To whom it concerns:

The purpose of this document is to explain the measures taken to ensure that minors (or anyone under the age of 21), cannot gain access to the Limited Marijuana Cultivation, Fireweed Farm (License #31938), as requested by Ms. Audrey Saylor.

The application complies with all AMCO regulations, 3 AAC 306.020, to ensure that all regulations are met or exceeded by Fireweed farm.

Fireweed Farm cultivation facility shall ensure that each agent who is required or permitted to be physically present on the licensed premises at any time and each licensee and each employee will obtain a marijuana handler permit as provided in 3 AAC 306.700 before being licensed or employed at the marijuana cultivation facility's licensed premises. And has the marijuana handler permit card in the person's immediate possession, or a valid copy on file on the premises, at all times while on the marijuana cultivation facility's licensed premises. Fireweed Farm will follow this regulation set forth, deeming it impossible to gain access to the licensed premises area as a minor.

In Fireweed Farm's restricted access area, a licensee, employee, or agent of the marijuana establishment shall have on display, either on the person or in a readily accessible location on the licensed premises, a current identification badge bearing the person's photograph. A person under 21 years of age may not enter a restricted access area. Any visitor to the restricted access area must show identification as required in 3 AAC 306.350 to prove that person is 21 years of age or older.

Fireweed Farm cultivation facility shall conduct any operation in a restricted access area in compliance with 3 AAC 306.710 and this section. Fireweed Farm marijuana cultivation facility shall conduct any marijuana growing operation within a fully enclosed secure indoor facility. Fireweed Farm marijuana cultivation facility shall ensure that any marijuana at the marijuana cultivation facility cannot be observed by the public from outside the marijuana cultivation facility; and does not emit an odor that is detectable by the public from outside the cultivation facility. Fireweed Farm marijuana cultivation facility shall have full video surveillance of the licensed premises as required under 3 AAC 306.720, including any area where marijuana is grown, processed, packaged, or stored, or where marijuana waste is destroyed. Fireweed Farm will comply will regulation, 3 AAC 306.710, thusly ensuring that minors under the age of 21 will not be able to access, the secure facility, smell any associated odor or see any marijuana product at any time. Additionally, Fireweed Farm will be utilizing video surveillance in accordance to 3 AAC 306.720, to ensure that the licensed premises is monitored 24/7 with enough storage capacity for 40 days of continuous backup storage.

Fireweed Farm cultivation facility shall use a marijuana inventory tracking system in compliance with 3 AAC 306.730 to ensure all marijuana propagated, grown, or cultivated on the marijuana cultivation facility's premises cannot be diverted. In compliance with 3 AAC 306.730, Fireweed Farm will be able to accurately track and ensure that marijuana product cannot be diverted by anyone, or minors under the age of 21.

At Fireweed Farm's discretion samples maybe provided to employees for quality control testing. Fireweed Farm will comply with, 3 AAC 306.460, to ensure that all regulations are met, for the safety of minors under the age of 21. Samples that leave the licensed premises will be packaged in opaque, re-sealable, child-resistant packaging and clearly marked or labeled "For Quality Control". The packaging is designed or constructed to be significantly difficult for children under five years of age to open, but not

normally difficult for adults to use properly. Each sample is tested under 3 AAC 306.455 and 3 AAC 306.645 before being provided to an employee under this subsection.

In the event that an employee of Fireweed Farm requires to breastfeed, Fireweed Farm will allow the employee access to the residence portion of the structure. If the employee would rather breast feed in the licensed premises, Fireweed Farm will comply with AMCO regulation, 3 AAC 306.712 and designate an approved area in which the employee can safely and lawfully breastfeed their infant, under the age of 12 months. A licensee or employee of a licensee may bring a child up to 12 months of age, who is the child of the licensee or employee, onto the licensed premises, excluding a restricted access area described under 3 AAC 306.710, for the purpose of breastfeeding the licensee or employee's child. A licensee may designate an area for breastfeeding or for the expression of breast milk. A designated area may not include a restricted access area described under 3 AAC 306.710. Fireweed Farm will not construed to supersede or change the requirements of 29 U.S.C. 207 (Section 7 of the Fair Labor Standards Act of 1983) or any other law applicable to breastfeeding in the workplace.

In compliance with 3 AAC 306.715, Fireweed Farm will provide a security alarm systems and lock standards. There is a separate exterior entrance to the licensed premises portion of the structure. In order to gain access you must utilize a designated exterior staircase. At the bottom of the staircase is a designated exterior door. This door is locked 24/7 with a commercial grade lock and steel doors. Outside this exterior door is a camera; it is in addition to the required video surveillance set forth in: 3 AAC 306.720. Once you gain entrance to this exterior door, utilizing a key, you will enter a mother-in-law apartment. Inside the apartment, and shown in MJ-02 Diagram 1, a wall constructed to act as an un-restricted sign-in area for the cultivation. This wall contains a door that has a commercial grade biometric lock; this lock is programmed to utilize the thumbprint of the owner and designated employees. Any employee that has access to this biometric lock is an AMCO, Marijuana Handler Card holder, thusly over the age of 21 and vetted heavily by the State of Alaska. Once personnel has gained entrance to the check-in area, there is a third locked door. This door is a steel commercial grade door with an additional lock that requires *both* a key for a deadbolt and a biometric lock. On this door is a sign that reads "restricted access area visitors must be escorted", this signage complies with AMCO regulation: 3 AAC 306.710, restricted access areas. Again, the biometric lock is programed to only allow approved personnel, over the age of 21 entrance. This complies with regulation, 3 AAC 306.720.

The residence portion of the structure, is on the second and third story of the structure. The residence portion of the structure is 4000 square feet, providing amble room for living without the need for the additional 1500 square feet in the basement that has been designated for a limited cultivation area. The residence portion of the structure has a designated heating and ventilation system. The residence portion of the structure has a separate electrical panel and water supply system, ensuring that anyone, including minors residing in the residence portion of the structure do not have a compromised lifestyle. The residence portion of the structure has three additional access points, which are completely separate of the basement entrance. The residence has additional motion sensor cameras, equipped with motion sensors and night vision, covering all areas outside the home. These cameras are a separate monitoring system and redundant to the video surveillance designated for the limited cultivation.

It is in Fireweed Farm's best interest to ensure that minors under the age of 21 cannot gain access. If minors were to gain access to the cultivation area, it would jeopardize the ability to cultivate marijuana. Fireweed Farm, ownership, would like to comply with all AMCO regulations and feel fortunate to have

the opportunity to create jobs, sustainable tax income for the State of Alaska, and to improve the legal marijuana industry. If there are any further questions feel free to reach out directly at any time.

Sincerely,

Liz Warren
