Alaska Marijuana Control Board

Form MJ-15: Operating Plan Change

Why is this form needed?

This operating plan change form is required for all marijuana establishment licensees seeking to change a licensed marijuana establishment's existing operating plan, as required by 3 AAC 306.100. With this form, a licensee may request changes to as much or as little as desired of Form MJ-01 and/or the corresponding operating plan supplemental for the establishment's license type. **The required $250 change fee may be made by check, cashier's check, or money order.**

Please complete and submit with this form the pages of Form MJ-01 and/or the corresponding operating plan supplemental that contain sections that you are requesting to change. **All fields must be completed of any page for which you are requesting changes** – upon board approval, the submitted pages will replace those currently on file. If your current, approved operating plan is on the original version of the forms, you may be required to complete and submit the new operating plan forms in their entirety.

The form(s) that I am requesting board approval to change is:

- ☐ **Form MJ-01:** Marijuana Establishment Operating Plan
- ☐ **Form MJ-03:** Retail Marijuana Store Operating Plan Supplemental
- ☐ **Form MJ-04:** Marijuana Cultivation Facility Operating Plan Supplemental
- ☑ **Form MJ-05:** Marijuana Product Manufacturing Facility Operating Plan Supplemental
- ☐ **Form MJ-06:** Marijuana Testing Facility Operating Plan Supplemental

This form must be completed and submitted to AMCO's Anchorage office prior to changing existing operations. The licensed establishment's operations may not be altered unless and until the director has given temporary approval or the Marijuana Control Board (MCB) has given final approval of the changes. Please note that licensees seeking to change operating plans for multiple licenses must submit a separate completed copy of this form for each license.

Section 1 – Establishment Information

Enter information for the business seeking to be licensed, as identified on the license application.

Licensee:	GOOD LLC	**MJ License #:**			10165
License Type:	Marijuana Product Manufacturing Facility				
Doing Business As:	GOOD Cannabis				
Premises Address:	1949 Frank Ave				
City:	Fairbanks	**State:**	Alaska	**ZIP:**	99701

Form MJ-15: Operating Plan Change

Section 2 – Summary of Changes

Provide a summary of the changes for which you are requesting approval.

See attached

Section 3 – Declarations

Read each statement below, and then sign your initials in the corresponding box to the right: Initials

The proposed changes conform to all applicable public health, fire, and safety laws.

I understand that any temporary approval granted by the director is pending a final decision by the MCB; therefore, any investment I make, based upon temporary approval, is at my own risk.

I hereby certify that I am the person herein named and subscribing to this application and that I have read the complete application, and I know the full content thereof. I declare that all of the information contained herein, and evidence or other documents submitted are true and correct. I understand that any falsification or misrepresentation of any item or response in this application, or any attachment, or documents to support this application, is sufficient grounds for denying or revoking a license/permit. I further understand that it is a Class A misdemeanor under Alaska Statute 11.56.210 to falsify an application and commit the crime of unsworn falsification.

- Addition of CBD/CBG/CBN from an approved Alaska Industrial Hemp Source to 'Dablicator' standard production procedure
- Addition of THC range in packaging description

Vape Pen with Oil

- Addition of CBD/CBG/CBN from an approved Alaska Industrial Hemp Source to standard production procedure
- Addition of THC range in packaging description

AMCO Rcvd 04/24/2023

Section 6 – Proposed Marijuana Concentrates and Marijuana Products

Review the requirements under 3 AAC 306.520, 3 AAC 306.525, and 3 AAC 306.560.

Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	GOOD Berry Tincture		
Product Type: Choose one.	Other Marijuana Product		
Perishable: Yes/No	No	**Shelf Life:** If perishable.	
Intended Use: Smokable/ edible/topical/wholesale/etc.	Edible		

Product Description: Details must include the color, shape, and texture.	- Liquid - Semi-transparent purple (blueberry) or pink (cranberry) - Separation within the liquid occurs over time (oil and non-oil parts). The packaging instructs to "Separation is natural. Give it a good shake (before each use)" to homogenize the liquid before consumption.
Ingredients:	Honey sweetened berry extract (blueberry or cranberry berries, vodka, honey) - Refined coconut (Medium Chain Triglyceride) - N-Butane cannabis concentrate Optional: Alaska Hemp Program endorsed hemp concentrate product (e.g., hemp concentrate high in CBD, CBN, CBC or CBG). Optional: TiME INFUSION Activator®
Standard Production Procedure and Detailed Manufacturing Process:	- Heat coconut oil to 100 degrees F - Heat N-Butane cannabis concentrate to 100 degrees F - Mix coconut oil and N-Butane cannabis concentrate (Add Alaska Hemp Program concentrate (concentrated CBD, CBG, CBN, CBC) if applicable) - Optional, for fast acting version add: Infuse cannabis with TiME INFUSION Activator® - Add infused coconut oil to berry extract
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.	See attached

Section 7 – Proposed Product Packaging and Sample Labels

Review the requirements under 3 AAC 306.520, 3 AAC 306.565, and 3 AAC 306.570.

Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	GOOD Berry Tincture
Product Type:	Other Marijuana Product

Packaging Description: Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.	- We will package GOOD Berry Tincture in a 15ml rounded clear, uncolored glass bottle (Style: Boston Round; Dimensions: 68mm height, 25mm width at bottom) - We will affix a white label around the outside of the bottle. - The bottle will have a white child resistant dropper cap with graduated glass dropper - Dropper cap will be packaged with shrink wrap plastic as a tamper proof measure - Bottle will be packaged in a black paper box with either blue text (blueberry) or red text (cranberry) - Bottle will contain 10 servings. Each serving = 5mg THC or 10mg THC in 1.5ml liquid (2 full droppers at 0.75ml per full dropper), for a total 50mg or 100mg total THC respectively (per 15ml liquid) Hemp concentrate endorsed by the Alaska Hemp Program will also be used in some cases. For example, hemp concentrate high in CBD will be added to create a CBD:THC version, E.g.:CBD:THC version will include a total CBD of either 50 mg CBD (5 mg/serving), 100 mg CBD (10 mg/serving), 200 mg CBD (20 mg/serving), 500 mg CBD (50 mg/serving) or 1000 mg CBD (100 mg/serving). For Azuca Fast Acting versions (optional), a sticker will be affixed to the front of the package indicating that it is a "FAST ACTING" version. The sticker will also include the Azuca Logo and "AZUCA TiME INFUSION™" and "Fast Acting Edible – 5-to-15-minute onset" to ensure consumers are aware of the fast-acting impact of the Azuca Activator®. CBD:THC version will have an additional sticker on front of packaging describing the CBD:THC ratio and the CBD and THC per serving, the Hemp Registration number, and all other Hemp Labeling requirements as shown on the attached Dept. of Agriculture hemp product example label.

Sample Labels: Provide sample labels showing how the labeling requirements set forth in 3 AAC 306.570 will be met.	See attached image of packaging with labels attached. Note, magenta area designates the variable data that will be applied.

Alaska Division of Agriculture
Hemp Program

Product Label Example

A person offering for sale, processed industrial hemp products intended for human or animal consumption, must properly label them in accordance with 11 AAC 40.420. The label shall include the following:

1) The product name.
2) A batch number for the product.
3) An expiration date.
4) Total quantity of the product by weight or volume.
5) The serving size or recommended dosage.
6) A list of all ingredients.
7) The industrial hemp program in which the hemp originated.
8) And if the product contains any THC, the statement "Warning: Contains THC"

Section 6 – Proposed Marijuana Concentrates and Marijuana Products

Review the requirements under 3 AAC 306.520, 3 AAC 306.525, and 3 AAC 306.560.

Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	GOOD Dark Chocolate Bar		
Product Type: Choose one.	Other Marijuana Product		
Perishable: Yes/No	Yes	**Shelf Life:** If perishable.	18 months
Intended Use: Smokable/ edible/topical/wholesale/etc.	Edible		

Product Description: Details must include the color, shape, and texture.	Color: Dark Brown Shape: 5" x 2"x 3/8" rectangle Texture: Hard, smooth

Ingredients:	Belgian Dark Chocolate (unsweetened chocolate, sugar, cocoa butter),N-Butane Concentrate (winterized cannabis extract), Optional: Alaska Hemp Program endorsed hemp concentrate product (e.g., hemp concentrate high in CBD, CBN, CBC or CBG). Optional: Azuca Chocolate Activator®. Flavorings: Cinnamon, Cayenne, Orange, Mint, Strawberry Cardamom.The ingredient list on package will include all specific ingredients that were adding to this particular batch (Flavorings).

Standard Production Procedure and Detailed Manufacturing Process:	Melt chocolate in tempering machine. Add flavoring (if needed) , Add in N-Butane Concentrate, Add Alaska Hemp Program concentrate (concentrated CBD, CBG, CBN, CBC) if applicable. Bring chocolate to temper. Optional, for fast acting version add: infuse cannabis with Azuca Chocolate Activator ®. Fill molds and scrape level (excess chocolate goes back into tempering machine for the next molds). Allow chocolate to cool and set up in the molds. Tap chocolate bars out of the molds and store until ready for packaging.

Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.	

Section 7 – Proposed Product Packaging and Sample Labels

Review the requirements under 3 AAC 306.520, 3 AAC 306.565, and 3 AAC 306.570.

Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	GOOD Dark Chocolate Bar
Product Type:	Other Marijuana Product

Packaging Description: Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.	(See image attached for example for 10mg THC serving/100mg THC Total) Chocolate Bars will be packaged in a 5.5" x 2.5" child resistant heat sealed food safe bag. The bag will be opaque and black in color. Product will be infused with N-Butane Concentrate. Each chocolate bar will contain 10 servings infused with 5mg THC each or 10mg THC each. The entire bar will therefore contain 50mg THC or 100mg THC, respectively. Each Serving is clearly demarcated as show in Section 6. Hemp concentrate endorsed by the Alaska Hemp Program will also be used in some cases. For example, hemp concentrate high in CBD will be added to create a CBD:THC version: CBD:THC version will include (in addition to THC described above) total CBD of either 50 mg CBD (5 mg/serving), 100 mg CBD (10 mg/serving), 200 mg CBD (20 mg/serving), 500 mg CBD (50 mg/serving) or 1000 mg CBD (100 mg/serving). CBD:THC version will have an additional sticker on front of packaging describing the CBD:THC ratio and the CBD and THC per serving, the Hemp Registration number, and all other Hemp Labeling requirements as shown on the attached Dept. of Agriculture hemp product example label. For Azuca Fast Acting versions (optional), a sticker will be affixed to the front of the package indicating that it is a "FAST ACTING" version. The sticker will also include the Azuca Logo and "AZUCA TiME INFUSION™" and "Fast Acting Edible – 5-to-15-minute onset" to ensure consumers are aware of the fast-acting impact of the Azuca Activator®. (see attached image of packaging)
Sample Labels: Provide sample labels showing how the labeling requirements set forth in 3 AAC 306.570 will be met.	See attached image of packaging with labels attached. Note, magenta outline designates area that the variable data label will be applied.

Review the requirements under 3 AAC 306.520, 3 AAC 306.525, and 3 AAC 306.560.

Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	GOOD Dark Mini Chocolate Bars		
Product Type: Choose one.	Other Marijuana Product		
Perishable: Yes/No	Yes	**Shelf Life:** If perishable.	18 months
Intended Use: Smokable/ edible/topical/wholesale/etc.	Edible		

Product Description: Details must include the color, shape, and texture.	Mini chocolate bars are dark brown (dark chocolate) in color. The shape is that of a gold bar (3D trapezoid) 0.875"L x 0.4375"W x 0.2"H. The texture is smooth and hard until melting in your mouth. 1) 50 mini chocolate bars (1mg THC per bar, serving size 5mg THC [5 bars] or 10mg THC [10 bars]) each will be packaged into a child resistant bag. There will be 50mg THC per package. 2)10 mini chocolate bars (serving size [one bar] 5mg THC or 10mg THC) each will be packaged into a child resistant bag. There will be 50mg or 100mg THC per package.
Ingredients:	Dark Chocolate (unsweetened chocolate, sugar, cocoa butter), flavoring (when creating flavored version), N-butane concentrate, Optional: Alaska Hemp Program endorsed hemp concentrate product (e.g., hemp concentrate high in CBD, CBN, CBC or CBG).Optional Azuca Chocolate Activator® Flavorings: Cinnamon, Cayenne, Orange, Mint, Strawberry Cardamom.
Standard Production Procedure and Detailed Manufacturing Process:	Chocolate will be melted down in an auto-tempering machine. N-butane concentrate (and flavoring and/or hemp concentrate when applicable) will be added to the melted chocolate and mixed until homogeneous, then allowed to cool to temper point and poured directly into molds to further cool and set up. Optional, for fast acting version add: infuse cannabis with Azuca Chocolate Activator ®
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.	See attached image

Section 7 – Proposed Product Packaging and Sample Labels

Product Name:	GOOD Dark Mini Chocolate Bars
Product Type:	Other Marijuana Product

Packaging Description: Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.	(See image attached for example for 5mg THC serving/50mg THC Total) 1) Dark mini chocolate bars will be packaged in a 4 x 2.5 x 4 child resistant heat sealed food safe bag. The bag will be metallic bronze in color. Product will be infused with N-Butane concentrate. Each mini chocolate bar will contain 1mg THC, serving size 5 or 10 bars.The entire package will contain 50 mini chocolate bars therefore containing 50mg THC. (see attached image of packaging). 2) Dark mini chocolate bars will be packaged in a 4 x 2.5 x 6 child resistant heat sealed food safe bag. The bag will be metallic bronze in color. Product will be infused with N-Butane concentrate. Each mini chocolate bar will contain 10 servings infused with 10mg THC each. The entire package will therefore contain 100mg THC. (see attached image of packaging). Hemp concentrate endorsed by the Alaska Hemp Program will also be used in some cases. Eg., hemp concentrate high in CBD will be added to create a CBD:THC version: CBD:THC version will include (in addition to THC described above) total CBD of either 50 mg CBD (10 mg/serving), 100 mg CBD (20 mg/serving), 100 mg CBD (10 mg/serving), 200 mg CBD (20 mg/serving), 500mg CBD (100 mg/serving) or 1000 mg CBD (100 mg/ serving) CBD:THC version will have an additional sticker on front of packaging describing the CBD:THC ratio and the CBD and THC per serving . Additionally, the CBD:THC version shall have the Hemp Registration number, and all other Hemp Labeling requirements as shown on the attached Dept. of Agriculture hemp product example label. For Azuca Fast Acting versions (optional), a sticker will be affixed to the front of the package indicating that it is a “FAST ACTING” version. The sticker will also include the Azuca Logo and “AZUCA TiME INFUSION™” and “Fast Acting Edible – 5-to-15-minute onset” to ensure consumers are aware of the fast-acting impact of the Azuca Activator®.

Sample Labels: Provide sample labels showing how the labeling requirements set forth in 3 AAC 306.570 will be met.	See attached image of packaging with labels attached. Note, magenta outline designates area that the variable data label will be applied.

Section 6 – Proposed Marijuana Concentrates and Marijuana Products

Review the requirements under 3 AAC 306.520, 3 AAC 306.525, and 3 AAC 306.560.

Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	GOOD Milk Mini Chocolate Bars		
Product Type: Choose one.	Other Marijuana Product		
Perishable: Yes/No	Yes	**Shelf Life:** If perishable.	18 months
Intended Use: Smokable/ edible/topical/wholesale/etc.	Edible		

Product Description: Details must include the color, shape, and texture.	Mini chocolate bars are dark brown (dark chocolate) in color. The shape is that of a gold bar (3D trapezoid) 0.875"L x 0.4375"W x 0.2"H. The texture is smooth and hard until melting in your mouth. 1) 50 mini chocolate bars (1mg THC per bar, serving size 5mg THC [5 bars] or 10mg THC [10 bars]) each will be packaged into a child resistant bag. There will be 50mg THC per package. 2)10 mini chocolate bars (serving size [one bar] 5mg THC or 10mg THC) each will be packaged into a child resistant bag. There will be 50mg or 100mg THC per package.
Ingredients:	Milk Chocolate (sugar, cocoa butter, whole milk powder, unsweetened chocolate, milk sugar, skimmed milk powder, soy lecithin (emulsifier), malt , N-butane concentrate, Optional: Alaska Hemp Program endorsed hemp concentrate product (e.g., hemp concentrate high in CBD, CBN, CBC or CBG).Optional: Azuca Chocolate Activator®. Flavorings: Cinnamon, Cayenne, Orange, Mint, Strawberry Cardamom.
Standard Production Procedure and Detailed Manufacturing Process:	Chocolate will be melted down in an auto-tempering machine. N-butane cannabis concentrate (and flavoring and/or hemp concentrate when applicable) will be added to the melted chocolate and mixed until homogeneous, then allowed to cool to temper point and poured directly into molds to further cool and set up.Optional, for fast acting version add: infuse cannabis with Azuca Chocolate Activator ®
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.	See attached image

Section 7 – Proposed Product Packaging and Sample Labels

Review the requirements under 3 AAC 306.520, 3 AAC 306.565, and 3 AAC 306.570.

Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	GOOD Mini Milk Chocolate Bars
Product Type:	Other Marijuana Product

Packaging Description: Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.	(See image attached for example for 5mg THC serving/50mg THC Total) 1) Dark mini chocolate bars will be packaged in a 4 x 2.5 x 4 child resistant heat sealed food safe bag. The bag will be metallic bronze in color. Product will be infused with N-Butane concentrate. Each mini chocolate bar will contain 1mg THC, serving size 5 or 10 bars. The entire package will contain 50 mini chocolate bars therefore containing 50mg THC. (see attached image of packaging). 2) Dark mini chocolate bars will be packaged in a 4 x 2.5 x 6 child resistant heat sealed food safe bag. The bag will be metallic bronze in color. Product will be infused with N-Butane concentrate. Each mini chocolate bar will contain 10 servings infused with 10mg THC each. The entire package will therefore contain 100mg THC. (see attached image of packaging). Hemp concentrate endorsed by the Alaska Hemp Program will also be used in some cases. Eg., hemp concentrate high in CBD will be added to create a CBD:THC version: CBD:THC version will include (in addition to THC described above) total CBD of either 50 mg CBD (10 mg/serving), 100 mg CBD (20 mg/serving), 100 mg CBD (10 mg/serving), 200 mg CBD (20 mg/serving), 500mg CBD (100 mg/serving) or 1000 mg CBD (100 mg/ serving) CBD:THC version will have an additional sticker on front of packaging describing the CBD:THC ratio and the CBD and THC per serving . Additionally, the CBD:THC version shall have the Hemp Registration number, and all other Hemp Labeling requirements as shown on the attached Dept. of Agriculture hemp product example label. "AZUCA TiME INFUSION™" and "Fast Acting Edible – 5-to-15-minute onset" to ensure consumers are aware of the fast-acting impact of the Azuca Activator®.

Sample Labels: Provide sample labels showing how the labeling requirements set forth in 3 AAC 306.570 will be met.	See attached image of packaging with labels attached. Note, magenta outline designates area that the variable data label will be applied.

Product Name:	GOOD Gummies
Product Type:	Edible

Packaging Description: Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.	GOOD Gummies will be packaged directly in a colored (associated with the color of fruit juice, e.g., grapefruit [yellow], tart cherry [red], or grape [purple]) child resistant resealable mylar bag (3.4" x 2.36" x 5") that will have a white label affixed to the back with the variable data (METRC number, retailer, flavor, etc). Total amount of THC per package = 50 mg or 100 mg with THC per serving = 5 mg or 10 mg, respectively. 10 servings (1 gummy = 1 serving) per package. Hemp concentrate endorsed by the Alaska Hemp Program will also be used in some cases. For example, hemp concentrate high in CBD will be added to create a CBD:THC version: CBD:THC version will include (in addition to THC described above) total CBD of either 50 mg CBD (5 mg/serving), 100 mg CBD (10 mg/serving), 200 mg CBD (20 mg/serving), 500 mg CBD (50 mg/serving) or 1000 mg CBD (100 mg/serving) CBD:THC version will have an additional sticker on front of packaging describing the CBD:THC ratio and the CBD and THC per serving. Additionally, for the CBD:THC versions, the label will have the Hemp Registration number and shall meet all other requirements shown on the attached example Hemp Registration Label from the Alaska Dept. of Agriculture. For Azuca Fast Acting versions (optional), a sticker will be affixed to the front of the package indicating that it is a "FAST ACTING" version. The sticker will also include the Azuca Logo and "AZUCA TiME INFUSION™" and "Fast Acting Edible – 5-to-15-minute onset" to ensure consumers are aware of the fast-acting impact of the Azuca Activator®.

Sample Labels: Provide sample labels showing how the labeling requirements set forth in 3 AAC 306.570 will be met.	See attached image of packaging with labels attached. Note, magenta outline designates area that the variable data label will be applied.

Product Name:	GOOD Capsules		
Product Type: Choose one.	Other Marijuana Product		
Perishable: Yes/No	Yes	**Shelf Life:** If perishable.	1 year
Intended Use: Smokable/ edible/topical/wholesale/etc.	Edible		

Product Description: Details must include the color, shape, and texture.	Black and white hydroxypropylmethyl cellulose capsules will have the GOOD monogram logo on the capsule exterior. Capsule will be filled with coconut oil infused with decarboxylated butane hash oil cannabis. Capsules will be smooth and oval shaped.

Ingredients:	- Decarboxylated butane hash oil cannabis - Alaska Hemp Program Endorsed CBD concentrate may be added to create CBD:THC version of capsules. - Virgin organic coconut oil - Hydroxypropylmethyl cellulose capsules (vegetable cellulose, purified water) - Optional: TiME INFUSION Activator®

Standard Production Procedure and Detailed Manufacturing Process:	Calculate the dosage of decarboxylated cannabis concentrate (butane hash oil) to be added to the batch. Place 250 mL of raw unrefined Coconut oil in a double boiler and set temperature to 220 degrees F. Make sure to keep temperature below 220 degrees F. Mix in Butane Hash Oil cannabis extract (and CBD concentrate if applicable; Optional, for fast acting version add: Infuse cannabis with TiME INFUSION Activator®), and stir into mixture. Let mixture heat for 1 hour while stirring. Pour oil into cooling pan. Add 0.2 ml of infused coconut oil to the Hydroxypropylmethyl cellulose capsules using a syringe.

Depiction:
Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.

Product Name:	GOOD Capsules
Product Type:	Edible

Packaging Description: Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.	(See image attached for example for 10mg THC serving/100mg THC Total) Capsules will be packaged in a polyester film pouch that will be heat sealed and will also have a child resistant Ziploc style closure. Pouches will be 3" x 3.5" and will either be on a white background (marijuana only) or a gold background (for capsules that also contain AK Hemp Program endorsed hemp as an ingredient). See attached image of packaging. Serving information that will be on the side of the box: "One capsule is a single serving of 5 mg THC.", or "One capsule is a single serving of 10 mg THC." Serving information that will be on the front of the box: "50 MG THC, 10 CAPSULES, 5 MG THC PER CAPSULE" ,or"100 MG THC, 10 CAPSULES, 10 MG THC PER CAPSULE". CBD:THC version will include (in addition to THC described above) total CBD of either 50 mg CBD (5 mg/serving), 100 mg CBD (10 mg/serving), 200 mg CBD (20 mg/serving), 500 mg CBD (50 mg/serving) or 1000 mg CBD (100 mg/serving). CBD:THC version will have an additional sticker on front of packaging describing the CBD:THC ratio and the CBD and THC per serving. Additionally, the CBD: THC version will include on the labels Hemp Registrant number and all other Hemp regulatory requirements as set forth on the Dept of Agriculture sample label attached hereto. For Azuca Fast Acting versions (optional), a sticker will be affixed to the front of the package indicating that it is a “FAST ACTING” version. The sticker will also include the Azuca Logo and “AZUCA TiME INFUSION™” and “Fast Acting Edible – 5-to-15-minute onset” to ensure consumers are aware of the fast-acting impact of the Azuca Activator®.

Sample Labels: Provide sample labels showing how the labeling requirements set forth in 3 AAC 306.570 will be met.	See attached image of packaging with labels attached. Note, magenta area designates the variable labels that will be applied. Bottom variable label sticker will be white with black print. Round variable label sticker ("varietal sticker") colors will be white, black, or gold.

Product Name:	GOOD Lemon Ginger Drops		
Product Type: Choose one.	Other Marijuana Product		
Perishable: Yes/No	Yes	**Shelf Life:** If perishable.	12 months
Intended Use: Smokable/ edible/topical/wholesale/etc.	Edible		

Product Description: Details must include the color, shape, and texture.	The infused lozenges are a golden to light brown infused marijuana product, and will be spherical in shape with a flat bottom. Drops will have a hard consistency and a smooth, powdered texture from the sugar/citrus acid coating. They will be similar in appearance and texture to a hard candy drop or cough lozenge.
Ingredients:	granulated sugar, water, tapioca syrup, citric acid, ginger, lemon lemon extract, N-Butane Concentrate (winterized cannabis extract) Optional: Alaska Hemp Program endorsed hemp concentrate product (e.g., hemp concentrate high in CBD, CBN, CBC or CBG). Optional: TiME INFUSION Activator®
Standard Production Procedure and Detailed Manufacturing Process:	Calculate the dosage of decarboxylated cannabis concentrate to be added to the batch. Bring first 3 ingredients (sugar, water, syrup) to 305 degrees F, then mix in the citric acid, ginger, and lemon extract. Add in the cannabis extract (Add Alaska Hemp Program concentrate [concentrated CBD, CBG, CBN, CBC] if applicable; Optional, for fast acting version add: Infuse cannabis with TiME INFUSION Activator®), mix, then pour into molds immediately. Let cool before extracting candy from molds. Mix powdered sugar and citric acid powder together to create coating. Toss the candy in coating.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.
