1 **4. Introduction of Special Topic: Concerning the Call for a Board Statement on COVID-19 Treatment**  
2 **and Misinformation**

3 Chair Wein provided the introduction. Prior to the November 19, 2021 Quarterly Board Meeting there  
4 was a flurry of public interest in the Medical Board related to how the board is going to deal with the  
5 concept of “COVID Misinformation,” and the sanctioning of practitioners who potentially promote the  
6 concept of COVID Misinformation. The Board received approximately 1600 emails and 90 registrants to  
7 provide public testimony in response to this matter. The board doubled its usual amount of time for  
8 persons to be heard during the November 19 quarterly meeting and received verbal testimony from  
9 approximately 30 individuals. Upon review of all of the written and verbal comments, a pattern emerged  
10 in the messages from constituents, both licensees of the board and members of the public. There were  
11 those who urged the board to support the use of early therapeutics and those who urged the board to  
12 sanction providers who are believed to promote misinformation about early therapeutics. Many  
13 constituents urged the board to issue a clarifying statement on the board’s stance concerning these  
14 issues. As a result, the board agreed to call this special meeting to discuss this matter.

15 **A. Introduction of Draft Statement & Discussion**

16 Chair Wein read the statement that he prepared for the board’s consideration (See Attachment I). He  
17 reiterated that individual due process must take priority with respect to any stance the board may take  
18 on the sanctioning of practitioners. Chair Wein referenced an updated statement from Humayun J  
19 Chaudhry, D.O., CEO of the Federation of State Medical Boards, “Not all instances of potential  
20 misinformation are clear cut, doctors must be granted due process, and the Board must hear all aspects  
21 of a case.” from a *Washington Post* article by Rachel Rouben dated December 6, 2021 entitled “Some  
22 doctors spreading coronavirus misinformation are being punished,”

23 Members of the board were invited to provide their individual thoughts on this important topic.  
24

25 Dr. Parker stated that he thinks the statement is excellent because ethically and by law all matters that  
26 come before the board must be handled the same. It would not be a just process if the board changed  
27 every time there is a public outcry.  
28

29 Ms. Bigelow-Hood stated that she supports and agrees with the statement and believes this is the  
30 direction the board should go.  
31

32 Dr. Heilala stated that he believes the statement needs no modification. As written, the statement  
33 focuses the mission on what is under the purview of the State Medical Board and how it functions. It  
34 does not compromise the perception that each case must be adjudicated individually on its own merits.  
35

36 Ms. Mielke stated that she read over 600 comments prior to the last board meeting and she appreciated  
37 hearing from Alaskans. However, the board does not base disciplinary or licensing decisions off of public  
38 or personal opinions. Board decisions are based on the law, so unless the law changes the board is  
39 bound to follow it as written. The law is there for a reason and the investigative process is there for a  
40 reason. “Today, when there is a lot going on in the world, it is important to follow the law. We have  
41 been very careful and cautious in the past with discipline and other license actions and I am confident

1 we will continue to follow that process and procedure and maintain that professional integrity. I  
2 support the statement as well.”

3  
4 Dr. Freeman stated that she believes the statement is a good statement. “It is broad enough so that  
5 people can stop pointing fingers. Once again, this is a good statement.”

6  
7 Dr. Olamikan stated, “I think the statement is good and I agree with it.”

8  
9 **On a motion duly made by Dr. Parker and seconded by Ms. Bigelow-Hood, the Board**  
10 **approved by roll call vote to accept the draft statement as presented as the official statement**  
11 **of the Medical Board.**

12 Roll Call: Yeas, Ms. Bigelow Hood, Dr. Freeman, Dr. Heilala, Ms. Mielke, Dr. Olamikan, Dr. Parker and Dr.  
13 Wein  
14

15 **5. Wrap up/Adjourn**

16 Chair Wein thanked the Board for their participation in the meeting, citing the importance for the Board  
17 to clarify the Board’s role in regulatory matters. Chair Wein reiterated that the Board’s primary role is  
18 the fair and equitable treatment of all providers who come before the board.

19 The Meeting was adjourned by unanimous consent at 5:36 p.m.
