Alaska Marijuana Control Board

Form MJ-16: Proposed New Marijuana Product

What is this form?

This proposed new marijuana product form is required for a marijuana product manufacturing facility licensee who is seeking Marijuana Control Board (MCB) approval of a new marijuana product or marijuana concentrate for production at its licensed premises, as required under 3 AAC 306.100 and 3 AAC 306.525. **The required $250 proposed new marijuana product fee may be made by check, cashier's check, or money order.**

This form must be completed and submitted to AMCO's main office prior to production of any new marijuana product or marijuana concentrate. **The proposed new marijuana product may not be produced unless and until the MCB has approved of the product.**

Please note that licensees seeking approval of more than one proposed new marijuana product or marijuana concentrate must submit a separate completed copy of this form and pay a separate fee for each proposed new marijuana product or marijuana concentrate.

Section 1 – Establishment Information

Enter information for the business seeking to be licensed, as identified on the license application.

Licensee:	L & J Ventures, Inc.	**MJ License #:**		15790

Received by AMCO 1.27.22

Form MJ-16: Proposed New Marijuana Product

Section 3 – Proposed Product Details

Enter information for the marijuana product for which you are seeking MCB approval.

Product Description: Details must include the color, shape, and texture.	Topical has a creamy texture that is smooth and oily to the touch. Topical is white to yellow, brownish, or green and takes the shape of its container.
Ingredients:	Base oil (Macadamia Nut Oil, Tallow, Almond Oil, Jojoba Oil, Tamanu Oil, etc), base wax (berry wax, bees wax, carnauba wax, candelilla wax, etc) botanical extracts (myrrh, rosemary, arnica, calendula, frankincense, etc), essential oils, vitamin E, cannabis concentrate (Cannabis concentrate may be: shatter, wax, sugar, sugar wax, kief, crumble, distillate, sauce, C02 oil, rosin, resin, budder, bubble hash). Actual cannabis concentrate used in production will be clearly indicated on the final product label.
Standard Production Procedure and Detailed Manufacturing Process:	Base oils are warmed and combined with warmed botanical extracts and warmed cannabis concentrate. Mixture is then homogenized with essential oils using a high shear mixer. Homogenized mixture is then whipped while cooling. Whipped cooled cream will be loaded into containers and stored in a cool place.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.
