To AMCO:

I am writing this letter to you to explain why we received NOV's.

As the industry sits I am forced to start consigning and doing NET pay options with our product to the many stores we do business with.

Sometimes the stores are late with payment. When the stores are late with payment it leaves us unable to pay the taxes on time. Due to these unforeseen circumstances We have acquired said NOV's.

When the stores do make payment we are able to then pay the State Taxes as soon as possible.
