Hello AMCO/Licensing,

I am making a written request to have my late application fees reversed/ forgiven, due to two Factors that affected my ability to pay my renewal fees in a timely manner. This came to light when I called the licensing department July 3rd 2025 and spoke to Logan, one of the licensing agents; when I had called concerning my renewal payment page for licenses 10112 and 10113 because the payment amount was not $5000, rather it was $7000. On June 19th 2025 I had sustained a concussion and broke my back from a fall off of a ladder. I had intended before my injury to contact AMCO concerning the fact that it was still $7000, not $5000, with no way to change the amount.

Due to the timing and severity of my injury I was not capable of following up until 07/03/25, following a Dr's appointment. When I spoke to the licensing agent Logan he checked on this situation with other Licensing agents and they told me I could write to the AMCO board and request this forgiveness based on the fact that the incorrect amount was still on the payment page for my licenses. I was instructed to write this letter when I talked to licensing but I forgot due to my memory, I have experienced extensive memory issues. I remembered a second time when they reached out about the fee on 08/08/25, but I forgot to write this letter again until 08/20/25 when I received letters of temporary licensing. I made a note to write this letter ASAP, as my memory has been improving greatly as of late.

I am making this request due to the extensive circumstances surrounding my injury and the payment page having the incorrect amounts on my license renewals.

Thank you for your time and consideration.

Sincerely,
Shawn Coyle
