Dear Investigator Linger,

Thank you for bringing this matter to our attention. We take compliance with all regulations, including odor control requirements, very seriously at BAM Alaska.

On December 30, 2024, during your observation, we were in the process of harvesting one of our most aromatic strains, Phatso. Harvesting this particular strain tends to produce a notably strong odor, which may have contributed to the detectable smell beyond our facility boundaries.

Upon receiving your notice, we conducted an immediate inspection of our odor mitigation systems. During this inspection, we discovered that one of our fans was not plugged in correctly, which likely reduced the effectiveness of our ventilation system. Additionally, we have replaced the charcoal filter connected to the exhaust fan in the harvest room to ensure optimal performance.

We are confident that these corrective actions will effectively address the odor issue and prevent future occurrences. Please feel free to reach out if you have any further questions or require additional information.

Thank you for your understanding and cooperation.

Sincerely,

Steve Voth
