Alaska Marijuana Control Board

Operating Plan Supplemental

Form MJ-05: Marijuana Product Manufacturing Facility

Why is this form needed?

This operating plan supplemental form is required for all applicants seeking a marijuana product manufacturing facility license and must accompany **Form MJ-01: Marijuana Establishment Operating Plan**, per 3 AAC 306.020(b)(11). Applicants should review **Chapter 306: Article 5** of the **Alaska Administrative Code.** This form will be used to document how an applicant intends to meet the requirements of the statutes and regulations.

If your business has a formal operating plan, you may include a copy of that operating plan with your application, but all fields of this form must still be completed per 3 AAC 306.020 and 3 AAC 306.520(3).

What additional information is required for cultivation facilities?

Applicants must identify how the proposed establishment will comply with applicable regulations regarding the following:

- Equipment, compounds, and processes to be used
- Waste disposal
- Testing procedure and protocols
- Proposed marijuana concentrates and marijuana products
- Proposed product packaging and sample labels
- Prohibitions

This form must be completed and submitted to AMCO's Anchorage office before any new or transfer application for a marijuana product manufacturing facility or marijuana concentrate manufacturing facility license will be considered complete.

Section 1 – Establishment Information

Enter information for the business seeking to be licensed, as identified on the license application.

Licensee:	ACDH, LLC	**MJ License #:**		37044	
License Type:	Marijuana Concentrate Manufacturing Facility				
Doing Business As:	Ski Bunny Buds				
Premises Address:	5768 E. Ski Bunny Circle				
City:	Palmer	**State:**	Alaska	**ZIP:**	99645

Section 2 – Overview of Operations

2.1. Provide an overview of your proposed facility's operations. Include information regarding the intake, flow, and transfer of marijuana, marijuana concentrate, and marijuana product at and from your premises:

When an Incoming transfer of marijuana or marijuana product arrives at our facility from another facility, the transfer agent will be greeted and will have their marijuana handler permit checked by our staff before being granted access to our facility. All transfers will occur in the secure portion of our facility. All visitors , including other licensees and transfer agents, will be logged in our visitors log and wlll be issued a visitors pass to wear prior to being granted access to enter the secure portion of our facility. Every Incoming transfer will be verified against the manifest; ensuring package tags are with product and match product, and that the quantities and weights manifested are accurate. Once weights, quantities, and package tags have been verified, the manifest will be signed and dated by the receiving manager on duty and the time of acceptance will be noted on the hard copy of the manifest and the transfer will be accepted in METRC. If any variance should exist between the manifested quantity and the actual quantity, every effort will be made to reach the licensee before accepting or rejecting any transfer. Incoming packages of marijuana, whether coming from our own cultivation or from a 3rd party, will all be clearly labeled and marked to readily identify that they are packages belonging to the extraction facility, not the cultivation. Marijuana belonging to each license will be stored separately.

Section 3 – Equipment and Compounds to be Used

Review the requirements under 3 AAC 306.555.

3.1. Describe the equipment and solvents, gases, chemicals, and other compounds the marijuana product manufacturing facility will use to create marijuana concentrates:

We will be using a heated hydraulic press, a counter top convection oven, a bubble hash washing vessel, a freezer, and a grinder. We will not be using any gasses or chemicals in our manufacturing processes. Only heat, mechanical, pressure, water, ice, and temperature control methods will be used.

Section 4 – Waste Disposal

Review the requirements under 3 AAC 306.740.

4.1. Describe how you will store, manage, and dispose of any solid or liquid marijuana waste, including expired or outdated marijuana or marijuana product, in compliance with any applicable laws. Include details about the material(s) you will mix with ground marijuana waste and the processes that you will use to make the marijuana waste unusable for any purpose for which it was grown or produced:

Any waste produced in our manufacturing processes will be weighed and logged and fully rendered unusable before it leaves the facility. Any marijuana waste which must be disposed of, whether due to spoilage, quality control issues, or otherwise, will be mixed, mulched, and/or ground into a 50/50 mixture with other organic materials such as newspaper clippings, coffee grounds, food scraps, etc. and then may be incinerated or taken to the nearest landfill. A record will be maintained logging the source, weight, type, method of disposal, and final destination of all waste which includes marijuana or marijuana product. Any marijuana byproduct (concentrates in any phase or form) which requires disposal will be cleaned up with isopropyl alcohol. Any substantive amount of marijuana byproduct or concentrates which requires disposal will be mixed intoo a 50/50 or greater solution then mixed mulched or ground with organic materials as described above and incinerated via burn barrel or disposed of at the transfer site.

Section 5 – Testing Procedure and Protocols

Review the requirements under 3 AAC 306.520 and 3 AAC 306.550.

You must be able to certify the statement below. Read the following and then sign your initials in the box to the right:	Initials
5.1. I will ensure that any individual responsible for collecting random samples for required laboratory testing under 3 AAC 306.550 will prepare the necessary accompanying signed statement, provide the signed statement to the marijuana testing facility, and maintain a copy as a business record under 3 AAC 306.755.	☑

Answer "Yes" or "No" to the following question:	Yes	No
5.2. Will the marijuana product manufacturing facility be performing in-house testing (as defined under 3 AAC 306.990(b)(20)?	☐	☑

If "Yes" to 5.2, you must be able to certify the statement below. Read the following and then sign your initials in the box:	Initials
5.3. The area where in-house testing will occur is clearly identified on the Form MJ-02: Premises Diagram that is submitted with this application.	☐

5.4. Describe the testing procedures and protocols the marijuana product manufacturing facility will follow:

After a production batch is produced a representative sample will be pulled, packaged, and sent to a licensed testing facility. The production batch will be segregated until such a time as the labs clear testing. A random sampling statement will accompany the product to the lab and a copy of the labs will be provided with each wholesale purchase and will be maintained in our records.

Section 6 – Proposed Marijuana Concentrates and Marijuana Products

Review the requirements under 3 AAC 306.520, 3 AAC 306.525, and 3 AAC 306.560.

Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	Ski Bunny Honey		
Product Type: Choose one.	Marijuana Concentrate		
Perishable: Yes/No	Yes	**Shelf Life:** If perishable.	N/A-
Intended Use: Smokable/ edible/topical/wholesale/etc.	smokable		

Product Description: Details must include the color, shape, and texture.	Ski Bunny Honey is our proprietary solventless rosin, which may vary greatly in consistency, texture and color depending on the marijuana it is derived from. It may be viscous, translucent, and light yellow, like honey, but can also be sappy, granular, or even brittle. It may range in color from light yellow to dark amber and may produce hues of green or brown as well.
Ingredients: If a hemp derived product/CBD is an ingredient, what is the quantity and you must provide the SOA Department of Agriculture's registration number.	N/A
Flavors: List all current and potential future flavors:	N/A We will not have any flavors but may market this product simply as Ski Bunny Honey or as Strain Specific Ski Bunny Honey
Standard Production Procedure and Detailed Manufacturing Process:	Plant material will be loaded into a rosin bag. The material will be "pre-pressed" without heat. Then the material will be preheated on our rosin press before pressure is slowly applied until achieving maximum PSI. The rosin will then be collected and stored in a rosin jar until it is cured and ready for testing. It will be portioned off for retail sale in quantities of .5, 1.0, 3.5, and 7.0g
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.	

Section 7 – Proposed Product Packaging and Sample Labels

Review the requirements under 3 AAC 306.520, 3 AAC 306.565, and 3 AAC 306.570.
Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	SKI BUNNY HONEY
Product Type:	Solventless Marijuana Concentrate

Packaging Description:
Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.

Sample Labels:
Provide sample labels showing how the labeling requirements set forth in 3 AAC 306.570 will be met.

Warning Label on Box & Bag:

Marijuana has intoxicating effects and may be habit forming and addictive. Marijuana impairs concentration, coordination, and judgment. Do not operate a vehicle or machinery under its influence. For use only by adults twenty-one and older. Keep out of the reach of children. Marijuana should not be used by women who are pregnant or breastfeeding.

Product Label on Bag

(Strain Name) Ski Bunny Honey
Indica/Sativa/Hybrid
Manufactured by Ski Bunny Buds - License #37044
Total THC = 68.48% THC-V = 0.67%
Total CBD = 0.45% CBG-A = 0.37%
314 mg Total THC Total Terps = 2.52%
Microbial Screening and Residual Solvent Analysis: PASSED
Lot/Batch # 1.ABC.1.2.3 METRC ID# 12345678901234567

Section 6 – Proposed Marijuana Concentrates and Marijuana Products

Review the requirements under 3 AAC 306.520, 3 AAC 306.525, and 3 AAC 306.560.

Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	Ski Bunny Honey Carts		
Product Type: Choose one.	Marijuana Concentrate		
Perishable: Yes/No	Yes	**Shelf Life:** If perishable.	N/A-
Intended Use: Smokable/ edible/topical/wholesale/etc.	smokable/vapeable		

Product Description: Details must include the color, shape, and texture.	Ski Bunny Honey Carts will be made from our proprietary solventless rosin, which may be flower or hash based. They will be made available in .5g and 1.0 gram 510 threaded carts with ceramic coils. These carts may be ceramic, glass or plastic tipped in many popular colors and styles and will feature our logo for easy identification. They contain a viscous, sappy, honey like oil, extracted through our solventless process. It will be translucent and the color may vary from a light yellow to a dark amber.
Ingredients: If a hemp derived product/CBD is an ingredient, what is the quantity and you must provide the SOA Department of Agriculture's registration number.	N/A
Flavors: List all current and potential future flavors:	N/A We will not have any flavors but may market this product simply as Ski Bunny Honey Carts or as Strain Specific Ski Bunny Honey Cart
Standard Production Procedure and Detailed Manufacturing Process:	Plant material or hash will be loaded into a rosin bag. The material will be "pre-pressed" without heat. Then the material will be preheated on our rosin press before pressure is slowly applied until achieving maximum PSI. The rosin will then be collected and stored in a rosin jar until it is cured and ready for testing. After a production batch has passed testing the product will be transferred into cartridges, packaged, and labeled accordingly.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.	

Section 7 – Proposed Product Packaging and Sample Labels

Review the requirements under 3 AAC 306.520, 3 AAC 306.565, and 3 AAC 306.570.
Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	SKI BUNNY HONEY CARTS
Product Type:	Solventless Marijuana Concentrate

Packaging Description:
Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.

Depending on pricing, availability, and market trends, .5g and 1.0g Ski Bunny Honey Carts may be prepackaged in proportionately sized "doob tubes" which would be child resistant and opaque and would bear the warning label, then would be further packaged inside of a heat sealed, tamper evident, child resistant opaque though typically black bag OR would be packaged in a child resistant, tamper evident, push/pull style box.

Sample Labels:
Provide sample labels showing how the labeling requirements set forth in 3 AAC 306.570 will be met.

Back of bag/box labeling

Marijuana has intoxicating effects and may be habit forming and addictive. Marijuana impairs concentration, coordination, and judgment. Do not operate a vehicle or machinery under its influence. For use only by adults twenty-one and older. Keep out of the reach of children. Marijuana should not be used by women who are pregnant or breastfeeding.

(Strain Name) Ski Bunny Honey Cart

Indica/Sativa/Hybrid

Manufactured by Ski Bunny Buds - License #37044

Total THC = 68.48% THC-V = 0.67%

Total CBD = 0.45% CBG-A = 0.37%

314 mg Total THC Total Terps = 2.52%

Microbial Screening and Residual Solvent Analysis: PASSED

Lot/Batch # 1.ABC.1.2.3 METRC ID# 1234567890123456 7

Section 6 – Proposed Marijuana Concentrates and Marijuana Products

Review the requirements under 3 AAC 306.520, 3 AAC 306.525, and 3 AAC 306.560.

Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	Ski Bunny Carats		
Product Type: Choose one.	Marijuana Concentrate		
Perishable: Yes/No	Yes	**Shelf Life:** If perishable.	N/A
Intended Use: Smokable/ edible/topical/wholesale/etc.	Smokable		

Product Description: Details must include the color, shape, and texture.	Solventless diamonds are small clear-colored chunks of crystallized THCA that are extracted without the use of solvents.
Ingredients: If a hemp derived product/CBD is an ingredient, what is the quantity and you must provide the SOA Department of Agriculture's registration number.	Marijuana and Marijuana extracts
Flavors: List all current and potential future flavors:	Flavors are to be naturally occurring, based on strain type and any residual terpenes.
Standard Production Procedure and Detailed Manufacturing Process:	Solventless techniques for THCA separation involve repressing rosin with a waxy or stiff budder texture at low pressures and low temperatures. This process causes the waxes, lipids, terpenes, and other cannabinoids to flow out of the rosin bag, leaving the white THCA behind.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.	

Section 7 – Proposed Product Packaging and Sample Labels

Review the requirements under 3 AAC 306.520, 3 AAC 306.565, and 3 AAC 306.570.

Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	Ski Bunny Carats
Product Type:	Marijuana Concentrates

Packaging Description: Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.	Ski Bunny Carats will be packaged for distribution in little jars from .5g to 7.0g and will feature our company logo. These jars will then be placed in a size appropriate child resistant tamper evident mylar bag or box. We intend to use black packaging but in the event of any product shortage or supply chain issues we may substitute with silver, white, or any other opaque color.
Sample Labels: Provide sample labels showing how the labeling requirements set forth in 3 AAC 306.570 will be met.	Warning Label on Box & Bag: Marijuana has intoxicating effects and may be habit forming and addictive. Marijuana impairs concentration, coordination, and judgment. Do not operate a vehicle or machinery under its influence. For use only by adults twenty-one and older. Keep out of the reach of children. Marijuana should not be used by women who are pregnant or breastfeeding. Review the requirements under 3 AAC 306.520, 3 AAC 306.525, and 3 AAC 306.560.

Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	Ski Bunny Bubble		
Product Type: Choose one.	Marijuana Concentrate		
Perishable: Yes/No	Yes	**Shelf Life:** If perishable.	N/A
Intended Use: Smokable/ edible/topical/wholesale/etc.	Smokable		

Product Description: Details must include the color, shape, and texture.	Bubble hash refers to a specific type of hash made with a process involving ice water. Like traditional hash, bubble hash is a solid concentration of cannabis resin glands, or trichomes. It can range in color from light blonde to dark brown. Bubble hash gets its name from its tendency to bubble when brought under a lighter's flame.
Ingredients: If a hemp derived product/CBD is an ingredient, what is the quantity and you must provide the SOA Department of Agriculture's registration number.	Marijuana Extract
Flavors: List all current and potential future flavors:	Flavors are naturally occurring based on the terpene profile and to be specified as strain based only, no artificial flavors.
Standard Production Procedure and Detailed Manufacturing Process:	Bubble Hash is made by agitating dry cured marijuana plant material in a vessel filled with ice and water, then further processed through a series of increasingly smaller micron bubble bags. Material is graded by quality and consistency, air/freeze dried to a proper moisture content prior to storage/packaging.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.	

Section 7 – Proposed Product Packaging and Sample Labels

Review the requirements under 3 AAC 306.520, 3 AAC 306.565, and 3 AAC 306.570.

Section 6 – Proposed Marijuana Concentrates and Marijuana Products

Review the requirements under 3 AAC 306.520, 3 AAC 306.525, and 3 AAC 306.560.

Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	Ski Bunny Honey Cones		
Product Type: Choose one.	Other Marijuana Product		
Perishable: Yes/No	Yes	**Shelf Life:** If perishable.	N/A
Intended Use: Smokable/ edible/topical/wholesale/etc.	Smokable		

Product Description: Details must include the color, shape, and texture.	Ski Bunny Honey Cones will be a combination of cannabis flower quantities ranging from .5g to 28.0g (never to exceed 28.0g) and any of our proprietary marijuana extracts (Flower Rosin, Bubble Hash, Hash Rosin, Live Rosin, THC Diamonds, etc) ranging from .25g to 7.0g (never to exceed 7.0g/5600mg THC). They will be packaged within industry standard preroll cones/wraps of many different colors and or varieties depending on strain type and marketing value.
Ingredients: If a hemp derived product/CBD is an ingredient, what is the quantity and you must provide the SOA Department of Agriculture's registration number.	Marijuana and Marijuana Extracts
Flavors: List all current and potential future flavors:	Flavors are naturally occurring based on terpene profile and to be specified as strain based only, no artificial flavors.
Standard Production Procedure and Detailed Manufacturing Process:	Ski Bunny Honey Cones will be hand crafted and mixed with different ratio of marijuana flower to marijuana extracts based on cone/wrap size, product type, popularity of product, etc. Packaged and sealed with industry standard and approved packaging prior to distribution.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.	

Section 7 – Proposed Product Packaging and Sample Labels

Review the requirements under 3 AAC 306.520, 3 AAC 306.565, and 3 AAC 306.570.

Attach a completed copy of this page for <u>each</u> proposed marijuana concentrate or marijuana product.

Product Name:	Ski Bunny Honey Cones
Product Type:	Preroll/Cannagar

Packaging Description: Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.	Ski Bunny Honey Cones will be packaged for distribution in a size appropriate child resistant tamper evident mylar bag or box with our company logo. We intend to use black packaging but in the event of any product shortage or supply chain issues we may substitute with silver, white, or any other opaque color.
Sample Labels: Provide sample labels showing how the labeling requirements set forth in 3 AAC 306.570 will be met.	Warning Label on Box & Bag: Marijuana has intoxicating effects and may be habit forming and addictive. Marijuana impairs concentration, coordination, and judgment. Product Name:	Ski Bunny Live Rosin		
Product Type: Choose one.	Marijuana Concentrate		
Perishable: Yes/No	Yes	**Shelf Life:** If perishable.	N/A
Intended Use: Smokable/ edible/topical/wholesale/etc.	Smokable		

Product Description: Details must include the color, shape, and texture.	Ski Bunny Live Rosin will be viscous in nature and can be smooth or granular, translucent or opaque, and may vary from a creamy white to a light yellow to amber.
Ingredients: If a hemp derived product/CBD is an ingredient, what is the quantity and you must provide the SOA Department of Agriculture's registration number.	Marijuana and or marijuana extracts.
Flavors: List all current and potential future flavors:	Flavors are naturally occurring based on the terpene profile and to be specified as strain based only, no artificial flavors.
Standard Production Procedure and Detailed Manufacturing Process:	Live rosin is a solventless cannabis concentrate made from fresh-frozen cannabis plants. Fresh frozen material is processed through a hash washing vessel with increasingly smaller micron size bags for optimum hash separation. Hash is then air/freeze dried to satisfactory moisture content, and further extracted through heat and pressure via heated hydraulic press resulting in the final product.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.

Section 8 – Prohibitions

Review the requirements under 3 AAC 306.510.

8.1. I certify that the marijuana product manufacturing facility will not: Initials

a. **Sell, deliver, distribute, or transfer any marijuana, marijuana concentrate, or marijuana product directly to a consumer, with or without compensation;**

b. **Allow any person, including a licensee, employee, or agent, to consume marijuana, marijuana concentrate, or marijuana product on the licensed premises; or**

c. **Manufacture or sell any product that is an adulterated food or drink, closely resembles a familiar food or drink item including candy, or is packaged to look like candy, or in bright colors or with cartoon characters or other pictures or images that would appeal to children.**

I hereby certify that I am the person herein named and subscribing to this application and that I have read the complete application, and I know the full content thereof. I declare that all of the information contained herein, and evidence or other documents submitted are true and correct. I understand that any falsification or misrepresentation of any item or response in this application, or any attachment, or documents to support this application, is sufficient grounds for denying or revoking a license/permit. I further understand that it is a Class A misdemeanor under Alaska Statute 11.56.210 to falsify an application and commit the crime of unsworn falsification.
