Use – Review Compliance

Federally Scheduled II – III controlled substances, over a three-day supply (emergency, surgical and oncology specialties are omitted). The database does not capture treatment codes and is therefore not able to account for prescription(s) not reviewed due to some of the exemptions in AS 17.30.200(k)(4)(A).

Q2 2023: 47%

Q3 2023: 48%

Delinquent Reporters

We are reaching out to providers to ensure they understand how and when to report.

Gateway

APRN's conducted 33,594 patient reviews in Q3 2023. This table shows the number of reviews being performed through Gateway vs. AWARxE web-based platform. Approximately 60% of reviews are coming through Gateway Integrations.

	Gateway	AWARxE	Total
July	6,339	4,207	10,546
August	7,642	4,925	12,567
September	6,323	4,158	10,481

Recommendations

- Promote increased reviewing. Mandatory review applies to non-refillable federally scheduled II – III controlled substances over a three-day supply (for further exemptions see AS 17.30.200(k)).
- Remind providers who are directly dispensing to report daily, including zero reports.
