Alaska Marijuana Control Board

Form MJ-16: Proposed New Marijuana Product

Why is this form needed?

This proposed new marijuana product form is required for a marijuana product manufacturing facility licensee who is seeking Marijuana Control Board (MCB) approval of a new marijuana product or marijuana concentrate for production at its licensed premises, as required under 3 AAC 306.100 and 3 AAC 306.525. **The required $250 proposed new marijuana product fee may be made by check, cashier's check, or money order.**

This form must be completed and submitted to AMCO's Anchorage office prior to production of any new marijuana product or marijuana concentrate. **The proposed new marijuana product may not be produced unless and until the MCB has approved of the product.**

Please note that licensees seeking approval of more than one proposed new marijuana product or marijuana concentrate must submit a separate completed copy of this form and pay a separate fee for each proposed new marijuana product or marijuana concentrate.

Section 1 – Establishment Information

Enter information for the business seeking to be licensed, as identified on the license application.

Licensee:	GOOD, LLC	**MJ License #:**	10165		
License Type:	Marijuana Product Manufacturing Facility				
Doing Business As:	GOOD Cannabis				
Premises Address:	1949 Frank Ave				
City:	Fairbanks	**State:**	Alaska	**ZIP:**	99701

Intended Use: Smokable/ edible/topical/wholesale/etc.	edible		

DocuSign Envelope ID: 76130426-9567-461F-A51C-3B138FE33531

Form MJ-16: Proposed New Marijuana Product

Section 3 – Proposed Product Details

Enter information for the marijuana product for which you are seeking MCB approval.

Product Description: Details must include the color, shape, and texture.	Product is a white, round, disc shaped tablet. There will be 4 types of SpeedTabs: 1. Original, 2. Sleep, 3. Plus, 4. Max The tablet will come in two sizes: a diameter of 7mm ("Original", "Sleep") or 9mm ("Plus", "Max"). Each tablet will have the letters "GOOD" debossed on one side of the tablet and "Contains THC" with a marijuana leaf logo in a triangle above debossed on the other side of the tablet.

Ingredients: If Hemp/CBD is an ingredient, what is the quantity and you must provide the SOA Department of Agriculture's registration number.	Mannitol, silica, poloxamer, corn starch, microcrystalline cellulose, calcium silicate, croscarmellose sodium, cannabis extract, natural flavor, sucralose, sodium stearyl fumarate, ascorbyl palmitate, botanically derived terpenes, hemp-derived cannabidiol (Original, Sleep, Plus), hemp-derived cannabigerol (Original, Sleep, Plus), hemp-derived cannabinol (Sleep), melatonin (Sleep). Hemp-derived cannabinoids will be endorsed via Alaska's Hemp Program. See packaging images for dosing. Hemp Reg# 20-4R-0070

Flavors: List all current and potential future flavors:	All 4 types will be mint flavor.

Standard Production Procedure and Detailed Manufacturing Process:	Melt marijuana and hemp extract and combine with part-1 excipients. Mix. Combine with part-2 excipients. Mix. Filter to remove clumps. Grind clumps and recombine with filtered powder. Combine with part-3, part-4, and part-5 excipients, mixing at each combination. Transfer to tablet press. Tablet to provided mass and hardness specifications. Dedust tablets. Pass tablets through metal detector. Package tablets, while visually inspecting the tablets throughout the process.

Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.

Form MJ-16: Proposed New Marijuana Product

Section 4 – Proposed Product Packaging and Sample Label

Enter information for the packaging and labeling of the marijuana product for which you are seeking MCB approval.

Packaging Description: Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.	Tablets will be packaged in clear vials. Three versions will have two vials, with 10 tablets in each vial ("Original", "Sleep", "Plus"), and one version will have 10 tablets in a single vial ("Max"). Each each tablet is one serving. Vials will be held inside a 3" x 5" child resistant foil pouch. 1. Original - 100mg THC, 5mg THC serving, 20 servings, pouch is green, white, and black 2. Sleep - 50mg THC, 2.5mg THC serving, 20 servings, pouch is purple, white, and black 3. Plus - 100mg THC, 5mg THC serving, 20 servings, pouch is pink, white, and black 4. Max - 100mg THC, 10mg THC serving, 10 servings, pouch is orange, white, and black See attachment for drawings. "Original", "Sleep", and "Plus" versions will have hemp derived cannabinoids (i.e., CBD, CBN and/or CBG) endorsed by Alaska's Hemp Program and will have the Hemp Registration number, and all other Hemp Labeling requirements as shown on the attached Div. of Agriculture hemp product example label.

Sample Labels: Provide sample labels showing how the labeling requirements set forth in 3 AAC 306.570 will be met.	See attached

You must be able to certify the statement below. Read the following and then sign your initials in the box to the right: Initials

I hereby certify that I am the person herein named and subscribing to this application and that I have read the complete application, and I know the full content thereof. I declare that all of the information contained herein, and evidence or other documents submitted are true and correct. I understand that any falsification or misrepresentation of any item or response in this application, or any attachment, or documents to support this application, is sufficient grounds for denying or revoking a license/permit. I further understand that it is a Class A misdemeanor under Alaska Statute 11.56.210 to falsify an application and commit the crime of unsworn falsification.

Manna SpeedTabs dissolve under the tongue to rapidly deliver cannabinoids into the bloodstream, using a patent-pending sublingual delivery system.

DIRECTIONS
Place a SpeedTab under your tongue and let it dissolve completely, hold for at least one minute—or up to three minutes for maximum onset speed.

INGREDIENTS
Mannitol, silica, poloxamer, corn starch, microcrystalline cellulose, natural flavor, calcium silicate, croscarmellose sodium, cannabis extract, sucralose, sodium stearyl fumarate, hemp extract, botanically derived terpenes, ascorbyl palmitate

SERVING SIZE
1 tablet

DURATION
Onset: 3-5 minutes
Offset: 60 minutes

FLAVOR
Mint flavor with Mango Haze terpenes

Marijuana has intoxicating effects and may be habit forming and addictive. Marijuana impairs concentration, coordination, and judgment. Do not operate a vehicle or machinery under its influence. There are health risks associated with consumption of marijuana. For use only by adults twenty-one and older. Keep out of the reach of children. Marijuana should not be used by women who are pregnant or breast feeding.

FEEL GOOD RESPONSIBLY.
