana product; good hygienic practices; cleaning and maintenance of equipment and the premises; pest deterrence; chemical storage; sanitation principles; and proper handling of marijuana and marijuana product) and will take all reasonable measures and precautions to ensure that they are met or exceeded. BP

7.3. I have policies to ensure that any marijuana or marijuana product that has been stored beyond its usable life, or was stored improperly, is not salvaged and returned to the marketplace. BP

7.4. I have policies to ensure that in the event information about the age or storage conditions of marijuana or marijuana product is unreliable, the marijuana or marijuana product will be handled in accordance with 3 AAC 306.735(d). BP

Answer "Yes" or "No" to each of the following questions:

	Yes	No
7.5. Adequate and readily accessible toilet facilities that are maintained and in good repair and sanitary condition are clearly indicated on my Form MJ-02: Premises Diagram.	✓	
7.6. Convenient handwashing facilities with running water at a suitable temperature are clearly indicated on my Form MJ-02: Premises Diagram.	✓	

7.7. If you answered "No" to either 7.5 or 7.6 above, describe how toilet and/or handwashing facilities are made accessible, as required by 3 AAC 306.735(b)(2):

Section 8 – Transportation and Delivery of Marijuana and Marijuana Products

Review the requirements under 3 AAC 306.750.

8.1. Describe how marijuana or marijuana product will be prepared, packaged, and secured for shipment. Include a description of the type of locked, safe, and secure storage compartments to be used in vehicles transporting marijuana or marijuana product:

A Metrc-generated transport manifest will accompany all marijuana in transit. A copy of this manifest will be sent with the products, and an additional copy will remain on the premises as an official business record. The manifest will document the strain name, type of product, batch number, weight, name of the transporter and their ID, time of departure and expected delivery time, and the make, model and license plate of the transporting vehicle. The transport vehicle will travel directly between destinations without making any unnecessary stops. Marijuana will be sealed in containers containing not more than ten pound (10lbs.) of product, inside a locked storage compartment within the vehicle or truck bed for wholesale transactions & up to one ounce (1oz.) containers for re-sale by retailers without re-packaging. At no time during transit will marijuana be visible outside the vehicle. The shipping container will have a label stating that a licensed testing facility has tested each batch in the shipment, and list: (1) the date of final testing; (2) the cannabinoid potency profile, expressed as a range of percentages that extends from the lowest percentage to highest percentage of concentration for each cannabinoid listed from every test conducted on that strain of marijuana from BP ProGro within the last three months; (3) a statement listing the results of microbial testing; and, (4) a statement... (Cont. on pg. 11)

Received by AMCO 10.22.21.

You must be able to certify each statement below. Read the following and then sign your initials in the corresponding box: Initials

8.2. The marijuana establishment from which a shipment of marijuana or marijuana product originates will ensure that any individual transporting marijuana shall have a marijuana handler permit required under 3 AAC 306.700. BP

8.3. The marijuana establishment that originates the transport of any marijuana or marijuana product will use the marijuana inventory tracking system to record the type, amount, and weight of marijuana or marijuana product being transported, the name of the transporter, the time of departure and expected delivery, and the make, model, and license plate number of the transporting vehicle. BP

8.4. The marijuana establishment that originates the transport of any marijuana or marijuana product will ensure that a complete printed transport manifest on a form prescribed by the board must be kept with the marijuana or marijuana product at all times during transport. BP

8.5. During transport, any marijuana or marijuana product will be in a sealed package or container in a locked, safe, and secure storage compartment in the vehicle transporting the marijuana or marijuana product, and the sealed package will not be opened during transport. BP

8.6. Any vehicle transporting marijuana or marijuana product will travel directly from the shipping marijuana establishment to the receiving marijuana establishment, and will not make any unnecessary stops in between except to deliver or pick up marijuana or marijuana product at any other licensed marijuana establishment. BP

8.7. When the marijuana establishment receives marijuana or marijuana product from another licensed marijuana establishment, the recipient of the shipment will use the marijuana inventory tracking system to report the type, amount, and weight of marijuana or marijuana product received. BP

8.8. The marijuana establishment will refuse to accept any shipment of marijuana or marijuana product that is not accompanied by the transport manifest. BP

Section 9 – Signage and Advertising

Review the requirements under 3 AAC 306.770.

9.1. Describe any signs that you intend to post on your establishment, including quantity, dimensions, graphics, and location on your establishment (photos or drawings may be attached):

BP ProGro does not intend to have any signs with the business name or logo on the exterior of the licensed premises, as the facility will not be open to the public.

Received by AMCO 10.22.21.

Form MJ-01: Marijuana Establishment Operating Plan

9.2. Describe any advertising you intend to distribute for your establishment. Include medium types and business logos (photos or drawings may be attached):

BP ProGro may utilize the following medium types when distributing advertisements:

- Radio
- Magazines
- Social Media Platforms
- Newspapers
- Industry Platforms (such as LeafLinks, WeedMaps, etc.)
- Sponsorships & Fundraisers
- BP ProGro's Company Website

BP ProGro's logo is still in production. Once completed, a copy will be sent to AMCO.

All advertisements will recite, verbatim, all five warning statements required by AMCO.

I declare under penalty of unsworn falsification that this form, including all accompanying schedules and statements, is true, correct, and complete.

(Additional Space as Needed):

8.1 Continued: ...listing the contaminants for which the marijuana was tested, including molds, mildew, filth, herbicides, pesticides, fungicides, and harmful chemicals. Any packaging done at the facility will be performed in an area specifically set aside for packaging and monitored with continuous surveillance. All packaging will have prominent, uniform labels which are securely adhered to the package. In compliance with the Alaska Weights and Measures Act, the facility will use certified scales and maintain registration and inspection reports at the facility. After Agents package marijuana, it will be placed in sanitized, air-tight containers, labeled with all compliant labeling information, and given a Metrc barcode. Plastic packaging will be heat-sealed without an easy-open tab, dimple, corner, or flap. Packaged marijuana will be stored in a secured area until ready for transport. All packaging will be inspected, accepted or rejected, and recorded in the log. A designated Agent will check all final packages to ensure that they will secure marijuana from contamination and not impart toxic or deleterious substances. Labels will include: (1) BP ProGro's name and license number; (2) the date the marijuana was harvested; (3) the harvest batch number assigned to the marijuana; (4) the date the marijuana was packaged; (5) the net weight and the quantity of usable marijuana packaged in a standard of measure compatible with the inventory tracking system; (6) a complete list of all pesticides, fungicides, and herbicides used in the cultivation of the marijuana. BP ProGro may contract with a third-party transport company and will ensure all transporters and handlers follow all regulations and have valid AMCO marijuana handler permits at all points of their employment.

Received by AMCO 10.22.21.
