Section 6 – Proposed Marijuana Concentrates and Marijuana Products

Review the requirements under 3 AAC 306.520, 3 AAC 306.525, and 3 AAC 306.560.

Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	Totem Tinctures		
Product Type: Choose one.	Other Marijuana Product		
Perishable: Yes/No	Yes	**Shelf Life:** If perishable.	1 Year
Intended Use: Smokable/ edible/topical/wholesale/etc.	Edible		

Product Description: Details must include the color, shape, and texture.	Totem Tinctures are preloaded sealed pipettes or syringes filled with cannabis oil. Tinctures have a consistency that varies from liquid to gel form ranging fom light yellow to dark amber in color.
Ingredients:	CO2 concentrate (C02 concentrate will consist of either; crumble, shatter, rosin, kief, green acres oil), (with and without) food grade ethanol, safflower oil, vegetable oil, coconut oil, glycerin, MCT oil (medium-chain triglyceride), artificial flavor (such as; oils (mint, lemon, rosemary, and thyme), extracts (lemon, mint, vanilla, orange, ginger, lime, kiwi, blueberry, cherry, grape, strawberry, raspberry and blackberry), food color. Continued in additional space...
Standard Production Procedure and Detailed Manufacturing Process:	High purity, food grade ethanol is measured using pipette and placed in a preloaded syringe or pipette bottle, not to exceed 100mg THC per bottle or syringe. High purity cannabinoid oil is then measured using a pipette and added to the ethanol. The "container" is then sealed and stored in a refrigerator. Syringe will have demarcations indicating each 5mg or 10mg of THC serving. Pipette will have graduated lines to indicate serving size.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.	Product is for oral consumption. This product provides an edible option to consumers who do not want to consume sugar/calories that most edibles contain.

Section 7 – Proposed Product Packaging and Sample Labels

Review the requirements under 3 AAC 306.520, 3 AAC 306.565, and 3 AAC 306.570.

Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	Totem Tinctures
Product Type:	Other Marijuana Products

Packaging Description: Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.	Totem Tinctures will be packaged in child resistant, sealed mylar bags with an optional clear section to display the product. If the optional display is used then product will be placed into an opaque container prior to the customer leaving the store. Inside the child resistant packaging, the tincture will be packaged in; a preloaded sealed pipette, a syringe or either a 15ml or 30ml pipette bottle. Syringe will have demarcations indicating each 5mg of THC serving, 10 servings per syringe totaling 50mg of THC per package. Pipette bottles/syringes will contain the following: 3ml = 1 serving (5mg of THC), 15ml = 5 servings (25mg of THC), 30ml = 10 servings (50mg of THC). Or Pipette bottles/syringes will contain the following: 3ml = 1 serving (10mg of THC), 15ml = 5 servings (50mg of THC), 30ml = 10 servings (100mg of THC)
Sample Labels: Provide sample labels showing how the labeling requirements set forth in 3 AAC 306.570 will be met.	Please see attached label. Product labels will clearly reflect total THC on package.
